On February 20th, the United States Department of Homeland Security (DHS) issued an implementation memo regarding border security and immigration laws. The memorandum, entitled, [Implementing the President's Border Security and Immigration Enforcement Improvement Policies](#) implements the President's previous executive order of the same name. The implementation memorandum "constitutes guidance to all Department personnel, and supersedes all existing conflicting policy, directives, memoranda, and other guidance regarding this subject matter." The memorandum describes the detention and release procedures applicable to those deemed inadmissible or otherwise described in section 235(b) of the Immigration and Nationality Act (INA). Further, the memorandum expands Section 287(g) of the INA, which authorizes DHS to enter into a written agreement "for the purpose of authorizing qualified officers or employees of the state or subdivision to perform the functions of an immigration officer in relation to the investigation, apprehension, or detention of aliens in the United States." The memorandum touches on numerous other border security and immigration enforcement directives relative to implementation of the President's executive order.

DHS Secretary Kelly Issues Implementing Memo on Enforcement of Immigration Law

On February 20th, the United States Department of Homeland Security issued an implementation memorandum entitled, [Enforcement of the Immigration Laws to Serve the National Interest](#). This memorandum immediately rescinds "all existing conflicting directives, memoranda, or field guidance regarding the enforcement of our immigration laws and priorities for removal." This includes rescinding the November 20, 2014 memoranda entitled "Policies for the Apprehension, Detention and Removal of Undocumented Immigrants," and "Secure Communities" (which discontinued the program) issued under the previous administration. The memorandum does not, however, rescind the June 15, 2012 memorandum entitled "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children," (commonly known as DACA) and the November 20, 2014 memorandum entitled, "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children and with Respect to Certain Individuals Who are the Parents of U.S. Citizens or Permanent Residents," (commonly known as DAPA). The memorandum prioritizes removal under circumstances as directed in the memorandum. Among those prioritized for removal are those who "have engaged in fraud or willful misrepresentation in connection with any official matter before a governmental agency." The memorandum terminates the previous Priority Enforcement Program and restores the Secure Communities Program, revising Department forms to communicate immigration status with recipient law enforcement agencies. This memo also looks to expand the 287(g) program which would allow a qualified state or local law enforcement officer to be designated as an "immigration officer" for purposes of enforcing federal immigration law. Further, the memorandum directs that DHS will "no longer afford Privacy Act rights and protections to persons who are neither U.S. citizens nor lawful permanent residents."

FHWA Extends Deadline for Motorcycle Advisory Council Nominations

The Federal Highway Administration (FHWA) [announces](#) a deadline extension for nomination applications for the Motorcycle Advisory Council (MAC). The FHWA published its notice establishing the MAC and soliciting nominations for MAC membership on January 9, 2017, at 82 FR 2436. The deadline for nominations for MAC membership is extended to March 23, 2017. Interested parties should refer to the January 9th notice for application submission instructions.

PARTNER NEWS

NSC: Motor Vehicle Deaths in 2016 Estimated to be Highest in Nine Years

For the first time in nearly a decade, preliminary 2016 data from the National Safety Council estimates that as many as 40,000 people died in motor vehicle crashes last year. That marks a 6% increase over 2015, and a 14% increase over 2014 – the most dramatic two-year escalation since 1964 – 53 years. The preliminary estimate means 2016 may have been the deadliest year on the nation's roads since 2007. An estimated 4.6 million roadway users were injured seriously enough to require medical attention in 2016, and estimated cost to society was \$432 billion. An NSC survey released Feb. 15 provides a glimpse at the risky things drivers are doing. Although 83% of drivers surveyed believe driving is a safety concern, a startling number say they are comfortable speeding (64%), texting either manually or through voice controls (47%), driving while impaired by marijuana (13%), or driving after they feel they've had too much alcohol (10%). [Read more here.](#)

AAMVA Workshop 2017 - Less Than Three Weeks Away!

The 2017 AAMVA Workshop and Law Institute is getting closer! Don't miss out, register now and book your travel. The Workshop provides AAMVA members with an opportunity to network with colleagues from fellow jurisdictions across the U.S. and Canada as well as with industry organizations that provide the products and services your jurisdiction needs. [Register today and plan your trip to Minneapolis!](#)

Registration Now Open for 2017 Region IV Conference

Register today for the [2017 Region IV Conference](#), May 21-24 in Seattle, Washington. The 2017 Region IV Conference provides a terrific opportunity for attendees to discuss today's relevant motor vehicle and law enforcement related issues. As with every AAMVA conference, the ability to network is one of the most beneficial experiences, and this year's regional conference provides many valuable interactive and learning opportunities. Jurisdictional attendees can learn about the successes and challenges of others, share ideas, build relationships, and discover the many products and services provided by our industry partners that can assist in your mission. Industry attendees will have the opportunity to meet with key players in the motor vehicle and law enforcement arena.

Arizona Implements State-to-State Verification Service

AAMVA congratulates Arizona on successfully implementing the State-to-State Verification Service (S2S) during the weekend of February 26th, 2017, becoming the 14th participant using the new service. Arizona will now be able to use SPEXS to perform its CDLIS and S2S functions. Arizona can now track pointer information related to its Base Driver Licenses, Permit for Base Driver Licenses, and Identification Cards. This supports, among other goals, limiting any person to only one driver's license. All migration activities have completed as per schedule. CDLIS and S2S services are fully operational now. Mississippi is planning to use the S2S beginning June 4th, 2017. Other jurisdictions will also begin using S2S in the upcoming months and AAMVA looks forward to supporting them during their onboarding process. For more information, [click here](#).

Looking for a Driver Representative to Serve on Law Enforcement Standing Committee

AAMVA is looking for a Driver Representative to serve on the Law Enforcement Standing Committee. This position is a vacancy to be filled through August 2017. At that time, the position will filled for a 2-year term. If you are interested in serving as the Driver Representative to the Law Enforcement Standing Committee, please complete the [Application Form](#) and submit it to Dianne Graham (committees@aamva.org) no later than February 28. If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Tuesday, February 28, 2017, 2:00 - 3:00 pm (ET)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

JURISDICTION NEWS

Virginia's Electronic Credentials Act

The Virginia General Assembly passed [House Bill 2229](#), the Electronic Credentials Act, which when signed by Governor Terry McAuliffe will be the most comprehensive law defining standards for e-credentials. This measure builds upon Virginia DMV's successful 2016 mobile driver's license study by establishing in statute the authority for DMV to issue credentials, such as driver's licenses and vehicle registration cards, in an electronic format as well as a physical format. Virginia's leaders have endorsed the future of credentialing and set the standards for security, privacy, and issuance.

Maine DOT To Lower Speed Limit on I-295

On March 27, 2017, the Maine Department of Transportation will be lowering the speed limit on Interstate 295 from Falmouth to Topsham from the current 70 mph to 65 mph. Since the speed limit increase in 2014 from 65 mph to 70 mph, data shows that I-295 crashes increased by 29% in a two-year span between the year before (June 2013-May 2014) and the year after (June 2015-May 2016). During that same time period, traffic volumes increased by 6.4%. [Read more here.](#)

President Trump Signs Executive Order on Regulatory Reform

President Donald Trump has signed an [executive order](#) seeking to alleviate unnecessary regulatory burdens placed on the American people. The executive order directs each federal agency to create a task force to identify and recommend changes to "unnecessary, burdensome and harmful" regulations. Each Regulatory Reform Task Force will evaluate existing regulations and identify candidates for repeal or modification and focus on eliminating costly and unnecessary regulations. At a minimum, each Regulatory Reform Task Force shall attempt to identify regulations that eliminate jobs or inhibit job creation; are outdated, unnecessary, or ineffective; impose costs that exceed benefits; create serious inconsistency or otherwise interfere with regulatory reform initiatives and policies; or derive from or implement executive orders or other Presidential directives that have been subsequently rescinded or substantially modified. Agencies will be responsible for measuring and reporting on their progress to the President.

DHS Secretary Kelly Issues Implementing Memo on Border Security and Immigration Enforcement

On February 20th, the United States Department of Homeland Security (DHS) issued an implementation memo regarding border security and immigration laws. The memorandum, entitled, [Implementing the President's Border Security and Immigration Enforcement Improvement Policies](#) implements the President's previous executive order of the same name. The implementation memorandum "constitutes guidance to all Department personnel, and supersedes all existing conflicting policy, directives, memoranda, and other guidance regarding this subject matter." The memorandum describes the detention and release procedures applicable to those deemed inadmissible or otherwise described in section 235(b) of the Immigration and Nationality Act (INA). Further, the memorandum expands Section 287(g) of the INA, which authorizes DHS to enter into a written agreement "for the purpose of authorizing qualified officers or employees of the state or subdivision to perform the functions of an immigration officer in relation to the investigation, apprehension, or detention of aliens in the United States." The memorandum touches on numerous other border security and immigration enforcement directives relative to implementation of the President's executive order.

DHS Secretary Kelly Issues Implementing Memo on Enforcement of Immigration Law

On February 20th, the United States Department of Homeland Security issued an implementation memorandum entitled, [Enforcement of the Immigration Laws to Serve the National Interest](#). This memorandum immediately rescinds "all existing conflicting directives, memoranda, or field guidance regarding the enforcement of our immigration laws and priorities for removal." This includes rescinding the November 20, 2014 memoranda entitled "Policies for the Apprehension, Detention and Removal

of Undocumented Immigrants," and "Secure Communities" (which discontinued the program) issued under the previous administration. The memorandum does not, however, rescind the June 15, 2012 memorandum entitled "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children," (commonly known as DACA) and the November 20, 2014 memorandum entitled, "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children and with Respect to Certain Individuals Who are the Parents of U.S. Citizens or Permanent Residents," (commonly known as DAPA). The memorandum prioritizes removal under circumstances as directed in the memorandum. Among those prioritized for removal are those who "have engaged in fraud or willful misrepresentation in connection with any official matter before a governmental agency." The memorandum terminates the previous Priority Enforcement Program and restores the Secure Communities Program, revising Department forms to communicate immigration status with recipient law enforcement agencies. This memo also looks to expand the 287(g) program which would allow a qualified state or local law enforcement officer to be designated as an "immigration officer" for purposes of enforcing federal immigration law. Further, the memorandum directs that DHS will "no longer afford Privacy Act rights and protections to persons who are neither U.S. citizens nor lawful permanent residents."

FHWA Extends Deadline for Motorcycle Advisory Council Nominations

The Federal Highway Administration (FHWA) [announces](#) a deadline extension for nomination applications for the Motorcycle Advisory Council (MAC). The FHWA published its notice establishing the MAC and soliciting nominations for MAC membership on January 9, 2017, at 82 FR 2436. The deadline for nominations for MAC membership is extended to March 23, 2017. Interested parties should refer to the January 9th notice for application submission instructions.

NSC: Motor Vehicle Deaths in 2016 Estimated to be Highest in Nine Years

For the first time in nearly a decade, preliminary 2016 data from the National Safety Council estimates that as many as 40,000 people died in motor vehicle crashes last year. That marks a 6% increase over 2015, and a 14% increase over 2014 – the most dramatic two-year escalation since 1964 – 53 years. The preliminary estimate means 2016 may have been the deadliest year on the nation's roads since 2007. An estimated 4.6 million roadway users were injured seriously enough to require medical attention in 2016, and estimated cost to society was \$432 billion. An NSC survey released Feb. 15 provides a glimpse at the risky things drivers are doing. Although 83% of drivers surveyed believe driving is a safety concern, a startling number say they are comfortable speeding (64%), texting either manually or through voice controls (47%), driving while impaired by marijuana (13%), or driving after they feel they've had too much alcohol (10%). AAMVA Workshop 2017 - Less Than Three Weeks Away!

The 2017 AAMVA Workshop and Law Institute is getting closer! Don't miss out, register now and book your travel. The Workshop provides AAMVA members with an opportunity to network with colleagues from fellow jurisdictions across the U.S. and Canada as well as with industry organizations that provide the products and services your jurisdiction needs. [Register today and plan your trip to Minneapolis!](#)

Registration Now Open for 2017 Region IV Conference

Register today for the [2017 Region IV Conference](#), May 21-24 in Seattle, Washington. The 2017 Region IV Conference provides a terrific opportunity for attendees to discuss today's relevant motor vehicle and law enforcement related issues. As with every AAMVA conference, the ability to network is one of the most beneficial experiences, and this year's regional conference provides many valuable interactive and learning opportunities. Jurisdictional attendees can learn about the successes and challenges of others, share ideas, build relationships, and discover the many products and services provided by our industry partners that can assist in your mission. Industry attendees will have the opportunity to meet with key players in the motor vehicle and law enforcement arena.

Arizona Implements State-to-State Verification Service

AAMVA congratulates Arizona on successfully implementing the State-to-State Verification Service (S2S) during the weekend of February 26th, 2017, becoming the 14th participant using the new service. Arizona will now be able to use SPEXS to perform its CDLIS and S2S functions. Arizona can now track pointer information related to its Base Driver Licenses, Permit for Base Driver Licenses, and Identification Cards. This supports, among other goals, limiting any person to only one driver's license. All migration activities have completed as per schedule. CDLIS and S2S services are fully operational now. Mississippi is planning to use the S2S beginning June 4th, 2017. Other jurisdictions will also begin using S2S in the upcoming months and AAMVA looks forward to supporting them during their onboarding process. For more information, [click here](#).

Looking for a Driver Representative to Serve on Law Enforcement Standing Committee

AAMVA is looking for a Driver Representative to serve on the Law Enforcement Standing Committee. This position is a vacancy to be filled through August 2017. At that time, the position will filled for a 2-year term. If you are interested in serving as the Driver Representative to the Law Enforcement Standing Committee, please complete the [Application Form](#) and submit it to Dianne Graham (committees@aamva.org) no later than February 28. If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Tuesday, February 28, 2017, 2:00 - 3:00 pm (ET)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

JURISDICTION NEWS

Virginia's Electronic Credentials Act

The Virginia General Assembly passed [House Bill 2229](#), the Electronic Credentials Act, which when signed by Governor Terry McAuliffe will be the most comprehensive law defining standards for e-credentials. This measure builds upon Virginia DMV's successful 2016 mobile driver's license study by establishing in statute the authority for DMV to issue credentials, such as driver's licenses and vehicle registration cards, in an electronic format as well as a physical format. Virginia's leaders have endorsed the future of credentialing and set the standards for security, privacy, and issuance.

Maine DOT To Lower Speed Limit on I-295

On March 27, 2017, the Maine Department of Transportation will be lowering the speed limit on Interstate 295 from Falmouth to Topsham from the current 70 mph to 65 mph. Since the speed limit increase in 2014 from 65 mph to 70 mph, data shows that I-295 crashes increased by 29% in a two-year span between the year before (June 2013-May 2014) and the year after (June 2015-May 2016). During that same time period, traffic volumes increased by 6.4%. [Read more here.](#)

unnecessary, or ineffective; impose costs that exceed benefits; create serious inconsistency or otherwise interfere with regulatory reform initiatives and policies; or derive from or implement executive orders or other Presidential directives that have been subsequently rescinded or substantially modified. Agencies will be responsible for measuring and reporting on their progress to the President.

DHS Secretary Kelly Issues Implementing Memo on Border Security and Immigration Enforcement

On February 20th, the United States Department of Homeland Security (DHS) issued an implementation memo regarding border security and immigration laws. The memorandum, entitled, [Implementing the President's Border Security and Immigration Enforcement Improvement Policies](#) implements the President's previous executive order of the same name. The implementation memorandum "constitutes guidance to all Department personnel, and supersedes all existing conflicting policy, directives, memoranda, and other guidance regarding this subject matter." The memorandum describes the detention and release procedures applicable to those deemed inadmissible or otherwise described in section 235(b) of the Immigration and Nationality Act (INA). Further, the memorandum expands Section 287(g) of the INA, which authorizes DHS to enter into a written agreement "for the purpose of authorizing qualified officers or employees of the state or subdivision to perform the functions of an immigration officer in relation to the investigation, apprehension, or detention of aliens in the United States." The memorandum touches on numerous other border security and immigration enforcement directives relative to implementation of the President's executive order.

DHS Secretary Kelly Issues Implementing Memo on Enforcement of Immigration Law

On February 20th, the United States Department of Homeland Security issued an implementation memorandum entitled, [Enforcement of the Immigration Laws to Serve the National Interest](#). This memorandum immediately rescinds "all existing conflicting directives, memoranda, or field guidance regarding the enforcement of our immigration laws and priorities for removal." This includes rescinding the November 20, 2014 memoranda entitled "Policies for the Apprehension, Detention and Removal of Undocumented Immigrants," and "Secure Communities" (which discontinued the program) issued under the previous administration. The memorandum does not, however, rescind the June 15, 2012 memorandum entitled "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children," (commonly known as DACA) and the November 20, 2014 memorandum entitled, "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children and with Respect to Certain Individuals Who are the Parents of U.S. Citizens or Permanent Residents," (commonly known as DAPA). The memorandum prioritizes removal under circumstances as directed in the memorandum. Among those prioritized for removal are those who "have engaged in fraud or willful misrepresentation in connection with any official matter before a governmental agency." The memorandum terminates the previous Priority Enforcement Program and restores the Secure Communities Program, revising Department forms to communicate immigration status with recipient law enforcement agencies. This memo also looks to expand the 287(g) program which would allow a qualified state or local law enforcement officer to be designated as an "immigration officer" for purposes of enforcing federal immigration law. Further, the memorandum directs that DHS will "no longer afford Privacy Act rights and protections to persons who are neither U.S. citizens nor lawful permanent residents."

FHWA Extends Deadline for Motorcycle Advisory Council Nominations

The Federal Highway Administration (FHWA) [announces](#) a deadline extension for nomination applications for the Motorcycle Advisory Council (MAC). The FHWA published its notice establishing the MAC and soliciting nominations for MAC membership on January 9, 2017, at 82 FR 2436. The deadline for nominations for MAC membership is extended to March 23, 2017. Interested parties should refer to the January 9th notice for application submission instructions.

unnecessary, or ineffective; impose costs that exceed benefits; create serious inconsistency or otherwise interfere with regulatory reform initiatives and policies; or derive from or implement executive orders or other Presidential directives that have been subsequently rescinded or substantially modified. Agencies will be responsible for measuring and reporting on their progress to the President.

DHS Secretary Kelly Issues Implementing Memo on Border Security and Immigration Enforcement

On February 20th, the United States Department of Homeland Security (DHS) issued an implementation memo regarding border security and immigration laws. The memorandum, entitled, [Implementing the President's Border Security and Immigration Enforcement Improvement Policies](#) implements the President's previous executive order of the same name. The implementation memorandum "constitutes guidance to all Department personnel, and supersedes all existing conflicting policy, directives, memoranda, and other guidance regarding this subject matter." The memorandum describes the detention and release procedures applicable to those deemed inadmissible or otherwise described in section 235(b) of the Immigration and Nationality Act (INA). Further, the memorandum expands Section 287(g) of the INA, which authorizes DHS to enter into a written agreement "for the purpose of authorizing qualified officers or employees of the state or subdivision to perform the functions of an immigration officer in relation to the investigation, apprehension, or detention of aliens in the United States." The memorandum touches on numerous other border security and immigration enforcement directives relative to implementation of the President's executive order.

DHS Secretary Kelly Issues Implementing Memo on Enforcement of Immigration Law

On February 20th, the United States Department of Homeland Security issued an implementation memorandum entitled, [Enforcement of the Immigration Laws to Serve the National Interest](#). This memorandum immediately rescinds "all existing conflicting directives, memoranda, or field guidance regarding the enforcement of our immigration laws and priorities for removal." This includes rescinding the November 20, 2014 memoranda entitled "Policies for the Apprehension, Detention and Removal of Undocumented Immigrants," and "Secure Communities" (which discontinued the program) issued under the previous administration. The memorandum does not, however, rescind the June 15, 2012 memorandum entitled "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children," (commonly known as DACA) and the November 20, 2014 memorandum entitled, "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children and with Respect to Certain Individuals Who are the Parents of U.S. Citizens or Permanent Residents," (commonly known as DAPA). The memorandum prioritizes removal under circumstances as directed in the memorandum. Among those prioritized for removal are those who "have engaged in fraud or willful misrepresentation in connection with any official matter before a governmental agency." The memorandum terminates the previous Priority Enforcement Program and restores the Secure Communities Program, revising Department forms to communicate immigration status with recipient law enforcement agencies. This memo also looks to expand the 287(g) program which would allow a qualified state or local law enforcement officer to be designated as an "immigration officer" for purposes of enforcing federal immigration law. Further, the memorandum directs that DHS will "no longer afford Privacy Act rights and protections to persons who are neither U.S. citizens nor lawful permanent residents."

FHWA Extends Deadline for Motorcycle Advisory Council Nominations

The Federal Highway Administration (FHWA) [announces](#) a deadline extension for nomination applications for the Motorcycle Advisory Council (MAC). The FHWA published its notice establishing the MAC and soliciting nominations for MAC membership on January 9, 2017, at 82 FR 2436. The deadline for nominations for MAC membership is extended to March 23, 2017. Interested parties should refer to the January 9th notice for application submission instructions.

PARTNER NEWS

NSC: Motor Vehicle Deaths in 2016 Estimated to be Highest in Nine Years

For the first time in nearly a decade, preliminary 2016 data from the National Safety Council estimates that as many as 40,000 people died in motor vehicle crashes last year. That marks a 6% increase over 2015, and a 14% increase over 2014 – the most dramatic two-year escalation since 1964 – 53 years. The preliminary estimate means 2016 may have been the deadliest year on the nation's roads since 2007. An estimated 4.6 million roadway users were injured seriously enough to require medical attention in 2016, and estimated cost to society was \$432 billion. An NSC survey released Feb. 15 provides a glimpse at the risky things drivers are doing. Although 83% of drivers surveyed believe driving is a safety concern, a startling number say they are comfortable speeding (64%), texting either manually or through voice controls (47%), driving while impaired by marijuana (13%), or driving after they feel they've had too much alcohol (10%). AAMVA Workshop 2017 - Less Than Three Weeks Away!

The 2017 AAMVA Workshop and Law Institute is getting closer! Don't miss out, register now and book your travel. The Workshop provides AAMVA members with an opportunity to network with colleagues from fellow jurisdictions across the U.S. and Canada as well as with industry organizations that provide the products and services your jurisdiction needs. [Register today and plan your trip to Minneapolis!](#)

Registration Now Open for 2017 Region IV Conference

Register today for the [2017 Region IV Conference](#), May 21-24 in Seattle, Washington. The 2017 Region IV Conference provides a terrific opportunity for attendees to discuss today's relevant motor vehicle and law enforcement related issues. As with every AAMVA conference, the ability to network is one of the most beneficial experiences, and this year's regional conference provides many valuable interactive and learning opportunities. Jurisdictional attendees can learn about the successes and challenges of others, share ideas, build relationships, and discover the many products and services provided by our industry partners that can assist in your mission. Industry attendees will have the opportunity to meet with key players in the motor vehicle and law enforcement arena.

Arizona Implements State-to-State Verification Service

AAMVA congratulates Arizona on successfully implementing the State-to-State Verification Service (S2S) during the weekend of February 26th, 2017, becoming the 14th participant using the new service. Arizona will now be able to use SPEXS to perform its CDLIS and S2S functions. Arizona can now track pointer information related to its Base Driver Licenses, Permit for Base Driver Licenses, and Identification Cards. This supports, among other goals, limiting any person to only one driver's license. All migration activities have completed as per schedule. CDLIS and S2S services are fully operational now. Mississippi is planning to use the S2S beginning June 4th, 2017. Other jurisdictions will also begin using S2S in the upcoming months and AAMVA looks forward to supporting them during their onboarding process. For more information, [click here](#).

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Tuesday, February 28, 2017, 2:00 - 3:00 pm (ET)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

JURISDICTION NEWS

Virginia's Electronic Credentials Act

The Virginia General Assembly passed [House Bill 2229](#), the Electronic Credentials Act, which when signed by Governor Terry McAuliffe will be the most comprehensive law defining standards for e-credentials. This measure builds upon Virginia DMV's successful 2016 mobile driver's license study by establishing in statute the authority for DMV to issue credentials, such as driver's licenses and vehicle registration cards, in an electronic format as well as a physical format. Virginia's leaders have endorsed the future of credentialing and set the standards for security, privacy, and issuance.

Maine DOT To Lower Speed Limit on I-295

On March 27, 2017, the Maine Department of Transportation will be lowering the speed limit on Interstate 295 from Falmouth to Topsham from the current 70 mph to 65 mph. Since the speed limit increase in 2014 from 65 mph to 70 mph, data shows that I-295 crashes increased by 29% in a two-year span between the year before (June 2013-May 2014) and the year after (June 2015-May 2016). During that same time period, traffic volumes increased by 6.4%. [Read more here.](#)

AAMVA congratulates Arizona on successfully implementing the State-to-State Verification Service (S2S) during the weekend of February 26th, 2017, becoming the 14th participant using the new service. Arizona will now be able to use SPEXS to perform its CDLIS and S2S functions. Arizona can now track pointer information related to its Base Driver Licenses, Permit for Base Driver Licenses, and Identification Cards. This supports, among other goals, limiting any person to only one driver's license. All migration activities have completed as per schedule. CDLIS and S2S services are fully operational now. Mississippi is planning to use the S2S beginning June 4th, 2017. Other jurisdictions will also begin using S2S in the upcoming months and AAMVA looks forward to supporting them during their onboarding process. For more information, [click here](#).

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Tuesday, February 28, 2017, 2:00 - 3:00 pm (ET)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

DHS Secretary Kelly Issues Implementing Memo on Border Security and Immigration Enforcement

On February 20th, the United States Department of Homeland Security (DHS) issued an implementation memo regarding border security and immigration laws. The memorandum, entitled, [Implementing the President's Border Security and Immigration Enforcement Improvement Policies](#) implements the President's previous executive order of the same name. The implementation memorandum "constitutes guidance to all Department personnel, and supersedes all existing conflicting policy, directives, memoranda, and other guidance regarding this subject matter." The memorandum describes the detention and release procedures applicable to those deemed inadmissible or otherwise described in section 235(b) of the Immigration and Nationality Act (INA). Further, the memorandum expands Section 287(g) of the INA, which authorizes DHS to enter into a written agreement "for the purpose of authorizing qualified officers or employees of the state or subdivision to perform the functions of an immigration officer in relation to the investigation, apprehension, or detention of aliens in the United States." The memorandum touches on numerous other border security and immigration enforcement directives relative to implementation of the President's executive order.

DHS Secretary Kelly Issues Implementing Memo on Enforcement of Immigration Law

On February 20th, the United States Department of Homeland Security issued an implementation memorandum entitled, [Enforcement of the Immigration Laws to Serve the National Interest](#). This memorandum immediately rescinds "all existing conflicting directives, memoranda, or field guidance regarding the enforcement of our immigration laws and priorities for removal." This includes rescinding the November 20, 2014 memoranda entitled "Policies for the Apprehension, Detention and Removal of Undocumented Immigrants," and "Secure Communities" (which discontinued the program) issued under the previous administration. The memorandum does not, however, rescind the June 15, 2012 memorandum entitled "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children," (commonly known as DACA) and the November 20, 2014 memorandum entitled, "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children and with Respect to Certain Individuals Who are the Parents of U.S. Citizens or Permanent Residents," (commonly known as DAPA). The memorandum prioritizes removal under circumstances as directed in the memorandum. Among those prioritized for removal are those who "have engaged in fraud or willful misrepresentation in connection with any official matter before a governmental agency." The memorandum terminates the previous Priority Enforcement Program and restores the Secure Communities Program, revising Department forms to communicate immigration status with recipient law enforcement agencies. This memo also looks to expand the 287(g) program which would allow a qualified state or local law enforcement officer to be designated as an "immigration officer" for purposes of enforcing federal immigration law. Further, the memorandum directs that DHS will "no longer afford Privacy Act rights and protections to persons who are neither U.S. citizens nor lawful permanent residents."

FHWA Extends Deadline for Motorcycle Advisory Council Nominations

The Federal Highway Administration (FHWA) [announces](#) a deadline extension for nomination applications for the Motorcycle Advisory Council (MAC). The FHWA published its notice establishing the MAC and soliciting nominations for MAC membership on January 9, 2017, at 82 FR 2436. The deadline for nominations for MAC membership is extended to March 23, 2017. Interested parties should refer to the January 9th notice for application submission instructions.

PARTNER NEWS

NSC: Motor Vehicle Deaths in 2016 Estimated to be Highest in Nine Years

For the first time in nearly a decade, preliminary 2016 data from the National Safety Council estimates that as many as 40,000 people died in motor vehicle crashes last year. That marks a 6% increase over 2015, and a 14% increase over 2014 – the most dramatic two-year escalation since 1964 – 53 years. The preliminary estimate means 2016 may have been the deadliest year on the nation's roads since 2007. An estimated 4.6 million roadway users were injured seriously enough to require medical attention in 2016, and estimated cost to society was \$432 billion. An NSC survey released Feb. 15 provides a glimpse at the risky things drivers are doing. Although 83% of drivers surveyed believe driving is a safety concern, a startling number say they are comfortable speeding (64%), texting either manually or through voice controls (47%), driving while impaired by marijuana (13%), or driving after they feel they've had too much alcohol (10%). DHS Secretary Kelly Issues Implementing Memo on Enforcement of Immigration Law

On February 20th, the United States Department of Homeland Security issued an implementation memorandum entitled, [Enforcement of the Immigration Laws to Serve the National Interest](#). This memorandum immediately rescinds "all existing conflicting directives, memoranda, or field guidance regarding the enforcement of our immigration laws and priorities for removal." This includes rescinding the November 20, 2014 memoranda entitled "Policies for the Apprehension, Detention and Removal of Undocumented Immigrants," and "Secure Communities" (which discontinued the program) issued under the previous administration. The memorandum does not, however, rescind the June 15, 2012 memorandum entitled "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children," (commonly known as DACA) and the November 20, 2014 memorandum entitled, "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children and with Respect to Certain Individuals Who are the Parents of U.S. Citizens or Permanent Residents," (commonly known as DAPA). The memorandum prioritizes removal under circumstances as directed in the memorandum. Among those prioritized for removal are those who "have engaged in fraud or willful misrepresentation in connection with any official matter before a governmental agency." The memorandum terminates the previous Priority Enforcement Program and restores the Secure Communities Program, revising Department forms to communicate immigration status with recipient law enforcement agencies. This memo also looks to expand the 287(g) program which would allow a qualified state or local law enforcement officer to be designated as an "immigration officer" for purposes of enforcing federal immigration law. Further, the memorandum directs that DHS will "no longer afford Privacy Act rights and protections to persons who are neither U.S. citizens nor lawful permanent residents."

FHWA Extends Deadline for Motorcycle Advisory Council Nominations

The Federal Highway Administration (FHWA) [announces](#) a deadline extension for nomination applications for the Motorcycle Advisory Council (MAC). The FHWA published its notice establishing the MAC and soliciting nominations for MAC membership on January 9, 2017, at 82 FR 2436. The deadline for nominations for MAC membership is extended to March 23, 2017. Interested parties should refer to the January 9th notice for application submission instructions.

PARTNER NEWS

NSC: Motor Vehicle Deaths in 2016 Estimated to be Highest in Nine Years

For the first time in nearly a decade, preliminary 2016 data from the National Safety Council estimates that as many as 40,000 people died in motor vehicle crashes last year. That marks a 6% increase over 2015, and a 14% increase over 2014 – the most dramatic two-year escalation since 1964 – 53 years. The preliminary estimate means 2016 may have been the deadliest year on the nation's roads since 2007. An estimated 4.6 million roadway users were injured seriously enough to require medical attention in 2016, and estimated cost to society was \$432 billion. An NSC survey released Feb. 15 provides a glimpse at the risky things drivers are doing. Although 83% of drivers surveyed believe driving is a safety concern, a startling number say they are comfortable speeding (64%), texting either manually or through voice controls (47%), driving while impaired by marijuana (13%), or driving after they feel they've had too much alcohol (10%). Registration Now Open for 2017 Region IV Conference

<http://www.mmsend35.com/link.cfm?r=H7Yxm8x2JuXtgC75d70-ng~~&pe=6Qe7YhQajCTI5uLFgJZ65Kx1Xgjo6y1kWv3qv5l1CUY3aX1oo8XxKry1k7Arj-4wMmNpZ3IDB1o46KSoefwRHA~~> Register today for the [2017 Region IV Conference](#), May 21-24 in Seattle, Washington. The 2017 Region IV Conference provides a terrific opportunity for attendees to discuss today's relevant motor vehicle and law enforcement related issues. As with every AAMVA conference, the ability to network is one of the most beneficial experiences, and this year's regional conference provides many valuable interactive and learning opportunities. Jurisdictional attendees can learn about the successes and challenges of others, share ideas, build relationships, and discover the many products and services provided by our industry partners that can assist in your mission. Industry attendees will have the opportunity to meet with key players in the motor vehicle and law enforcement arena.

Arizona Implements State-to-State Verification Service

AAMVA congratulates Arizona on successfully implementing the State-to-State Verification Service (S2S) during the weekend of February 26th, 2017, becoming the 14th participant using the new service. Arizona will now be able to use SPEXS to perform its CDLIS and S2S functions. Arizona can now track pointer information related to its Base Driver Licenses, Permit for Base Driver Licenses, and Identification Cards. This supports, among other goals, limiting any person to only one driver's license. All migration activities have completed as per schedule. CDLIS and S2S services are fully operational now. Mississippi is planning to use the S2S beginning June 4th, 2017. Other jurisdictions will also begin using S2S in the upcoming months and AAMVA looks forward to supporting them during their onboarding process. For more information, [click here](#).

Looking for a Driver Representative to Serve on Law Enforcement Standing Committee

AAMVA is looking for a Driver Representative to serve on the Law Enforcement Standing Committee. This position is a vacancy to be filled through August 2017. At that time, the position will filled for a 2-year term. If you are interested in serving as the Driver Representative to the Law Enforcement Standing Committee, please complete the [Application Form](#) and submit it to Dianne Graham (committees@aamva.org) no later than February 28. If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Tuesday, February 28, 2017, 2:00 - 3:00 pm (ET)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before

issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

http://images.magnetmail.net/images/clients/AAMVA/twir_root/TWIRJurisdictionNewsBannerNew.jpg

Virginia's Electronic Credentials Act

The Virginia General Assembly passed [House Bill 2229](#), the Electronic Credentials Act, which when signed by Governor Terry McAuliffe will be the most comprehensive law defining standards for e-credentials. This measure builds upon Virginia DMV's successful 2016 mobile driver's license study by establishing in statute the authority for DMV to issue credentials, such as driver's licenses and vehicle registration cards, in an electronic format as well as a physical format. Virginia's leaders have endorsed the future of credentialing and set the standards for security, privacy, and issuance.

Maine DOT To Lower Speed Limit on I-295

On March 27, 2017, the Maine Department of Transportation will be lowering the speed limit on Interstate 295 from Falmouth to Topsham from the current 70 mph to 65 mph. Since the speed limit increase in 2014 from 65 mph to 70 mph, data shows that I-295 crashes increased by 29% in a two-year span between the year before (June 2013-May 2014) and the year after (June 2015-May 2016). During that same time period, traffic volumes increased by 6.4%. [Read more here.](#)

President Trump Signs Executive Order on Regulatory Reform

President Donald Trump has signed an [executive order](#) seeking to alleviate unnecessary regulatory burdens placed on the American people. The executive order directs each federal agency to create a task force to identify and recommend changes to "unnecessary, burdensome and harmful" regulations. Each Regulatory Reform Task Force will evaluate existing regulations and identify candidates for repeal or modification and focus on eliminating costly and unnecessary regulations. At a minimum, each Regulatory Reform Task Force shall attempt to identify regulations that eliminate jobs or inhibit job creation; are outdated, unnecessary, or ineffective; impose costs that exceed benefits; create serious inconsistency or otherwise interfere with regulatory reform initiatives and policies; or derive from or implement executive orders or other Presidential directives that have been subsequently rescinded or substantially modified. Agencies will be responsible for measuring and reporting on their progress to the President.

DHS Secretary Kelly Issues Implementing Memo on Border Security and Immigration Enforcement

On February 20th, the United States Department of Homeland Security (DHS) issued an implementation memo regarding border security and immigration laws. The memorandum, entitled, [Implementing the President's Border Security and Immigration Enforcement Improvement Policies](#) implements the President's previous executive order of the same name. The implementation memorandum "constitutes guidance to all Department personnel, and supersedes all existing conflicting policy, directives, memoranda, and other guidance regarding this subject matter." The memorandum describes the detention and release procedures applicable to those deemed inadmissible or otherwise described in section 235(b) of the Immigration and Nationality Act (INA). Further, the memorandum expands Section 287(g) of the INA, which authorizes DHS to enter into a written agreement "for the purpose of authorizing qualified officers or employees of the state or subdivision to perform the functions of an immigration officer in relation to the investigation, apprehension, or detention of aliens in the United States." The memorandum touches on numerous other border security and immigration enforcement directives relative to implementation of the President's executive order.

DHS Secretary Kelly Issues Implementing Memo on Enforcement of Immigration Law

On February 20th, the United States Department of Homeland Security issued an implementation memorandum entitled, [Enforcement of the Immigration Laws to Serve the National Interest](#). This memorandum immediately rescinds "all existing conflicting directives, memoranda, or field guidance regarding the enforcement of our immigration laws and priorities for removal." This includes rescinding the November 20, 2014 memoranda entitled "Policies for the Apprehension, Detention and Removal

of Undocumented Immigrants," and "Secure Communities" (which discontinued the program) issued under the previous administration. The memorandum does not, however, rescind the June 15, 2012 memorandum entitled "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children," (commonly known as DACA) and the November 20, 2014 memorandum entitled, "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children and with Respect to Certain Individuals Who are the Parents of U.S. Citizens or Permanent Residents," (commonly known as DAPA). The memorandum prioritizes removal under circumstances as directed in the memorandum. Among those prioritized for removal are those who "have engaged in fraud or willful misrepresentation in connection with any official matter before a governmental agency." The memorandum terminates the previous Priority Enforcement Program and restores the Secure Communities Program, revising Department forms to communicate immigration status with recipient law enforcement agencies. This memo also looks to expand the 287(g) program which would allow a qualified state or local law enforcement officer to be designated as an "immigration officer" for purposes of enforcing federal immigration law. Further, the memorandum directs that DHS will "no longer afford Privacy Act rights and protections to persons who are neither U.S. citizens nor lawful permanent residents."

FHWA Extends Deadline for Motorcycle Advisory Council Nominations

The Federal Highway Administration (FHWA) [announces](#) a deadline extension for nomination applications for the Motorcycle Advisory Council (MAC). The FHWA published its notice establishing the MAC and soliciting nominations for MAC membership on January 9, 2017, at 82 FR 2436. The deadline for nominations for MAC membership is extended to March 23, 2017. Interested parties should refer to the January 9th notice for application submission instructions.

unnecessary, or ineffective; impose costs that exceed benefits; create serious inconsistency or otherwise interfere with regulatory reform initiatives and policies; or derive from or implement executive orders or other Presidential directives that have been subsequently rescinded or substantially modified. Agencies will be responsible for measuring and reporting on their progress to the President.

DHS Secretary Kelly Issues Implementing Memo on Border Security and Immigration Enforcement

On February 20th, the United States Department of Homeland Security (DHS) issued an implementation memo regarding border security and immigration laws. The memorandum, entitled, [Implementing the President's Border Security and Immigration Enforcement Improvement Policies](#) implements the President's previous executive order of the same name. The implementation memorandum "constitutes guidance to all Department personnel, and supersedes all existing conflicting policy, directives, memoranda, and other guidance regarding this subject matter." The memorandum describes the detention and release procedures applicable to those deemed inadmissible or otherwise described in section 235(b) of the Immigration and Nationality Act (INA). Further, the memorandum expands Section 287(g) of the INA, which authorizes DHS to enter into a written agreement "for the purpose of authorizing qualified officers or employees of the state or subdivision to perform the functions of an immigration officer in relation to the investigation, apprehension, or detention of aliens in the United States." The memorandum touches on numerous other border security and immigration enforcement directives relative to implementation of the President's executive order.

DHS Secretary Kelly Issues Implementing Memo on Enforcement of Immigration Law

On February 20th, the United States Department of Homeland Security issued an implementation memorandum entitled, [Enforcement of the Immigration Laws to Serve the National Interest](#). This memorandum immediately rescinds "all existing conflicting directives, memoranda, or field guidance regarding the enforcement of our immigration laws and priorities for removal." This includes rescinding the November 20, 2014 memoranda entitled "Policies for the Apprehension, Detention and Removal of Undocumented Immigrants," and "Secure Communities" (which discontinued the program) issued under the previous administration. The memorandum does not, however, rescind the June 15, 2012 memorandum entitled "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children," (commonly known as DACA) and the November 20, 2014 memorandum entitled, "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children and with Respect to Certain Individuals Who are the Parents of U.S. Citizens or Permanent Residents," (commonly known as DAPA). The memorandum prioritizes removal under circumstances as directed in the memorandum. Among those prioritized for removal are those who "have engaged in fraud or willful misrepresentation in connection with any official matter before a governmental agency." The memorandum terminates the previous Priority Enforcement Program and restores the Secure Communities Program, revising Department forms to communicate immigration status with recipient law enforcement agencies. This memo also looks to expand the 287(g) program which would allow a qualified state or local law enforcement officer to be designated as an "immigration officer" for purposes of enforcing federal immigration law. Further, the memorandum directs that DHS will "no longer afford Privacy Act rights and protections to persons who are neither U.S. citizens nor lawful permanent residents."

FHWA Extends Deadline for Motorcycle Advisory Council Nominations

The Federal Highway Administration (FHWA) [announces](#) a deadline extension for nomination applications for the Motorcycle Advisory Council (MAC). The FHWA published its notice establishing the MAC and soliciting nominations for MAC membership on January 9, 2017, at 82 FR 2436. The deadline for nominations for MAC membership is extended to March 23, 2017. Interested parties should refer to the January 9th notice for application submission instructions.

PARTNER NEWS

NSC: Motor Vehicle Deaths in 2016 Estimated to be Highest in Nine Years

For the first time in nearly a decade, preliminary 2016 data from the National Safety Council estimates that as many as 40,000 people died in motor vehicle crashes last year. That marks a 6% increase over 2015, and a 14% increase over 2014 – the most dramatic two-year escalation since 1964 – 53 years. The preliminary estimate means 2016 may have been the deadliest year on the nation's roads since 2007. An estimated 4.6 million roadway users were injured seriously enough to require medical attention in 2016, and estimated cost to society was \$432 billion. An NSC survey released Feb. 15 provides a glimpse at the risky things drivers are doing. Although 83% of drivers surveyed believe driving is a safety concern, a startling number say they are comfortable speeding (64%), texting either manually or through voice controls (47%), driving while impaired by marijuana (13%), or driving after they feel they've had too much alcohol (10%). AAMVA Workshop 2017 - Less Than Three Weeks Away!

The 2017 AAMVA Workshop and Law Institute is getting closer! Don't miss out, register now and book your travel. The Workshop provides AAMVA members with an opportunity to network with colleagues from fellow jurisdictions across the U.S. and Canada as well as with industry organizations that provide the products and services your jurisdiction needs. [Register today and plan your trip to Minneapolis!](#)

Registration Now Open for 2017 Region IV Conference

Register today for the [2017 Region IV Conference](#), May 21-24 in Seattle, Washington. The 2017 Region IV Conference provides a terrific opportunity for attendees to discuss today's relevant motor vehicle and law enforcement related issues. As with every AAMVA conference, the ability to network is one of the most beneficial experiences, and this year's regional conference provides many valuable interactive and learning opportunities. Jurisdictional attendees can learn about the successes and challenges of others, share ideas, build relationships, and discover the many products and services provided by our industry partners that can assist in your mission. Industry attendees will have the opportunity to meet with key players in the motor vehicle and law enforcement arena.

Arizona Implements State-to-State Verification Service

AAMVA congratulates Arizona on successfully implementing the State-to-State Verification Service (S2S) during the weekend of February 26th, 2017, becoming the 14th participant using the new service. Arizona will now be able to use SPEXS to perform its CDLIS and S2S functions. Arizona can now track pointer information related to its Base Driver Licenses, Permit for Base Driver Licenses, and Identification Cards. This supports, among other goals, limiting any person to only one driver's license. All migration activities have completed as per schedule. CDLIS and S2S services are fully operational now. Mississippi is planning to use the S2S beginning June 4th, 2017. Other jurisdictions will also begin using S2S in the upcoming months and AAMVA looks forward to supporting them during their onboarding process. For more information, [click here](#).

Looking for a Driver Representative to Serve on Law Enforcement Standing Committee

AAMVA is looking for a Driver Representative to serve on the Law Enforcement Standing Committee. This position is a vacancy to be filled through August 2017. At that time, the position will filled for a 2-year term. If you are interested in serving as the Driver Representative to the Law Enforcement Standing Committee, please complete the [Application Form](#) and submit it to Dianne Graham (committees@aamva.org) no later than February 28. If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Tuesday, February 28, 2017, 2:00 - 3:00 pm (ET)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

JURISDICTION NEWS

Virginia's Electronic Credentials Act

The Virginia General Assembly passed [House Bill 2229](#), the Electronic Credentials Act, which when signed by Governor Terry McAuliffe will be the most comprehensive law defining standards for e-credentials. This measure builds upon Virginia DMV's successful 2016 mobile driver's license study by establishing in statute the authority for DMV to issue credentials, such as driver's licenses and vehicle registration cards, in an electronic format as well as a physical format. Virginia's leaders have endorsed the future of credentialing and set the standards for security, privacy, and issuance.

Maine DOT To Lower Speed Limit on I-295

On March 27, 2017, the Maine Department of Transportation will be lowering the speed limit on Interstate 295 from Falmouth to Topsham from the current 70 mph to 65 mph. Since the speed limit increase in 2014 from 65 mph to 70 mph, data shows that I-295 crashes increased by 29% in a two-year span between the year before (June 2013-May 2014) and the year after (June 2015-May 2016). During that same time period, traffic volumes increased by 6.4%. [Read more here.](#)

AAMVA congratulates Arizona on successfully implementing the State-to-State Verification Service (S2S) during the weekend of February 26th, 2017, becoming the 14th participant using the new service. Arizona will now be able to use SPEXS to perform its CDLIS and S2S functions. Arizona can now track pointer information related to its Base Driver Licenses, Permit for Base Driver Licenses, and Identification Cards. This supports, among other goals, limiting any person to only one driver's license. All migration activities have completed as per schedule. CDLIS and S2S services are fully operational now. Mississippi is planning to use the S2S beginning June 4th, 2017. Other jurisdictions will also begin using S2S in the upcoming months and AAMVA looks forward to supporting them during their onboarding process. For more information, [click here](#).

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Tuesday, February 28, 2017, 2:00 - 3:00 pm (ET)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

DHS Secretary Kelly Issues Implementing Memo on Border Security and Immigration Enforcement

On February 20th, the United States Department of Homeland Security (DHS) issued an implementation memo regarding border security and immigration laws. The memorandum, entitled, [Implementing the President's Border Security and Immigration Enforcement Improvement Policies](#) implements the President's previous executive order of the same name. The implementation memorandum "constitutes guidance to all Department personnel, and supersedes all existing conflicting policy, directives, memoranda, and other guidance regarding this subject matter." The memorandum describes the detention and release procedures applicable to those deemed inadmissible or otherwise described in section 235(b) of the Immigration and Nationality Act (INA). Further, the memorandum expands Section 287(g) of the INA, which authorizes DHS to enter into a written agreement "for the purpose of authorizing qualified officers or employees of the state or subdivision to perform the functions of an immigration officer in relation to the investigation, apprehension, or detention of aliens in the United States." The memorandum touches on numerous other border security and immigration enforcement directives relative to implementation of the President's executive order.

DHS Secretary Kelly Issues Implementing Memo on Enforcement of Immigration Law

On February 20th, the United States Department of Homeland Security issued an implementation memorandum entitled, [Enforcement of the Immigration Laws to Serve the National Interest](#). This memorandum immediately rescinds "all existing conflicting directives, memoranda, or field guidance regarding the enforcement of our immigration laws and priorities for removal." This includes rescinding the November 20, 2014 memoranda entitled "Policies for the Apprehension, Detention and Removal of Undocumented Immigrants," and "Secure Communities" (which discontinued the program) issued under the previous administration. The memorandum does not, however, rescind the June 15, 2012 memorandum entitled "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children," (commonly known as DACA) and the November 20, 2014 memorandum entitled, "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children and with Respect to Certain Individuals Who are the Parents of U.S. Citizens or Permanent Residents," (commonly known as DAPA). The memorandum prioritizes removal under circumstances as directed in the memorandum. Among those prioritized for removal are those who "have engaged in fraud or willful misrepresentation in connection with any official matter before a governmental agency." The memorandum terminates the previous Priority Enforcement Program and restores the Secure Communities Program, revising Department forms to communicate immigration status with recipient law enforcement agencies. This memo also looks to expand the 287(g) program which would allow a qualified state or local law enforcement officer to be designated as an "immigration officer" for purposes of enforcing federal immigration law. Further, the memorandum directs that DHS will "no longer afford Privacy Act rights and protections to persons who are neither U.S. citizens nor lawful permanent residents."

FHWA Extends Deadline for Motorcycle Advisory Council Nominations

The Federal Highway Administration (FHWA) [announces](#) a deadline extension for nomination applications for the Motorcycle Advisory Council (MAC). The FHWA published its notice establishing the MAC and soliciting nominations for MAC membership on January 9, 2017, at 82 FR 2436. The deadline for nominations for MAC membership is extended to March 23, 2017. Interested parties should refer to the January 9th notice for application submission instructions.

PARTNER NEWS

NSC: Motor Vehicle Deaths in 2016 Estimated to be Highest in Nine Years

For the first time in nearly a decade, preliminary 2016 data from the National Safety Council estimates that as many as 40,000 people died in motor vehicle crashes last year. That marks a 6% increase over 2015, and a 14% increase over 2014 – the most dramatic two-year escalation since 1964 – 53 years. The preliminary estimate means 2016 may have been the deadliest year on the nation's roads since 2007. An estimated 4.6 million roadway users were injured seriously enough to require medical attention in 2016, and estimated cost to society was \$432 billion. An NSC survey released Feb. 15 provides a glimpse at the risky things drivers are doing. Although 83% of drivers surveyed believe driving is a safety concern, a startling number say they are comfortable speeding (64%), texting either manually or through voice controls (47%), driving while impaired by marijuana (13%), or driving after they feel they've had too much alcohol (10%). DHS Secretary Kelly Issues Implementing Memo on Enforcement of Immigration Law

On February 20th, the United States Department of Homeland Security issued an implementation memorandum entitled, [Enforcement of the Immigration Laws to Serve the National Interest](#). This memorandum immediately rescinds "all existing conflicting directives, memoranda, or field guidance regarding the enforcement of our immigration laws and priorities for removal." This includes rescinding the November 20, 2014 memoranda entitled "Policies for the Apprehension, Detention and Removal of Undocumented Immigrants," and "Secure Communities" (which discontinued the program) issued under the previous administration. The memorandum does not, however, rescind the June 15, 2012 memorandum entitled "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children," (commonly known as DACA) and the November 20, 2014 memorandum entitled, "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children and with Respect to Certain Individuals Who are the Parents of U.S. Citizens or Permanent Residents," (commonly known as DAPA). The memorandum prioritizes removal under circumstances as directed in the memorandum. Among those prioritized for removal are those who "have engaged in fraud or willful misrepresentation in connection with any official matter before a governmental agency." The memorandum terminates the previous Priority Enforcement Program and restores the Secure Communities Program, revising Department forms to communicate immigration status with recipient law enforcement agencies. This memo also looks to expand the 287(g) program which would allow a qualified state or local law enforcement officer to be designated as an "immigration officer" for purposes of enforcing federal immigration law. Further, the memorandum directs that DHS will "no longer afford Privacy Act rights and protections to persons who are neither U.S. citizens nor lawful permanent residents."

FHWA Extends Deadline for Motorcycle Advisory Council Nominations

The Federal Highway Administration (FHWA) [announces](#) a deadline extension for nomination applications for the Motorcycle Advisory Council (MAC). The FHWA published its notice establishing the MAC and soliciting nominations for MAC membership on January 9, 2017, at 82 FR 2436. The deadline for nominations for MAC membership is extended to March 23, 2017. Interested parties should refer to the January 9th notice for application submission instructions.

PARTNER NEWS

NSC: Motor Vehicle Deaths in 2016 Estimated to be Highest in Nine Years

For the first time in nearly a decade, preliminary 2016 data from the National Safety Council estimates that as many as 40,000 people died in motor vehicle crashes last year. That marks a 6% increase over 2015, and a 14% increase over 2014 – the most dramatic two-year escalation since 1964 – 53 years. The preliminary estimate means 2016 may have been the deadliest year on the nation's roads since 2007. An estimated 4.6 million roadway users were injured seriously enough to require medical attention in 2016, and estimated cost to society was \$432 billion. An NSC survey released Feb. 15 provides a glimpse at the risky things drivers are doing. Although 83% of drivers surveyed believe driving is a safety concern, a startling number say they are comfortable speeding (64%), texting either manually or through voice controls (47%), driving while impaired by marijuana (13%), or driving after they feel they've had too much alcohol (10%). Registration Now Open for 2017 Region IV Conference

Register today for the [2017 Region IV Conference](#), May 21-24 in Seattle, Washington. The 2017 Region IV Conference provides a terrific opportunity for attendees to discuss today's relevant motor vehicle and law enforcement related issues. As with every AAMVA conference, the ability to network is one of the most beneficial experiences, and this year's regional conference provides many valuable interactive and learning opportunities. Jurisdictional attendees can learn about the successes and challenges of others, share ideas, build relationships, and discover the many products and services provided by our industry partners that can assist in your mission. Industry attendees will have the opportunity to meet with key players in the motor vehicle and law enforcement arena.

Arizona Implements State-to-State Verification Service

AAMVA congratulates Arizona on successfully implementing the State-to-State Verification Service (S2S) during the weekend of February 26th, 2017, becoming the 14th participant using the new service. Arizona will now be able to use SPEXS to perform its CDLIS and S2S functions. Arizona can now track pointer information related to its Base Driver Licenses, Permit for Base Driver Licenses, and Identification Cards. This supports, among other goals, limiting any person to only one driver's license. All migration activities have completed as per schedule. CDLIS and S2S services are fully operational now. Mississippi is planning to use the S2S beginning June 4th, 2017. Other jurisdictions will also begin using S2S in the upcoming months and AAMVA looks forward to supporting them during their onboarding process. For more information, [click here](#).

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Tuesday, February 28, 2017, 2:00 - 3:00 pm (ET)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

JURISDICTION NEWS

Virginia's Electronic Credentials Act

The Virginia General Assembly passed [House Bill 2229](#), the Electronic Credentials Act, which when signed by Governor Terry McAuliffe will be the most comprehensive law defining standards for e-credentials. This measure builds upon Virginia DMV's successful 2016 mobile driver's license study by establishing in statute the authority for DMV to issue credentials, such as driver's licenses and vehicle registration cards, in an electronic format as well as a physical format. Virginia's leaders have endorsed the future of credentialing and set the standards for security, privacy, and issuance.

Maine DOT To Lower Speed Limit on I-295

On March 27, 2017, the Maine Department of Transportation will be lowering the speed limit on Interstate 295 from Falmouth to Topsham from the current 70 mph to 65 mph. Since the speed limit increase in 2014 from 65 mph to 70 mph, data shows that I-295 crashes increased by 29% in a two-year span between the year before (June 2013-May 2014) and the year after (June 2015-May 2016). During that same time period, traffic volumes increased by 6.4%. [Read more here.](#)

DHS Secretary Kelly Issues Implementing Memo on Border Security and Immigration Enforcement

On February 20th, the United States Department of Homeland Security (DHS) issued an implementation memo regarding border security and immigration laws. The memorandum, entitled, [Implementing the President's Border Security and Immigration Enforcement Improvement Policies](#) implements the President's previous executive order of the same name. The implementation memorandum "constitutes guidance to all Department personnel, and supersedes all existing conflicting policy, directives, memoranda, and other guidance regarding this subject matter." The memorandum describes the detention and release procedures applicable to those deemed inadmissible or otherwise described in section 235(b) of the Immigration and Nationality Act (INA). Further, the memorandum expands Section 287(g) of the INA, which authorizes DHS to enter into a written agreement "for the purpose of authorizing qualified officers or employees of the state or subdivision to perform the functions of an immigration officer in relation to the investigation, apprehension, or detention of aliens in the United States." The memorandum touches on numerous other border security and immigration enforcement directives relative to implementation of the President's executive order.

DHS Secretary Kelly Issues Implementing Memo on Enforcement of Immigration Law

On February 20th, the United States Department of Homeland Security issued an implementation memorandum entitled, [Enforcement of the Immigration Laws to Serve the National Interest](#). This memorandum immediately rescinds "all existing conflicting directives, memoranda, or field guidance regarding the enforcement of our immigration laws and priorities for removal." This includes rescinding the November 20, 2014 memoranda entitled "Policies for the Apprehension, Detention and Removal of Undocumented Immigrants," and "Secure Communities" (which discontinued the program) issued under the previous administration. The memorandum does not, however, rescind the June 15, 2012 memorandum entitled "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children," (commonly known as DACA) and the November 20, 2014 memorandum entitled, "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children and with Respect to Certain Individuals Who are the Parents of U.S. Citizens or Permanent Residents," (commonly known as DAPA). The memorandum prioritizes removal under circumstances as directed in the memorandum. Among those prioritized for removal are those who "have engaged in fraud or willful misrepresentation in connection with any official matter before a governmental agency." The memorandum terminates the previous Priority Enforcement Program and restores the Secure Communities Program, revising Department forms to communicate immigration status with recipient law enforcement agencies. This memo also looks to expand the 287(g) program which would allow a qualified state or local law enforcement officer to be designated as an "immigration officer" for purposes of enforcing federal immigration law. Further, the memorandum directs that DHS will "no longer afford Privacy Act rights and protections to persons who are neither U.S. citizens nor lawful permanent residents."

If you have questions, please contact [Dianne Graham](#), director, Member & Conference Services, (703) 908-8267.

This Week's Webinars

[NMVTIS State Web Interface \(SWI\) – Instant Title Verification Using the VIN Search Feature](#)

Tuesday, February 28, 2017, 2:00 - 3:00 pm (ET)

Before a jurisdiction issues a title or other ownership document or record, the SWI can provide information to help the jurisdiction determine whether the ownership documentation presented with the application are valid. The information supports jurisdictions' titling processes for both new and used vehicles. The Anti-Car Theft Act requires each jurisdiction to perform an instant title verification check before issuing a title to an applicant claiming to have purchased the vehicle from an individual or entity in another jurisdiction. The SWI VIN search feature can be used to satisfy this legal requirement. In addition, the NMVTIS best practice is that jurisdictions perform an inquiry before issuing a title or other ownership document or record, whether or not the applicant claims to have purchased the vehicle in another jurisdiction.

JURISDICTION NEWS

Virginia's Electronic Credentials Act

The Virginia General Assembly passed [House Bill 2229](#), the Electronic Credentials Act, which when signed by Governor Terry McAuliffe will be the most comprehensive law defining standards for e-credentials. This measure builds upon Virginia DMV's successful 2016 mobile driver's license study by establishing in statute the authority for DMV to issue credentials, such as driver's licenses and vehicle registration cards, in an electronic format as well as a physical format. Virginia's leaders have endorsed the future of credentialing and set the standards for security, privacy, and issuance.

Maine DOT To Lower Speed Limit on I-295

On March 27, 2017, the Maine Department of Transportation will be lowering the speed limit on Interstate 295 from Falmouth to Topsham from the current 70 mph to 65 mph. Since the speed limit increase in 2014 from 65 mph to 70 mph, data shows that I-295 crashes increased by 29% in a two-year span between the year before (June 2013-May 2014) and the year after (June 2015-May 2016). During that same time period, traffic volumes increased by 6.4%. [Read more here.](#)

President Trump Signs Executive Order on Regulatory Reform

President Donald Trump has signed an [executive order](#) seeking to alleviate unnecessary regulatory burdens placed on the American people. The executive order directs each federal agency to create a task force to identify and recommend changes to "unnecessary, burdensome and harmful" regulations. Each Regulatory Reform Task Force will evaluate existing regulations and identify candidates for repeal or modification and focus on eliminating costly and unnecessary regulations. At a minimum, each Regulatory Reform Task Force shall attempt to identify regulations that eliminate jobs or inhibit job creation; are outdated,

unnecessary, or ineffective; impose costs that exceed benefits; create serious inconsistency or otherwise interfere with regulatory reform initiatives and policies; or derive from or implement executive orders or other Presidential directives that have been subsequently rescinded or substantially modified. Agencies will be responsible for measuring and reporting on their progress to the President.

DHS Secretary Kelly Issues Implementing Memo on Border Security and Immigration Enforcement

On February 20th, the United States Department of Homeland Security (DHS) issued an implementation memo regarding border security and immigration laws. The memorandum, entitled, [Implementing the President's Border Security and Immigration Enforcement Improvement Policies](#) implements the President's previous executive order of the same name. The implementation memorandum "constitutes guidance to all Department personnel, and supersedes all existing conflicting policy, directives, memoranda, and other guidance regarding this subject matter." The memorandum describes the detention and release procedures applicable to those deemed inadmissible or otherwise described in section 235(b) of the Immigration and Nationality Act (INA). Further, the memorandum expands Section 287(g) of the INA, which authorizes DHS to enter into a written agreement "for the purpose of authorizing qualified officers or employees of the state or subdivision to perform the functions of an immigration officer in relation to the investigation, apprehension, or detention of aliens in the United States." The memorandum touches on numerous other border security and immigration enforcement directives relative to implementation of the President's executive order.

DHS Secretary Kelly Issues Implementing Memo on Enforcement of Immigration Law

On February 20th, the United States Department of Homeland Security issued an implementation memorandum entitled, [Enforcement of the Immigration Laws to Serve the National Interest](#). This memorandum immediately rescinds "all existing conflicting directives, memoranda, or field guidance regarding the enforcement of our immigration laws and priorities for removal." This includes rescinding the November 20, 2014 memoranda entitled "Policies for the Apprehension, Detention and Removal of Undocumented Immigrants," and "Secure Communities" (which discontinued the program) issued under the previous administration. The memorandum does not, however, rescind the June 15, 2012 memorandum entitled "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children," (commonly known as DACA) and the November 20, 2014 memorandum entitled, "Exercising Prosecutorial Discretion with Respect to Individuals Who Came to the United States as Children and with Respect to Certain Individuals Who are the Parents of U.S. Citizens or Permanent Residents," (commonly known as DAPA). The memorandum prioritizes removal under circumstances as directed in the memorandum. Among those prioritized for removal are those who "have engaged in fraud or willful misrepresentation in connection with any official matter before a governmental agency." The memorandum terminates the previous Priority Enforcement Program and restores the Secure Communities Program, revising Department forms to communicate immigration status with recipient law enforcement agencies. This memo also looks to expand the 287(g) program which would allow a qualified state or local law enforcement officer to be designated as an "immigration officer" for purposes of enforcing federal immigration law. Further, the memorandum directs that DHS will "no longer afford Privacy Act rights and protections to persons who are neither U.S. citizens nor lawful permanent residents."

FHWA Extends Deadline for Motorcycle Advisory Council Nominations

The Federal Highway Administration (FHWA) [announces](#) a deadline extension for nomination applications for the Motorcycle Advisory Council (MAC). The FHWA published its notice establishing the MAC and soliciting nominations for MAC membership on January 9, 2017, at 82 FR 2436. The deadline for nominations for MAC membership is extended to March 23, 2017. Interested parties should refer to the January 9th notice for application submission instructions.

PARTNER NEWS

NSC: Motor Vehicle Deaths in 2016 Estimated to be Highest in Nine Years

For the first time in nearly a decade, preliminary 2016 data from the National Safety Council estimates that as many as 40,000 people died in motor vehicle crashes last year. That marks a 6% increase over 2015, and a 14% increase over 2014 – the most dramatic two-year escalation since 1964 – 53 years. The preliminary estimate means 2016 may have been the deadliest year on the nation's roads since 2007. An estimated 4.6 million roadway users were injured seriously enough to require medical attention in 2016, and estimated cost to society was \$432 billion. An NSC survey released Feb. 15 provides a glimpse at the risky things drivers are doing. Although 83% of drivers surveyed believe driving is a safety concern, a startling number say they are comfortable speeding (64%), texting either manually or through voice controls (47%), driving while impaired by marijuana (13%), or driving after they feel they've had too much alcohol (10%). [Read more here.](#)

AAMVA Workshop 2017 - Less Than Three Weeks Away!

The 2017 AAMVA Workshop and Law Institute is getting closer! Don't miss out, register now and book your travel. The Workshop provides AAMVA members with an opportunity to network with colleagues from fellow jurisdictions across the U.S. and Canada as well as with industry organizations that provide the products and services your jurisdiction needs. [Register today and plan your trip to Minneapolis!](#)

Registration Now Open for 2017 Region IV Conference

Register today for the [2017 Region IV Conference](#), May 21-24 in Seattle, Washington. The 2017 Region IV Conference provides a terrific opportunity for attendees to discuss today's relevant motor vehicle and law enforcement related issues. As with every AAMVA conference, the ability to network is one of the most beneficial experiences, and this year's regional conference provides many valuable interactive and learning opportunities. Jurisdictional attendees can learn about the successes and challenges of others, share ideas, build relationships, and discover the many products and services provided by our industry partners that can assist in your mission. Industry attendees will have the opportunity to meet with key players in the motor vehicle and law enforcement arena.

Arizona Implements State-to-State Verification Service

AAMVA congratulates Arizona on successfully implementing the State-to-State Verification Service (S2S) during the weekend of February 26th, 2017, becoming the 14th participant using the new service. Arizona will now be able to use SPEXS to perform its CDLIS and S2S functions. Arizona can now track pointer information related to its Base Driver Licenses, Permit for Base Driver Licenses, and Identification Cards. This supports, among other goals, limiting any person to only one driver's license. All migration activities have completed as per schedule. CDLIS and S2S services are fully operational now. Mississippi is planning to use the S2S beginning June 4th, 2017. Other jurisdictions will also begin using S2S in the upcoming months and AAMVA looks forward to supporting them during their onboarding process. For more information, [click here](#).

Subject: AK-AR Duplicates File Processing

Greetings,

Arkansas has informed us that the Duplicate text file has a few lines that begin with “ which is causing the file format to be off. The lines are 99, 100, 193, and 197.

Could you please look into this and let me know when it is fixed?

Thanks,

Jesús [Tony] Bauza (PSEPM)

Subject: CERT database refresh Opt - Out list

Good Morning Mina,

Hope you are doing well!

We have been adding AK on the CERT opt-out list every Tuesday so that AK pointers are retained when the CERT database is refreshed every Tuesday night.

Just wanted to check with you if you still would like the AK pointers to be retained every week or can AK be taken off of the list?

Thank you,
Siri.

Subject: Canceled: CDLIS Working Group NRII Discussion
Location: Conference Room Monte Carlo 4-6

Start: Tue 2/28/2017 7:00 AM
End: Tue 2/28/2017 8:30 AM
Show Time As: Free

Recurrence: (none)

Meeting Status: Not yet responded

Organizer: Stephens, Melinda

Dear CDLIS Working Group,

Due to participation I must **cancel this meeting**, I apologize for all of the emails today and any confusion.

In our meeting today we were going to review the NR Spec with you, the NR Spec is basically the same as the SDLA Spec with some web service details for VOLPE. Given that we have reviewed the SDLA Spec in detail, it should suffice for review and approval of both documents.

FMCSA/VOLPE folks, I will work with Robin to schedule a time where we can review the details of the NR Spec with you.

Again, I apologize for any inconvenience or confusion. Please let me know if you have any questions.

Thank you!

Dear CDLIS Working Group,

As we discussed last week on 02/21, we would re-purpose our monthly meeting to discuss NRII. We can still use the GoToWebinar link for the monthly meeting, FMCSA and VOLPE participants will need to register for today's webinar:

<https://attendee.gotowebinar.com/register/7320634559712968195>

Thank you!

Dear CDLIS Working Group,

Our reoccurring meeting invite for these meetings has ran out as of December 2016 so I am sending a new series of occurrences. Please **register** using the link below.

If you have any questions please let me know,

Thank you!

Please register for CDLIS Working Group Monthly Meeting on Jan 17, 2017 11:00 AM EST at:

<https://attendee.gotowebinar.com/register/7320634559712968195>

Discuss and review change requests.

After registering, you will receive a confirmation email containing information about joining the webinar.

Subject: RE: VOTE - NR02 MEC Transmission Spec Docs

Good Afternoon,

I have received a couple of emails from you guys indicating that you weren't able to receive or open the documents. I have added these documents to the CDLIS Working Group SharePoint site for your review as well. Please use the following links:

NR02 SDLA Spec-

<https://share.aamva.org/membersvc/commwg/CDLISworkgroup/Other%20Documents/NRII%20Documents/NR02%20MEC%20Transmission/NR02%20MEC%20Transmission%20State%20Version%20r1.0.docm>

NR02 NR Spec-

<https://share.aamva.org/membersvc/commwg/CDLISworkgroup/Other%20Documents/NRII%20Documents/NR02%20MEC%20Transmission/NR02%20MEC%20Transmission%20Volpe%20Version%20r1.0.docm>

I am also trying to create a survey on SharePoint to capture your votes. I will let you know once the survey has been added if you would rather vote through SharePoint than through email.

Thank you!

Subject: VOTE - NR02 MEC Transmission Spec Docs

Dear CDLIS Working Group,

I am attaching the NR02 MEC Transmission SDLA Spec and the NR02 MEC Transmission NR Spec for your review and approval. The NR Spec is similar to the SDLA Spec with the exception of the web service details.

Please respond to this email with your vote no later than COB Monday March 6th. Please let me know if you have any questions.

Thank you!

Attachments: query to extract PLCL message Format.txt

Hi Mina,

Attached is the query that can be used to extract messages in PLCL format from the UNI database.

Please note, the user needs to modify the where clause parameters accordingly (the example shows that Application 12 and message type IO originated from gap code AA).

Please let us know of any questions.

Thank you,
Siri.

Subject: S2S Verification Services Agreement
Attachments: S2S Service Agreement redline 02222017 hmg.docx; S2S Service Agreement 02222017 Clean.docx

Good Morning Marla,

To follow-up on my voice-mail yesterday can you give me a status on the S2S Agreement. I thought I had sent you the revised Agreements where we agreed to insert the references to Alaska State Law in the preamble and in Section 4.b.ii however I have had some difficulty with email over the past week and I lost most of my sent emails and can't locate the one I sent so I'm resending. I've attached the redline and clean versions for your review. Can you please sign off on the clean version and return to me for full execution?

The effective date for this Agreement is today and I'm trying to wrap this one up. Feel free to call me at 703-908-8286 if you have any questions.

Thanks.

STATE-TO-STATE VERIFICATION SERVICE AGREEMENT

THIS STATE-TO-STATE VERIFICATION SERVICE AGREEMENT (“Agreement”) is made as of March 1, 2017 (“Effective Date”) between the undersigned driver licensing agency of the State of Alaska (“DLA”), pursuant to AS 28.05.021 and the AMERICAN ASSOCIATION OF MOTOR VEHICLE ADMINISTRATORS, a District of Columbia nonprofit corporation (AAMVA). The DLA and AAMVA are individually referred to in this Agreement as a “Party” and collectively as the “Parties”.

BACKGROUND

- A. AAMVA has developed and operates the State to State Verification Service (“S2S”). S2S enables jurisdictions participating in the S2S program (“Participating Jurisdictions”) to help determine whether an applicant for a driver license or identification card holds a driver license or identification card issued by another Participating Jurisdiction.
- B. DLA desires to participate in the S2S program in accordance with the terms and conditions set forth in this Agreement.

AGREEMENTS

IN CONSIDERATION of the mutual promises made in this Agreement, the parties agree as follows:

- 1. Primary S2S Responsibilities.
 - a. Subject to the terms and conditions of this Agreement, AAMVA agrees to provide DLA with online driver license and identification card (DL/ID) issuance verification services using S2S.
 - b. DLA agrees to carry out its obligations under this Agreement and to comply with the current Enforcement of S2S Compliance document as amended by the S2S Governance Committee from time to time.
- 2. Onboarding.
 - a. DLA agrees to develop and maintain a coded interface to S2S that is compliant with the current version of the S2S Specifications. AAMVA agrees to provide reasonable assistance to DLA in order to facilitate interfacing with S2S. DLA agrees to consult with AAMVA prior to making any modifications to the coded interface during the term of this Agreement.

- b. Testing with AAMVA is limited to transactions between DLA and S2S. AAMVA shall have no responsibility for testing the DLA's graphical user interface (GUI) through which it will access S2S.
 - c. DLA agrees that it will not access S2S until AAMVA has completed, to its satisfaction, structured tests of DLA's application (including testing of the initial load process) and has issued written authorization for DLA to access S2S.
- 3. Fees. DLA agrees to pay for use of S2S on the basis of DLA's actual utilization of S2S in accordance with the charges set forth in the current AAMVA's Products & Services Government Rate Schedule (available on AAMVA website at <http://www.aamva.org/Network-Services/>). All charges for DLA's use of S2S are subject to change upon at least twelve (12) months written notice from AAMVA to DLA.
- 4. Data Use, Privacy and Security.
 - a. AAMVA
 - i. AAMVA agrees to institute the controls as detailed in the S2S System Security and Privacy Plans, copies of which are available on request. The System Security and Privacy Plans are subject to modification by AAMVA. Controls include, but are not limited to, the following privacy and security tenets of the Plan:
 - 1. Access and Authorization
 - 2. Contingency Planning
 - 3. Data and Communication Protections
 - 4. Security Event Monitoring
 - ii. AAMVA agrees to implement the administrative, technical and physical safeguards created to protect and ensure the proper handling of Personally Identifiable Information ("PII"). AAMVA will not disclose, reuse or sell the S2S data per the privacy protections described in the S2S Privacy Impact Assessment (available on AAMVA website at <http://www.aamva.org/State-to-State>) and the S2S System Security and Privacy Plans.
 - b. DLA
 - i. DLA's use of any data furnished by a Participating Jurisdiction is strictly limited to the uses permitted under this Agreement. DLA agrees to limit the use of and access to S2S information and the records created by the data exchange under this Agreement to the purpose of administering their driver's license and/or identification card programs, including investigations of DL/ID related fraud. No other state or local governmental agency or other organization or person shall have access to S2S, or information obtained by DLA from S2S, without prior

written authorization by AAMVA.

- ii. DLA agrees to adopt policies and procedures to ensure that data exchanged under this Agreement is used in accordance with the terms and conditions of this Agreement and any applicable laws including AS 28.10.505(d)(1).
 - iii. DLA acknowledges and agrees that all right, title and interest in data provided by any jurisdiction is owned by the jurisdiction supplying that data. DLA further acknowledges that if a driver associated with a pointer owned by the DLA moves to a new jurisdiction, that jurisdiction automatically shall assume all right, title and interest in the pointer data associated with that driver, as well the driver history data that was received as part of the change of state record transaction.
 - iv. DLA agrees to provide data within S2S according to the same quality and timeliness that applies to data provided within the Commercial Driver's License Information System ("CDLIS"). DLA further acknowledges and agrees that its implementation and use of S2S shall have no impact on the operational and legal requirements established from time to time for state participation in CDLIS.
- c. DLA acknowledges that a positive ("match") verification only establishes that the data it submitted matches the data contained within the S2S pointer service, subject to the tolerances established in the S2S matching routines. The jurisdiction receiving S2S data is then responsible, among other things, for:
 - i. authenticating the identity of the applicant
 - ii. determining if the information received pertains to the applicant
 - iii. determining whether or not to issue a driver's license or identification card
- d. DLA agrees to limit the storage of data received from Participating Jurisdictions through S2S, as follows:
 - i. If DLA determines that the information received does not pertain to the person applying for a driver's license or identification card, DLA may retain only the minimum information that is needed for its governmental business purposes and agrees to securely destroy the remaining information it received from the other state.
 - ii. If DLA determines that the information received does pertain to the person applying for a driver's license or identification card and for any reason decides not to issue a driver's license or identification card, DLA agrees to retain only the minimum information needed for its governmental business purposes and agrees to securely destroy the remaining information it received from the other state.

- iii. If DLA determines that the information received pertains to the person applying for a driver's license or identification card, and decides to issue a driver's license or identification card, DLA may add some or all of the received driver history to the person's driver record in the receiving state.
- e. DLA agrees to restrict access to the information obtained from S2S, through DLA's systems or directly through the S2S web user interface, to only those authorized State employees, State agents, State representatives or State contractors who need it to perform their official duties in connection with the intended uses of the information authorized in this Agreement. DLA will restrict access to S2S information by taking actions including, but not limited to:
 - i. Immediately disabling accounts upon resignation/termination, or when access is no longer needed;
 - ii. Conducting a review of access accounts at least every 120 days to ensure that any obsolete accounts are disabled; and
 - iii. Monitoring use of accounts having access to S2S information.
- f. DLA agrees to audit user access to the systems and network infrastructure connecting to S2S, processing S2S information or storing S2S information.
- g. DLA agrees to prevent, detect and deter unauthorized access to its driver files, or to the systems and network infrastructure connecting to S2S, processing S2S information, or storing S2S information.
- h. DLA agrees to notify AAMVA within 1 calendar day following any confirmed incidents of data breach.
- i. DLA agrees to establish and enforce penalties for misuse of S2S data within its state.
- j. DLA acknowledges and agrees that when it sends data to another state, the receiving state may choose to retain all or parts of the data and the protection of the retained data is governed by the receiving state's data retention and disclosure rules.
- k. DLA agrees to use the AAMVA Best Practices for the Deterrence and Detection of Fraud (March 2015) (available on AAMVA website at <http://www.aamva.org/Best-Practices/>) as a guideline for state policy and procedures for safeguarding information provided under this Agreement.
- l. DLA agrees to provide notice to the applicants that the PII collected for the purpose of issuing a Driver License or ID card may be verified against nationwide systems for accuracy.
- m. DLA agrees to comply with the requirements and procedures set forth in the current Enforcement of S2S Compliance document as amended by the S2S Governance Committee from time to time.

5. Term, Termination and Suspension of Service.
- a. The term of this Agreement shall begin on the Effective Date and, unless sooner terminated in accordance with this Agreement, shall remain in effect.
 - b. Either AAMVA or DLA may terminate this Agreement upon 90 days' prior written notice to the other. Such termination will be effective 90 days from the date of the notice or at a later date specified in the notice.
 - c. AAMVA may immediately temporarily suspend DLA's access to S2S under this Agreement if it determines that DLA has: (1) incurred an unauthorized use of S2S, (2) violated or failed to comply with the terms of this Agreement or (3) if suspension is required to protect the integrity of S2S.
 - d. As of the effective date of termination of this Agreement or the suspension of access to S2S, DLA shall no longer have visibility or access to S2S data or functionality. S2S data provided by DLA prior to termination or suspension of service shall be removed from the system as a part of the termination process.
 - e. The parties acknowledge that DLA's participation in S2S requires significant modification of DLA's information technology systems and that the termination of DLA's participation in S2S may require significant programming and administrative transitions. In the event of termination of DLA's participation in S2S as provided above, the parties agree to cooperate in good faith to accomplish the programming, administrative and other aspects of the required transition in a manner that promotes the effective administration of state driver licensing and the Commercial Driver License (CDL) and other federal and state governmental programs. DLA acknowledges that it shall have exclusive responsibility for its expenses associated with the termination of its participation in S2S.
6. No Warranties. The State to State Verification Services provided under this Agreement are provided "as is." Except as expressly provided in this Agreement, AAMVA makes no warranties, express or implied, including, but not limited to, those of merchantability or fitness for a particular purpose or any other warranty arising by statute or from a course of dealing or usage of trade. Without limiting the foregoing, AAMVA makes no warranty of any kind that S2S will meet DLA's requirements, operate without interruption, achieve any intended result, be compatible or work with any other services, technologies, information or be error free. Use of information obtained through S2S is at DLA's own risk. AAMVA specifically disclaims any liability or responsibility for the accuracy or quality of data provided by Participating Jurisdictions, or for loss of data resulting from delays, nondeliveries, misdeliveries, or service interruptions, however caused. No oral or written information or advice given by AAMVA shall create a warranty, or in any way increase the scope of AAMVA's obligations to DLA under this Agreement.

7. Limitation of Liability.

- a. Unless expressly contrary to law of the state of the DLA, AAMVA shall have no liability for any consequential, incidental, exemplary, indirect damages, loss, or expenses of any similar kind even if AAMVA has been advised of the possibility of such damages, losses, or expenses. In no event shall AAMVA be liable for any damages caused by DLA's direct failure to carry out its obligations under this Agreement. AAMVA's aggregate liability to DLA under this Agreement, whether arising out of or related to breach of contract, tort (including negligence) or otherwise shall in no event exceed the total amount of fees paid by DLA to AAMVA pursuant to this Agreement in the twelve month period preceding the event giving rise to the claim.
- b. Excluded from the foregoing liability limitations are claims related to fraud, bad faith, infringement issues, bodily injury, death and physical damage to tangible personal or real property.

8. Miscellaneous.

- a. Headings and Captions. Headings and captions are inserted for reference and convenience only, and are not a part of and shall not affect the meaning or interpretation of this Agreement.
- b. Force Majeure. In no event will AAMVA be liable or responsible to DLA or be deemed to have defaulted under or breached this Agreement, for any failure or delay in fulfilling or performing any term of this Agreement when and to the extent such failure or delay is caused by any circumstances beyond AAMVA's reasonable control.
- c. Notices. All notices and communications relating to this Agreement, shall be in writing and shall be sent by certified mail, return receipt requested, or delivered personally or by email to the respective address set forth below, or to such other address(es) as either party shall designate by written notice.

To AAMVA:

- d. Assignment. Neither Party may assign or transfer this Agreement without the prior written consent of the other Party.
- e. Severability. A determination that any provision of this Agreement is invalid or unenforceable will not affect the validity or enforceability of any other part of this Agreement. Similarly, a determination that any provision is invalid or unenforceable in one application will not affect the validity or enforceability of the same provision in other contexts.
- f. Survival. The provisions of Sections 3, 4, 6, 7 and 8 shall survive the expiration or earlier termination of this Agreement.
- g. Governing Law. This Agreement shall be governed by the substantive laws of the Commonwealth of Virginia, without regard to its choice of law principles.
- h. Entire Agreement. This Agreement (including any exhibit or other attachment to this Agreement) constitutes the entire agreement between the parties pertaining to the subject matter herein, and supersedes all prior oral and written agreements and any proposals, correspondence and memoranda with respect thereto.
- i. Order of Precedence. In the event of conflicts among the terms of this Agreement and any attachment or exhibit, the provisions of the attachment or exhibit shall prevail.
- j. Modification. No modification to this Agreement will be effective unless it is in writing and signed by all of the Parties of this Agreement.

IN WITNESS WHEREOF, the undersigned have caused the Agreement to be executed by their authorized officials as of the Effective Date.

STATE-TO-STATE VERIFICATION SERVICE AGREEMENT

THIS STATE-TO-STATE VERIFICATION SERVICE AGREEMENT (“Agreement”) is made as of March 1, 2017 (“Effective Date”) between the undersigned driver licensing agency of the State of Alaska (“DLA”), pursuant to AS 28.05.021 and the AMERICAN ASSOCIATION OF MOTOR VEHICLE ADMINISTRATORS, a District of Columbia nonprofit corporation (AAMVA). The DLA and AAMVA are individually referred to in this Agreement as a “Party” and collectively as the “Parties”.

BACKGROUND

- A. AAMVA has developed and operates the State to State Verification Service (“S2S”). S2S enables jurisdictions participating in the S2S program (“Participating Jurisdictions”) to help determine whether an applicant for a driver license or identification card holds a driver license or identification card issued by another Participating Jurisdiction.
- B. DLA desires to participate in the S2S program in accordance with the terms and conditions set forth in this Agreement.

AGREEMENTS

IN CONSIDERATION of the mutual promises made in this Agreement, the parties agree as follows:

- 1. Primary S2S Responsibilities.
 - a. Subject to the terms and conditions of this Agreement, AAMVA agrees to provide DLA with online driver license and identification card (DL/ID) issuance verification services using S2S.
 - b. DLA agrees to carry out its obligations under this Agreement and to comply with the current Enforcement of S2S Compliance document as amended by the S2S Governance Committee from time to time.
- 2. Onboarding.
 - a. DLA agrees to develop and maintain a coded interface to S2S that is compliant with the current version of the S2S Specifications. AAMVA agrees to provide reasonable assistance to DLA in order to facilitate interfacing with S2S. DLA agrees to consult with AAMVA prior to making any modifications to the coded interface during the term of this Agreement.

- b. Testing with AAMVA is limited to transactions between DLA and S2S. AAMVA shall have no responsibility for testing the DLA's graphical user interface (GUI) through which it will access S2S.
 - c. DLA agrees that it will not access S2S until AAMVA has completed, to its satisfaction, structured tests of DLA's application (including testing of the initial load process) and has issued written authorization for DLA to access S2S.
- 3. Fees. DLA agrees to pay for use of S2S on the basis of DLA's actual utilization of S2S in accordance with the charges set forth in the current AAMVA's Products & Services Government Rate Schedule (available on AAMVA website at <http://www.aamva.org/Network-Services/>). All charges for DLA's use of S2S are subject to change upon at least twelve (12) months written notice from AAMVA to DLA.
- 4. Data Use, Privacy and Security.
 - a. AAMVA
 - i. AAMVA agrees to institute the controls as detailed in the S2S System Security and Privacy Plans, copies of which are available on request. The System Security and Privacy Plans are subject to modification by AAMVA. Controls include, but are not limited to, the following privacy and security tenets of the Plan:
 - 1. Access and Authorization
 - 2. Contingency Planning
 - 3. Data and Communication Protections
 - 4. Security Event Monitoring
 - ii. AAMVA agrees to implement the administrative, technical and physical safeguards created to protect and ensure the proper handling of Personally Identifiable Information ("PII"). AAMVA will not disclose, reuse or sell the S2S data per the privacy protections described in the S2S Privacy Impact Assessment (available on AAMVA website at <http://www.aamva.org/State-to-State>) and the S2S System Security and Privacy Plans.
 - b. DLA
 - i. DLA's use of any data furnished by a Participating Jurisdiction is strictly limited to the uses permitted under this Agreement. DLA agrees to limit the use of and access to S2S information and the records created by the data exchange under this Agreement to the purpose of administering their driver's license and/or identification card programs, including investigations of DL/ID related fraud. No other state or local governmental agency or other organization or person shall have access to S2S, or information obtained by DLA from S2S, without prior

written authorization by AAMVA.

- ii. DLA agrees to adopt policies and procedures to ensure that data exchanged under this Agreement is used in accordance with the terms and conditions of this Agreement and any applicable laws including AS 28.10.505(d)(1).
 - iii. DLA acknowledges and agrees that all right, title and interest in data provided by any jurisdiction is owned by the jurisdiction supplying that data. DLA further acknowledges that if a driver associated with a pointer owned by the DLA moves to a new jurisdiction, that jurisdiction automatically shall assume all right, title and interest in the pointer data associated with that driver, as well the driver history data that was received as part of the change of state record transaction.
 - iv. DLA agrees to provide data within S2S according to the same quality and timeliness that applies to data provided within the Commercial Driver's License Information System ("CDLIS"). DLA further acknowledges and agrees that its implementation and use of S2S shall have no impact on the operational and legal requirements established from time to time for state participation in CDLIS.
- c. DLA acknowledges that a positive ("match") verification only establishes that the data it submitted matches the data contained within the S2S pointer service, subject to the tolerances established in the S2S matching routines. The jurisdiction receiving S2S data is then responsible, among other things, for:
 - i. authenticating the identity of the applicant
 - ii. determining if the information received pertains to the applicant
 - iii. determining whether or not to issue a driver's license or identification card
- d. DLA agrees to limit the storage of data received from Participating Jurisdictions through S2S, as follows:
 - i. If DLA determines that the information received does not pertain to the person applying for a driver's license or identification card, DLA may retain only the minimum information that is needed for its governmental business purposes and agrees to securely destroy the remaining information it received from the other state.
 - ii. If DLA determines that the information received does pertain to the person applying for a driver's license or identification card and for any reason decides not to issue a driver's license or identification card, DLA agrees to retain only the minimum information needed for its governmental business purposes and agrees to securely destroy the remaining information it received from the other state.

- iii. If DLA determines that the information received pertains to the person applying for a driver's license or identification card, and decides to issue a driver's license or identification card, DLA may add some or all of the received driver history to the person's driver record in the receiving state.
- e. DLA agrees to restrict access to the information obtained from S2S, through DLA's systems or directly through the S2S web user interface, to only those authorized State employees, State agents, State representatives or State contractors who need it to perform their official duties in connection with the intended uses of the information authorized in this Agreement. DLA will restrict access to S2S information by taking actions including, but not limited to:
 - i. Immediately disabling accounts upon resignation/termination, or when access is no longer needed;
 - ii. Conducting a review of access accounts at least every 120 days to ensure that any obsolete accounts are disabled; and
 - iii. Monitoring use of accounts having access to S2S information.
- f. DLA agrees to audit user access to the systems and network infrastructure connecting to S2S, processing S2S information or storing S2S information.
- g. DLA agrees to prevent, detect and deter unauthorized access to its driver files, or to the systems and network infrastructure connecting to S2S, processing S2S information, or storing S2S information.
- h. DLA agrees to notify AAMVA within 1 calendar day following any confirmed incidents of data breach.
- i. DLA agrees to establish and enforce penalties for misuse of S2S data within its state.
- j. DLA acknowledges and agrees that when it sends data to another state, the receiving state may choose to retain all or parts of the data and the protection of the retained data is governed by the receiving state's data retention and disclosure rules.
- k. DLA agrees to use the AAMVA Best Practices for the Deterrence and Detection of Fraud (March 2015) (available on AAMVA website at <http://www.aamva.org/Best-Practices/>) as a guideline for state policy and procedures for safeguarding information provided under this Agreement.
- l. DLA agrees to provide notice to the applicants that the PII collected for the purpose of issuing a Driver License or ID card may be verified against nationwide systems for accuracy.
- m. DLA agrees to comply with the requirements and procedures set forth in the current Enforcement of S2S Compliance document as amended by the S2S Governance Committee from time to time.

5. Term, Termination and Suspension of Service.
- a. The term of this Agreement shall begin on the Effective Date and, unless sooner terminated in accordance with this Agreement, shall remain in effect.
 - b. Either AAMVA or DLA may terminate this Agreement upon 90 days' prior written notice to the other. Such termination will be effective 90 days from the date of the notice or at a later date specified in the notice.
 - c. AAMVA may immediately temporarily suspend DLA's access to S2S under this Agreement if it determines that DLA has: (1) incurred an unauthorized use of S2S, (2) violated or failed to comply with the terms of this Agreement or (3) if suspension is required to protect the integrity of S2S.
 - d. As of the effective date of termination of this Agreement or the suspension of access to S2S, DLA shall no longer have visibility or access to S2S data or functionality. S2S data provided by DLA prior to termination or suspension of service shall be removed from the system as a part of the termination process.
 - e. The parties acknowledge that DLA's participation in S2S requires significant modification of DLA's information technology systems and that the termination of DLA's participation in S2S may require significant programming and administrative transitions. In the event of termination of DLA's participation in S2S as provided above, the parties agree to cooperate in good faith to accomplish the programming, administrative and other aspects of the required transition in a manner that promotes the effective administration of state driver licensing and the Commercial Driver License (CDL) and other federal and state governmental programs. DLA acknowledges that it shall have exclusive responsibility for its expenses associated with the termination of its participation in S2S.
6. No Warranties. The State to State Verification Services provided under this Agreement are provided "as is." Except as expressly provided in this Agreement, AAMVA makes no warranties, express or implied, including, but not limited to, those of merchantability or fitness for a particular purpose or any other warranty arising by statute or from a course of dealing or usage of trade. Without limiting the foregoing, AAMVA makes no warranty of any kind that S2S will meet DLA's requirements, operate without interruption, achieve any intended result, be compatible or work with any other services, technologies, information or be error free. Use of information obtained through S2S is at DLA's own risk. AAMVA specifically disclaims any liability or responsibility for the accuracy or quality of data provided by Participating Jurisdictions, or for loss of data resulting from delays, nondeliveries, misdeliveries, or service interruptions, however caused. No oral or written information or advice given by AAMVA shall create a warranty, or in any way increase the scope of AAMVA's obligations to DLA under this Agreement.

7. Limitation of Liability.

- a. Unless expressly contrary to law of the state of the DLA, AAMVA shall have no liability for any consequential, incidental, exemplary, indirect damages, loss, or expenses of any similar kind even if AAMVA has been advised of the possibility of such damages, losses, or expenses. In no event shall AAMVA be liable for any damages caused by DLA's direct failure to carry out its obligations under this Agreement. AAMVA's aggregate liability to DLA under this Agreement, whether arising out of or related to breach of contract, tort (including negligence) or otherwise shall in no event exceed the total amount of fees paid by DLA to AAMVA pursuant to this Agreement in the twelve month period preceding the event giving rise to the claim.
- b. Excluded from the foregoing liability limitations are claims related to fraud, bad faith, infringement issues, bodily injury, death and physical damage to tangible personal or real property.

8. Miscellaneous.

- a. Headings and Captions. Headings and captions are inserted for reference and convenience only, and are not a part of and shall not affect the meaning or interpretation of this Agreement.
- b. Force Majeure. In no event will AAMVA be liable or responsible to DLA or be deemed to have defaulted under or breached this Agreement, for any failure or delay in fulfilling or performing any term of this Agreement when and to the extent such failure or delay is caused by any circumstances beyond AAMVA's reasonable control.
- c. Notices. All notices and communications relating to this Agreement, shall be in writing and shall be sent by certified mail, return receipt requested, or delivered personally or by email to the respective address set forth below, or to such other address(es) as either party shall designate by written notice.

To AAMVA:

Attention: Contracts Administration

Anchorage AK 99503

- d. Assignment. Neither Party may assign or transfer this Agreement without the prior written consent of the other Party.
- e. Severability. A determination that any provision of this Agreement is invalid or unenforceable will not affect the validity or enforceability of any other part of this Agreement. Similarly, a determination that any provision is invalid or unenforceable in one application will not affect the validity or enforceability of the same provision in other contexts.
- f. Survival. The provisions of Sections 3, 4, 6, 7 and 8 shall survive the expiration or earlier termination of this Agreement.
- g. Governing Law. This Agreement shall be governed by the substantive laws of the Commonwealth of Virginia, without regard to its choice of law principles.
- h. Entire Agreement. This Agreement (including any exhibit or other attachment to this Agreement) constitutes the entire agreement between the parties pertaining to the subject matter herein, and supersedes all prior oral and written agreements and any proposals, correspondence and memoranda with respect thereto.
- i. Order of Precedence. In the event of conflicts among the terms of this Agreement and any attachment or exhibit, the provisions of the attachment or exhibit shall prevail.
- j. Modification. No modification to this Agreement will be effective unless it is in writing and signed by all of the Parties of this Agreement.

IN WITNESS WHEREOF, the undersigned have caused the Agreement to be executed by their authorized officials as of the Effective Date.

Dear S2S Committee members,

Thank you for attending the meeting yesterday. I hope you found it informative. We will be sending the meeting minutes next week. In the meantime, I wanted to remind you that if you desire to be part of the nomination committee or be an officer to send an email to Chrissy and myself. Chrissy's email is cnizer@mdot.state.md.us and mine is pguiot@aamva.org.

For all other communications/questions, please contact Loffie Jordaen at 919 789 1110 or ljordaen@aamva.org.

Thank you,
PG

Good Afternoon,

I have received a couple of emails from you guys indicating that you weren't able to receive or open the documents. I have added these documents to the CDLIS Working Group SharePoint site for your review as well. Please use the following links:

NR02 SDLA Spec-

<https://share.aamva.org/membersvc/commwg/CDLISworkgroup/Other%20Documents/NRII%20Documents/NR02%20MEC%20Transmission/NR02%20MEC%20Transmission%20State%20Version%20r1.0.docm>

NR02 NR Spec-

<https://share.aamva.org/membersvc/commwg/CDLISworkgroup/Other%20Documents/NRII%20Documents/NR02%20MEC%20Transmission/NR02%20MEC%20Transmission%20Volpe%20Version%20r1.0.docm>

I am also trying to create a survey on SharePoint to capture your votes. I will let you know once the survey has been added if you would rather vote through SharePoint than through email.

Thank you!

Subject: RE: VOTE - NR02 MEC Transmission Spec Docs

Good Afternoon,

I have received a couple of emails from you guys indicating that you weren't able to receive or open the documents. I have added these documents to the CDLIS Working Group SharePoint site for your review as well. Please use the following links:

NR02 SDLA Spec-

<https://share.aamva.org/membersvc/commwg/CDLISworkgroup/Other%20Documents/NRII%20Documents/NR02%20MEC%20Transmission/NR02%20MEC%20Transmission%20State%20Version%20r1.0.docm>

NR02 NR Spec-

<https://share.aamva.org/membersvc/commwg/CDLISworkgroup/Other%20Documents/NRII%20Documents/NR02%20MEC%20Transmission/NR02%20MEC%20Transmission%20Volpe%20Version%20r1.0.docm>

I am also trying to create a survey on SharePoint to capture your votes. I will let you know once the survey has been added if you would rather vote through SharePoint than through email.

Thank you!

Subject: The National Driver Register will conduct a Cleanfile on March 19, 2017

PDPS Participants:

The National Driver Register will conduct a Cleanfile on March 19th, 2017

Cleanfile is an optional process. It is a means for jurisdictions to refresh the pointers it has on PDPS. NDR replaces all pointers on the PDPS file with the Cleanfile set of pointers sent by the jurisdiction. In order for a pointer to be included in the Cleanfile, the associated record in the jurisdiction must contain a conviction or withdrawal specified in 23 CFR Part 1327 section 1327.5 (a) or in Appendix A to that rule.

To participate in this Cleanfile, please email NDR by March 8th, 2017, and plan to send your file to NDR no later than March 15th, 2017.

Cleanfiles must be submitted via Secure FTP or FTP. Please schedule a test of SFTP/FTP connectivity with NDR before attempting to send the full Cleanfile.

If you plan to participate in this Cleanfile or if you have any questions please contact the NDR Office by sending an e-mail to NDR_Operations@dot.gov.

Subject: RE: S2S Verification Services Agreement

Hi Hal,

Sorry was on the phone all day with our legislature so didn't have time to check back. I did get both copies originally and they are sitting on the Commissioners desk to be signed. Sorry they ended up in our legal group later than expected and then back a second time from the commissioner's office. I'm trying to get them signed today. We don't have an issue with them so shouldn't be any problems.

Thanks,
Marla

Subject: S2S Verification Services Agreement
Importance: High

Good Morning Marla,

To follow-up on my voice-mail yesterday can you give me a status on the S2S Agreement. I thought I had sent you the revised Agreements where we agreed to insert the references to Alaska State Law in the preamble and in Section 4.b.ii however I have had some difficulty with email over the past week and I lost most of my sent emails and can't locate the one I sent so I'm resending. I've attached the redline and clean versions for your review. Can you please sign off on the clean version and return to me for full execution?

The effective date for this Agreement is today and I'm trying to wrap this one up. Feel free to call me at 703-908-8286 if you have any questions.

Thanks.

Subject: Reminder about S2S Surveys and Touch Point 4

The purpose of this email is to provide a reminder about providing information about Alaska's experiences with the S2S Pilot. We need this information to ensure the pilot report and best practices recommendations are as complete and accurate as possible.

All pilot states agreed to gather information through the surveys that were developed under the guidance of the S2S Pilot Working Group. There are three of these surveys, and they are all important because each has unique questions.

The Implementation Survey is intended to gather information about the state's deployment of S2S. Each state should submit this after it's go-live. Could Alaska please complete and send this survey as soon as possible?

The Monthly Survey gathers information about a pilot state's on-going usage of S2S. We particularly need information about situations discovered where S2S has uncovered attempts to obtain DL/ID cards to avoid driving restrictions or other types of fraud. This would include cases that were found during the resolution of potential duplicate lists. Since the pilot will soon end, Alaska only needs to submit a monthly survey covering February 2107, which is due on March 7?

The Survey after Operations gathers information about the state's views and experiences with S2S after it has had it running for some time. As we get closer to the end of the pilot, the amount of time a state has to operate the pilot is growing shorter, so we need to have states submit this survey sooner. Could Alaska please submit this completed survey at least a few days prior to our Touch Point #4 call?

Touch Point 4 is also an important tool for gathering information for the pilot evaluation report and best practices recommendations. This touch point primarily involves interviews with key personnel about a pilot state's experiences implementing and using S2S. While previously we visited pilot states, we have switched to doing these interviews by conference call. These conference calls usually last around 90 minutes. We would like to schedule Touch Point 4 with Alaska in late March, preferably between March 215 and March 28. Can you suggest some dates for this?

Subject: Reminder about S2S Surveys and Touch Point 4

The purpose of this email is to provide a reminder about providing information about Alaska's experiences with the S2S Pilot. We need this information to ensure the pilot report and best practices recommendations are as complete and accurate as possible.

All pilot states agreed to gather information through the surveys that were developed under the guidance of the S2S Pilot Working Group. There are three of these surveys, and they are all important because each has unique questions.

The Implementation Survey is intended to gather information about the state's deployment of S2S. Each state should submit this after it's go-live. Could Alaska please complete and send this survey as soon as possible?

The Monthly Survey gathers information about a pilot state's on-going usage of S2S. We particularly need information about situations discovered where S2S has uncovered attempts to obtain DL/ID cards to avoid driving restrictions or other types of fraud. This would include cases that were found during the resolution of potential duplicate lists. Since the pilot will soon end, Alaska only needs to submit a monthly survey covering February 2107, which is due on March 7?

The Survey after Operations gathers information about the state's views and experiences with S2S after it has had it running for some time. As we get closer to the end of the pilot, the amount of time a state has to operate the pilot is growing shorter, so we need to have states submit this survey sooner. Could Alaska please submit this completed survey at least a few days prior to our Touch Point #4 call?

Touch Point 4 is also an important tool for gathering information for the pilot evaluation report and best practices recommendations. This touch point primarily involves interviews with key personnel about a pilot state's experiences implementing and using S2S. While previously we visited pilot states, we have switched to doing these interviews by conference call. These conference calls usually last around 90 minutes. We would like to schedule Touch Point 4 with Alaska in late March, preferably between March 215 and March 28. Can you suggest some dates for this?

Good morning AK,

Could you please look into the AK driver with the DLN [REDACTED] AWP ?

According to CARCO (CDLIS 3rd Party Provider) copied in this ticket, the driver has a valid AK CDL, however the CDLIS pointer is missing. AK might need to add the missing pointer. Please let us know what you find out.

Good Morning Marla,

Thanks for sending. We're fine with adding the Alaska law. I've made the changes you requested and have attached the redline with the additions along with a clean version. Please make sure I put them where you wanted them to go.

If the additions are good then please sign the clean version and return one to me. Once I receive it back I will have the CEO fully execute the document and will return a copy to you.

Unless you need an original with a wet signature a PDF copy with Alaska's signature is good for me.

Regards,

Subject: RE: State to State Service Agreement

Hal,

Sorry this has taken us so long. We are down to just a few additions that our legal counsel has requested inserted into the document.

Can you make changes to the first section?

We'd like to see the inclusions of AS 28.05.021 and 28.10.505(d)(1) into the agreement. Specifically, the introduction paragraph needs to have the following phrase:

Page 1, first paragraph, third line after ("DLA"): "pursuant to AS 28.05.021"

Page 3, paragraph #4.b.ii, third line after any applicable laws: "including AS 28.10.505(d)(1)."

I have included Michael Stanker our Attorney who works with the DMV.

If we can get this back tomorrow we can get it over for final signature.

Thanks,

Marla Thompson
Director, Division of Motor Vehicles

Subject: State to State Service Agreement

Dear Ms. Thompson,

We have made some minor edits to the post-pilot S2S User Agreement and I have attached it for your review and signature. As mentioned in previous communication one of the changes we made is to insert the effective date of this Agreement to reflect March 1, 2017 which is the end date of the current pilot period.

Please review, and if the Agreement meets your approval enter your Jurisdiction/Agency in the preamble on the first page and the contact information in Section 8 on page 6 (highlighted). Once signed please return to me prior to March 1st and I will have the Agreement fully executed and returned to you.

If, after review, you have some edits/changes you would like to make to the document please track the changes and return to me. Any questions regarding the Agreement can be addressed to either myself or Philippe Guiot (copied).

Regards,

Hal Gollos

STATE-TO-STATE VERIFICATION SERVICE AGREEMENT

THIS STATE-TO-STATE VERIFICATION SERVICE AGREEMENT ("Agreement") is made as of March 1, 2017 ("Effective Date") between the undersigned driver licensing agency of the State of Alaska ("DLA"), pursuant to AS 28.05.021 and the AMERICAN ASSOCIATION OF MOTOR VEHICLE ADMINISTRATORS, a District of Columbia nonprofit corporation (AAMVA). The DLA and AAMVA are individually referred to in this Agreement as a "Party" and collectively as the "Parties".

BACKGROUND

- A. AAMVA has developed and operates the State to State Verification Service ("S2S"). S2S enables jurisdictions participating in the S2S program ("Participating Jurisdictions") to help determine whether an applicant for a driver license or identification card holds a driver license or identification card issued by another Participating Jurisdiction.
- B. DLA desires to participate in the S2S program in accordance with the terms and conditions set forth in this Agreement.

AGREEMENTS

IN CONSIDERATION of the mutual promises made in this Agreement, the parties agree as follows:

- 1. Primary S2S Responsibilities.
 - a. Subject to the terms and conditions of this Agreement, AAMVA agrees to provide DLA with online driver license and identification card (DL/ID) issuance verification services using S2S.
 - b. DLA agrees to carry out its obligations under this Agreement and to comply with the current Enforcement of S2S Compliance document as amended by the S2S Governance Committee from time to time.
- 2. Onboarding.
 - a. DLA agrees to develop and maintain a coded interface to S2S that is compliant with the current version of the S2S Specifications. AAMVA agrees to provide reasonable assistance to DLA in order to facilitate interfacing with S2S. DLA agrees to consult with AAMVA prior to making any modifications to the coded interface during the term of this Agreement.

- b. Testing with AAMVA is limited to transactions between DLA and S2S. AAMVA shall have no responsibility for testing the DLA's graphical user interface (GUI) through which it will access S2S.
 - c. DLA agrees that it will not access S2S until AAMVA has completed, to its satisfaction, structured tests of DLA's application (including testing of the initial load process) and has issued written authorization for DLA to access S2S.
- 3. Fees. DLA agrees to pay for use of S2S on the basis of DLA's actual utilization of S2S in accordance with the charges set forth in the current AAMVA's Products & Services Government Rate Schedule (available on AAMVA website at <http://www.aamva.org/Network-Services/>). All charges for DLA's use of S2S are subject to change upon at least twelve (12) months written notice from AAMVA to DLA.
- 4. Data Use, Privacy and Security.
 - a. AAMVA
 - i. AAMVA agrees to institute the controls as detailed in the S2S System Security and Privacy Plans, copies of which are available on request. The System Security and Privacy Plans are subject to modification by AAMVA. Controls include, but are not limited to, the following privacy and security tenets of the Plan:
 - 1. Access and Authorization
 - 2. Contingency Planning
 - 3. Data and Communication Protections
 - 4. Security Event Monitoring
 - ii. AAMVA agrees to implement the administrative, technical and physical safeguards created to protect and ensure the proper handling of Personally Identifiable Information ("PII"). AAMVA will not disclose, reuse or sell the S2S data per the privacy protections described in the S2S Privacy Impact Assessment (available on AAMVA website at <http://www.aamva.org/State-to-State>) and the S2S System Security and Privacy Plans.
 - b. DLA
 - i. DLA's use of any data furnished by a Participating Jurisdiction is strictly limited to the uses permitted under this Agreement. DLA agrees to limit the use of and access to S2S information and the records created by the data exchange under this Agreement to the purpose of administering their driver's license and/or identification card programs, including investigations of DL/ID related fraud. No other state or local governmental agency or other organization or person shall have access to S2S, or information obtained by DLA from S2S, without prior

written authorization by AAMVA.

- ii. DLA agrees to adopt policies and procedures to ensure that data exchanged under this Agreement is used in accordance with the terms and conditions of this Agreement and any applicable laws including AS 28.10.505(d)(1).
 - iii. DLA acknowledges and agrees that all right, title and interest in data provided by any jurisdiction is owned by the jurisdiction supplying that data. DLA further acknowledges that if a driver associated with a pointer owned by the DLA moves to a new jurisdiction, that jurisdiction automatically shall assume all right, title and interest in the pointer data associated with that driver, as well the driver history data that was received as part of the change of state record transaction.
 - iv. DLA agrees to provide data within S2S according to the same quality and timeliness that applies to data provided within the Commercial Driver's License Information System ("CDLIS"). DLA further acknowledges and agrees that its implementation and use of S2S shall have no impact on the operational and legal requirements established from time to time for state participation in CDLIS.
- c. DLA acknowledges that a positive ("match") verification only establishes that the data it submitted matches the data contained within the S2S pointer service, subject to the tolerances established in the S2S matching routines. The jurisdiction receiving S2S data is then responsible, among other things, for:
- i. authenticating the identity of the applicant
 - ii. determining if the information received pertains to the applicant
 - iii. determining whether or not to issue a driver's license or identification card
- d. DLA agrees to limit the storage of data received from Participating Jurisdictions through S2S, as follows:
- i. If DLA determines that the information received does not pertain to the person applying for a driver's license or identification card, DLA may retain only the minimum information that is needed for its governmental business purposes and agrees to securely destroy the remaining information it received from the other state.
 - ii. If DLA determines that the information received does pertain to the person applying for a driver's license or identification card and for any reason decides not to issue a driver's license or identification card, DLA agrees to retain only the minimum information needed for its governmental business purposes and agrees to securely destroy the remaining information it received from the other state.

- iii. If DLA determines that the information received pertains to the person applying for a driver's license or identification card, and decides to issue a driver's license or identification card, DLA may add some or all of the received driver history to the person's driver record in the receiving state.
- e. DLA agrees to restrict access to the information obtained from S2S, through DLA's systems or directly through the S2S web user interface, to only those authorized State employees, State agents, State representatives or State contractors who need it to perform their official duties in connection with the intended uses of the information authorized in this Agreement. DLA will restrict access to S2S information by taking actions including, but not limited to:
 - i. Immediately disabling accounts upon resignation/termination, or when access is no longer needed;
 - ii. Conducting a review of access accounts at least every 120 days to ensure that any obsolete accounts are disabled; and
 - iii. Monitoring use of accounts having access to S2S information.
- f. DLA agrees to audit user access to the systems and network infrastructure connecting to S2S, processing S2S information or storing S2S information.
- g. DLA agrees to prevent, detect and deter unauthorized access to its driver files, or to the systems and network infrastructure connecting to S2S, processing S2S information, or storing S2S information.
- h. DLA agrees to notify AAMVA within 1 calendar day following any confirmed incidents of data breach.
- i. DLA agrees to establish and enforce penalties for misuse of S2S data within its state.
- j. DLA acknowledges and agrees that when it sends data to another state, the receiving state may choose to retain all or parts of the data and the protection of the retained data is governed by the receiving state's data retention and disclosure rules.
- k. DLA agrees to use the AAMVA Best Practices for the Deterrence and Detection of Fraud (March 2015) (available on AAMVA website at <http://www.aamva.org/Best-Practices/>) as a guideline for state policy and procedures for safeguarding information provided under this Agreement.
- l. DLA agrees to provide notice to the applicants that the PII collected for the purpose of issuing a Driver License or ID card may be verified against nationwide systems for accuracy.
- m. DLA agrees to comply with the requirements and procedures set forth in the current Enforcement of S2S Compliance document as amended by the S2S Governance Committee from time to time.

5. Term, Termination and Suspension of Service.

- a. The term of this Agreement shall begin on the Effective Date and, unless sooner terminated in accordance with this Agreement, shall remain in effect.
 - b. Either AAMVA or DLA may terminate this Agreement upon 90 days' prior written notice to the other. Such termination will be effective 90 days from the date of the notice or at a later date specified in the notice.
 - c. AAMVA may immediately temporarily suspend DLA's access to S2S under this Agreement if it determines that DLA has: (1) incurred an unauthorized use of S2S, (2) violated or failed to comply with the terms of this Agreement or (3) if suspension is required to protect the integrity of S2S.
 - d. As of the effective date of termination of this Agreement or the suspension of access to S2S, DLA shall no longer have visibility or access to S2S data or functionality. S2S data provided by DLA prior to termination or suspension of service shall be removed from the system as a part of the termination process.
 - e. The parties acknowledge that DLA's participation in S2S requires significant modification of DLA's information technology systems and that the termination of DLA's participation in S2S may require significant programming and administrative transitions. In the event of termination of DLA's participation in S2S as provided above, the parties agree to cooperate in good faith to accomplish the programming, administrative and other aspects of the required transition in a manner that promotes the effective administration of state driver licensing and the Commercial Driver License (CDL) and other federal and state governmental programs. DLA acknowledges that it shall have exclusive responsibility for its expenses associated with the termination of its participation in S2S.
6. No Warranties. The State to State Verification Services provided under this Agreement are provided "as is." Except as expressly provided in this Agreement, AAMVA makes no warranties, express or implied, including, but not limited to, those of merchantability or fitness for a particular purpose or any other warranty arising by statute or from a course of dealing or usage of trade. Without limiting the foregoing, AAMVA makes no warranty of any kind that S2S will meet DLA's requirements, operate without interruption, achieve any intended result, be compatible or work with any other services, technologies, information or be error free. Use of information obtained through S2S is at DLA's own risk. AAMVA specifically disclaims any liability or responsibility for the accuracy or quality of data provided by Participating Jurisdictions, or for loss of data resulting from delays, nondeliveries, misdeliveries, or service interruptions, however caused. No oral or written information or advice given by AAMVA shall create a warranty, or in any way increase the scope of AAMVA's obligations to DLA under this Agreement.

7. Limitation of Liability.

- a. Unless expressly contrary to law of the state of the DLA, AAMVA shall have no liability for any consequential, incidental, exemplary, indirect damages, loss, or expenses of any similar kind even if AAMVA has been advised of the possibility of such damages, losses, or expenses. In no event shall AAMVA be liable for any damages caused by DLA's direct failure to carry out its obligations under this Agreement. AAMVA's aggregate liability to DLA under this Agreement, whether arising out of or related to breach of contract, tort (including negligence) or otherwise shall in no event exceed the total amount of fees paid by DLA to AAMVA pursuant to this Agreement in the twelve month period preceding the event giving rise to the claim.
- b. Excluded from the foregoing liability limitations are claims related to fraud, bad faith, infringement issues, bodily injury, death and physical damage to tangible personal or real property.

8. Miscellaneous.

- a. Headings and Captions. Headings and captions are inserted for reference and convenience only, and are not a part of and shall not affect the meaning or interpretation of this Agreement.
- b. Force Majeure. In no event will AAMVA be liable or responsible to DLA or be deemed to have defaulted under or breached this Agreement, for any failure or delay in fulfilling or performing any term of this Agreement when and to the extent such failure or delay is caused by any circumstances beyond AAMVA's reasonable control.
- c. Notices. All notices and communications relating to this Agreement, shall be in writing and shall be sent by certified mail, return receipt requested, or delivered personally or by email to the respective address set forth below, or to such other address(es) as either party shall designate by written notice.

To AAMVA:

Attention: Contracts Administration
AAMVA

Arlington, VA 22203

To DLA:

Marla Thompson
DMV Director SOA
1300 W Benson Blvd Ste 900
Anchorage AK 99503

- d. Assignment. Neither Party may assign or transfer this Agreement without the prior written consent of the other Party.
- e. Severability. A determination that any provision of this Agreement is invalid or unenforceable will not affect the validity or enforceability of any other part of this Agreement. Similarly, a determination that any provision is invalid or unenforceable in one application will not affect the validity or enforceability of the same provision in other contexts.
- f. Survival. The provisions of Sections 3, 4, 6, 7 and 8 shall survive the expiration or earlier termination of this Agreement.
- g. Governing Law. This Agreement shall be governed by the substantive laws of the Commonwealth of Virginia, without regard to its choice of law principles.
- h. Entire Agreement. This Agreement (including any exhibit or other attachment to this Agreement) constitutes the entire agreement between the parties pertaining to the subject matter herein, and supersedes all prior oral and written agreements and any proposals, correspondence and memoranda with respect thereto.
- i. Order of Precedence. In the event of conflicts among the terms of this Agreement and any attachment or exhibit, the provisions of the attachment or exhibit shall prevail.
- j. Modification. No modification to this Agreement will be effective unless it is in writing and signed by all of the Parties of this Agreement.

IN WITNESS WHEREOF, the undersigned have caused the Agreement to be executed by their authorized officials as of the Effective Date.

Good Morning Marla,

Thanks for sending. We're fine with adding the Alaska law. I've made the changes you requested and have attached the redline with the additions along with a clean version. Please make sure I put them where you wanted them to go.

If the additions are good then please sign the clean version and return one to me. Once I receive it back I will have the CEO fully execute the document and will return a copy to you.

Unless you need an original with a wet signature a PDF copy with Alaska's signature is good for me.

Subject: AK- MPR Summary Report
Attachments: MPR Summary Report- AK.xlsx

Title:	CD90.7.2 MPR Summary Report
Timing:	Monthly
Regulation:	<p>§ 384.207: Notification of Licensing</p> <p>Within the period defined in § 383.73(h) of this subchapter, the State must:</p> <ul style="list-style-type: none"> (a) Notify the operator of the CDLIS of each CLP or CDL issuance; (b) Notify the operator of the CDLIS of any changes in driver identification information; and (c) In the case of transfer issuances, implement the Change State of Record transaction, as specified by the CDLIS, in conjunction with the previous State of record and the operator of the CDLIS.
Transactions:	Add Driver (UA); Change State of Record (UD); Delete Driver (UE)
Purpose:	*This report displays summary information for the Master Pointer Records (MPRs) for a State of Record. The summary includes the addition of the new MPRs to the SOR, number of Change State of Records from and to the SOR, and the number of MPRs deleted. The subtotal of MPRs added or deleted to the State's MPR count for the month is also provided. It displays the count of Master Pointer Records (MPRs) currently present in CDLIS and the percentage of Master Pointer Records currently in state has in CDLIS.
Report Sections:	<p>Header: Report filter information</p> <p>Detail: The MPR(s) added and removed for a State of Record</p> <p>Summary Section:</p> <ul style="list-style-type: none"> * Total number of new MPR(s) added * Total number of Change State of Record (CSOR) moved into State * Subtotal of MPR(s) added to State's Total MPR Count * Total number of MPR(s) deleted * Total number of Change State of Record (CSOR) moved out of State * Subtotal of MPR(s) removed from State's Total MPR Count * MPR Count as of Report Date * Total number of MPR(s) in CDLIS as of Report End Date * 'ST' Percentage (%) as of Report End Date

NOTE: The current MPR Summary Report for your state does not include the CDL status change of the Master Pointer Records (MPRs) i.e. the number of records that have upgraded to a CDLIS MPR and the number of records that have downgraded from a CDLIS MPR which impact the CDLIS MPR count at the Central Site. AAMVA is currently working on implementing a new report to include these counts.

Thanks,

Jessie Rogers | Senior Operations Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Subject: Please update Alaska's contact information

Good morning,

I am writing on behalf of the National Odometer and Title Fraud Enforcement Association (NOTFEA). We are asking that Alaska update its contact information in our Auto Fraud Investigative Manual. The manual is meant to facilitate the exchange of knowledge and techniques between members in order to better detect, deter and prosecute odometer, rebuilt/salvage, and other title fraud related crimes. The current 2015 manual is attached.

Please note any updates and return the information to Michaelldomke@dot.wi.gov by 3/15/2017.

Thank you for your assistance,

Mark Sier
Field Investigation Unit Supervisor

Subject: RE: State to State Service Agreement

Good Morning Marla,

Thanks for sending. We're fine with adding the Alaska law. I've made the changes you requested and have attached the redline with the additions along with a clean version. Please make sure I put them where you wanted them to go.

If the additions are good then please sign the clean version and return one to me. Once I receive it back I will have the CEO fully execute the document and will return a copy to you.

Unless you need an original with a wet signature a PDF copy with Alaska's signature is good for me.

Subject: RE: State to State Service Agreement

Hal,

Sorry this has taken us so long. We are down to just a few additions that our legal counsel has requested inserted into the document.

Can you make changes to the first section?

We'd like to see the inclusions of AS 28.05.021 and 28.10.505(d)(1) into the agreement. Specifically, the introduction paragraph needs to have the following phrase:

Page 1, first paragraph, third line after ("DLA"): "pursuant to AS 28.05.021"

Page 3, paragraph #4.b.ii, third line after any applicable laws: "including AS 28.10.505(d)(1)."

I have included Michael Stanker our Attorney who works with the DMV.

If we can get this back tomorrow we can get it over for final signature.

Thanks,

Marla Thompson
Director, Division of Motor Vehicles

State of Alaska

Subject: State to State Service Agreement

Dear Ms. Thompson,

We have made some minor edits to the post-pilot S2S User Agreement and I have attached it for your review and signature. As mentioned in previous communication one of the changes we made is to insert the effective date of this Agreement to reflect March 1, 2017 which is the end date of the current pilot period.

Please review, and if the Agreement meets your approval enter your Jurisdiction/Agency in the preamble on the first page and the contact information in Section 8 on page 6 (highlighted). Once signed please return to me prior to March 1st and I will have the Agreement fully executed and returned to you.

If, after review, you have some edits/changes you would like to make to the document please track the changes and return to me. Any questions regarding the Agreement can be addressed to either myself or Philippe Guiot (copied).

Subject: CDLIS Working Group Meetings

Dear CDLIS Working Group,

I wanted to send out this message and inform you that I will be cancelling the CDLIS Working Group NR11 Discussions that occur on the second and fourth Tuesdays of each month.

In looking at the progress we have made on NR11, and the documents that are left to be reviewed, our regular CDLIS Working Group Monthly Meetings (that occur on the 3rd Tuesday of each month) should be sufficient to discuss/review NR11 as well as any CDLIS issues that need to be addressed.

I will be sending the appointment cancellation through email, and will also cancel the appropriate GoToWebinar series for these meetings. If you have appointments created by GoToWebinar on your calendars for these dates, **please remove them** as well to eliminate any confusion.

FMCSA/VOLPE staff will receive an invite to the CDLIS Working Group Monthly Meetings (please register for the Webinar Series). In the event that NR11 will not be discussed, we will notify you that your attendance at the meeting is not required.

Please let me know if you have any questions.

Thank you!

Mindy Stephens

New

[REGISTER ONLINE!](#)

OUR WEBINARS

MARCH

register now and book your travel. The Workshop provides AAMVA members with an opportunity to network with colleagues from fellow jurisdictions across the U.S. and Canada as well as with industry organizations that provide the products and services your jurisdiction needs. [Register today and plan your trip to Minneapolis!](#)

Registration Now Open for 2017 Region IV Conference

Register today for the [2017 Region IV Conference](#), May 21-24 in Seattle, Washington. The 2017 Region IV Conference provides a terrific opportunity for attendees to discuss today's relevant motor vehicle and law enforcement related issues. As with every AAMVA conference, the ability to network is one of the most beneficial experiences, and this year's regional conference provides many valuable interactive and learning opportunities. Jurisdictional attendees can learn about the successes and challenges of others, share ideas, build relationships, and discover the many products and services provided by our industry partners that can assist in your mission. Industry attendees will have the opportunity to meet with key players in the motor vehicle and law enforcement arena.

REGION I NEWS

Fairfield Reps. Kupchick, Devlin Push For Easier Driver's License Renewals (Connecticut)

A bill proposed by state Reps. Brenda Kupchick and Laura Devlin could make it much easier to renew your driver's license and car registration in Connecticut. [Read the full story at Fairfield.DailyVoice.com.](#)

Pennsylvania Bills To Permit Local Speed Radar Use Clear Committee

Two bills moving forward in the Pennsylvania Senate would authorize speed radar use by local police. Pennsylvania is the only state in the country that prohibits municipal police from enforcing speed limits with radar. Since 1961, only state troopers are allowed to use radar. [Read the full story at LandLineMag.com.](#)

More Mediation Ordered In DMV IT Lawsuit (Rhode Island)

A judge wants the state and the company building the R.I. Division of Motor Vehicles' long-delayed new computer system to continue trying to settle their differences out of court. [Read the full story at WPRI.com.](#)

REGION II NEWS

Revamped Real ID Driver's License Bill Gains Support From Lawmakers, Bevin (Kentucky)

The General Assembly is getting a second chance to pass a Real ID law that would make Kentucky's driver's licenses comply with tougher federal security standards — and let Kentuckians keep using their licenses to board commercial airline flights and enter military bases. [Read the full story at InsiderLouisville.com.](#)

North Carolina DMV Backlog Allowed Drivers On The Road Who Shouldn't Have Been

A state employee has been fired from the North Carolina Department of Motor

OPEN RFPs

Post your open RFPs/RFIs on AAMVA's Web site at www.aamva.org/open-rfps/.

Open RFP's will be included in AAMVA's *Regional News* and *The Week In Review* newsletters to provide maximum exposure for jurisdictional procurements.

Vehicles for destroying official documents and failing to update and process thousands of records. [Read the full story at WNCN.com.](#)

System Allows Motorists To Avoid Courtroom, Get Dismissals Online (North Carolina)

A new web-based system allows people receiving certain traffic citations to bypass court by requesting a dismissal online, a move court officials believe will translate into more convenience for offenders and less cases flooding courtrooms. [Read the full story at ClintonNC.com.](#)

Oklahomans to Pay \$5 More for REAL ID-Compliant Licenses

The Oklahoma Senate has given final legislative approval to a bill to bring the state into compliance with the federal REAL ID Act, at a cost of an additional \$5 to Oklahomans for driver's licenses. [Read the full story at USNews.com.](#)

REGION III NEWS

Snarky Indiana State Police Officer's Safety Video Goes Viral

It was a sunny day in Indianapolis, and Sgt. John Perrine's calendar was wide open. So the Indiana State trooper did what any other person with a smartphone does when they've got a bit of downtime. He filmed a video ... and it was hilarious. [Read the full story at King5.com.](#)

Real ID Effort Complicated By Immigrant License Issue (Minnesota)

The bill to create a high security "Real ID" for Minnesotans is hitting a serious glitch over an unexpected issue — immigration. Gov. Mark Dayton is telling fellow Democrats to vote against the bill unless it includes Minnesota driver's licenses for undocumented immigrants. [Read the full story at Minnesota.CBSLocal.com.](#)

Nebraska Lawmakers Advance Bill That Would Require DMV To Make Pro-Life Plates

Nebraska lawmakers have given initial approval to a bill that would let drivers display opposition to abortion on their license plates. [Read the full story at WOWT.com.](#)

Auto Industry Urges Caution On Nebraska Autonomous Car Bill

Nebraska should be careful not to overregulate self-driving vehicles as technology continues to develop, lobbyists for auto manufacturers and dealers said Tuesday at a legislative committee hearing. [Read the full story at YorkNewsTime.com.](#)

Ohio Department Of Public Safety Launches My Safer Ohio Business

Today, the Ohio Department of Public Safety (ODPS) launched the My Safer Ohio Business clearinghouse as a way to make it easier for businesses, law enforcement and public safety organizations to connect with the purpose of building a stronger, more prepared and safer Ohio. [Read the DPS news release.](#)

REGION IV NEWS

You Get Pulled Over By A CHP Officer. Now What? Here Are Tips For A Better Experience

Even though I am a uniform-wearing, sworn officer of the California Highway Patrol,

believe it or not, I know exactly what it feels like to be pulled over by the police. [Read the full story at FresnoBee.com.](#)

Increasing Number Of Montana License Plates Reported On Cars In California

The California Highway Patrol is getting more reports than ever of vehicle owners who may be evading state taxes by registering cars in Montana. [Read the full story at BozemanDailyChronicle.com.](#)

California 'Trust Women' License Plates to Help Pay for Reproductive Care in Trump Era

"Choose Life" license plates in at least 15 states fund crisis pregnancy centers, or fake clinics, that lie to pregnant people and oppose a full spectrum of reproductive health choices. California legislators are bucking this trend with "California Trusts Women" license plates. [Read the full story at Rewire.news.](#)

DMV Crackdown Cites Unlicensed Auto Shops Across Las Vegas Valley (Nevada)

Michael Salman has fixed motors, replaced hoses and changed brakes for thousands of vehicles at Expert Auto in Las Vegas for more than 30 years, taking ownership of the garage in 2000. [Read the full story at ReviewJournal.com.](#)

Last Call For .08? Utah Drawing Closer To Lowest Blood-Alcohol Limit In Nation

A bill making Utah's legal alcohol limit the lowest in the nation is one step closer to becoming law Wednesday after a Senate committee voted 4-2 to advance it following nearly two hours of testimony. [Read the full story at DeseretNews.com.](#)

Subject: AAMVA Survey Request - AAMVA is seeking feedback on SAVE/VLS

Dear Members,
AAMVA would like to gather information about the "lawful status" electronic verification services operated by the US Dept. of Homeland Security known as SAVE/VLS. In recent weeks, repeated outages of the DHS service have made it impossible for our members to conduct regular business for their customers. In fact, since the beginning of this year, AAMVA has recorded 12 VLS outages. We want to know whether states that are not using VLS have also experience interruptions to their verification service and if so, the impact and workarounds they've used. We have escalated the issue within DHS' management hierarchy and ask that you respond to this survey right away in order to provide us with data we can use to emphasize the problem and need for a complete fix. If you have any questions about this survey, please contact Nalini Rangaraju at nrangaraju@aamva.org.

Please respond to this survey:

Verification of Lawful Status (Ends 03/13/2017) Responses received from AR, CT, DE, FL, ID, IL, IN, KY, ME, MN, MO, MS, ND, NE, NH, NJ, NM, OR, PA, SC, WA.

AAMVA appreciates your response.

Thank you.

Janice Dluzynski | American Association of Motor Vehicle Administrators
(703) 908-5842 | jduluzynski@aamva.org

Note: All [open surveys](#) and [survey responses](#) can be accessed by going to www.aamva.org and clicking on the **Solutions & Best Practices** tab on the navigation bar or the **New Surveys** tab in the box on the left side of the screen.

Hi Mina,

Attached is the query that can be used to extract messages in PLCL format from the UNI database.

Please note, the user needs to modify the where clause parameters accordingly (the example shows that Application 12 and message type IO originated from gap code AA).

Please let us know of any questions.

Thank you,
Siri.

Greetings,

Arizona successfully implemented S2S during the weekend of February 26th, 2017 and became the 14th participant using the new service.

The Bulk Add process identified **4566 pairs of non-type-7** and **1681 pairs of type-7** potential duplicates between Arizona and Alaska.

The files that contain the details about these records have been placed in the Alaska CD34 output FTP folder identified with the following filenames:

AK_CD34_POTNL_DT7NA_20170225101620_ADD

AK_CD34_POTNL_DUPLC_20170225101620_ADD

You may reach out to the contacts listed below (also copied on this email), to begin reviewing the duplicates.

Hello Abbey,

I hope you had a nice weekend. I just wanted to send a friendly reminder that votes for NR02 are due by COB today. The documents are attached and are available on SharePoint:

NR02 SDLA Spec-

<https://share.aamva.org/membersvc/commwg/CDLISworkgroup/Other%20Documents/NRII%20Documents/NR02%20MEC%20Transmission/NR02%20MEC%20Transmission%20State%20Version%20r1.0.docm>

NR02 NR Spec-

<https://share.aamva.org/membersvc/commwg/CDLISworkgroup/Other%20Documents/NRII%20Documents/NR02%20MEC%20Transmission/NR02%20MEC%20Transmission%20Volpe%20Version%20r1.0.docm>

I know you said that Mina is OOO and that your state may not vote until she gets back, I wanted to send the reminder just in case.

Please let me know if you have any questions,

Thank you!

Hi Mina,

Attached is the query that can be used to extract messages in PLCL format from the UNI database.

Please note, the user needs to modify the where clause parameters accordingly (the example shows that Application 12 and message type IO originated form gap code AA).

Please let us know of any questions.

Thank you,
Siri.

Subject: UNI Call list samples

Good morning,

Our contractor has asked if we can provide them with call list samples. They seem to think it's something AAMVA can provide. Is it? I don't entirely understand what it is they want from us. Please let me know if I need to ask someone else – I just figured I'd start with you.

Thank you!

Hi Siri,

If you can provide the responses, that would be helpful, but I think the most important part are the initiated transactions. They can then initiate their own transactions from AI and then get “live” responses from AK.

Regards,

Mina Peters

Hi Siri,

In looking at this, it appears this pulls data from our database. What we are looking for is examples from AAMVA, not a way to pull our own data. Our contractors are looking for some good samples to ensure they are formatting our call list correctly.

Hi Mina,

Attached is the query that can be used to extract messages in PLCL format from the UNI database.

Please note, the user needs to modify the where clause parameters accordingly (the example shows that Application 12 and message type IO originated form gap code AA).

Please let us know of any questions.

Thank you,
Siri.

Subject: Wednesday Fraud Call
Attachments: WA 2017 New DL Flyer.pdf; 3-8-17 Fraud Call Topics.docx

Hi All,

Hope you can join us on Wednesday for this month's discussion on all things fraud. Following are the topics slated for discussion.

- Washington NEW DL Review – *see attached flyer*
- Washington Dealer Wholesale License Fraud and DOL Activities Update
- Missouri Dealer Wholesaler Fraud
- Nevada DMV Crackdown on Unlicensed Auto Shops
- New York Major Auto Theft / Title Fraud Case Investigation Overview
- Nebraska Case Investigations Update
- AAMVA Fraud Alert Site Update
- Open Discussion – YOUR INPUT WELCOME!

The full agenda is attached. Please let me know if you have questions or need additional information.

Sheila

Subject: Wednesday Fraud Call

Hi All,

Hope you can join us on Wednesday for this month's discussion on all things fraud. Following are the topics slated for discussion.

- Washington NEW DL Review – *see attached flyer*
- Washington Dealer Wholesale License Fraud and DOL Activities Update
- Missouri Dealer Wholesaler Fraud
- Nevada DMV Crackdown on Unlicensed Auto Shops
- New York Major Auto Theft / Title Fraud Case Investigation Overview
- Nebraska Case Investigations Update
- AAMVA Fraud Alert Site Update
- Open Discussion – YOUR INPUT WELCOME!

The full agenda is attached. Please let me know if you have questions or need additional information.

Sheila

Good Morning,

What time is the fraud call on Wednesday (3/8/17)? I did not get it added to my calendar for some reason.

Thanks

Jason Whipple

Good Morning,

What time is the fraud call on Wednesday (3/8/17)? I did not get it added to my calendar for some reason.

Thanks

Next Week! 2017 AAMVA Workshop and Law Institute

The 2017 AAMVA Workshop and Law Institute is just around the corner - NEXT WEEK, March 15-16! Don't miss out, register now and book your travel. The Workshop provides AAMVA members with an opportunity to network with colleagues from fellow jurisdictions across the U.S. and Canada as well as with industry organizations that provide the products and services your jurisdiction needs. [Register today and plan your trip to Minneapolis!](#)

DIVS Executive Committee Holds Its Final Meeting

The DIVS Executive Committee gathered for its final meeting to put finishing touches on the [State-to-State Verification Service \(S2S\)](#) and confirm it would transition successfully to AAMVA along with the other verification programs DIVS developed during its 8 years of activity. The success DIVS achieved in that time is noteworthy, having reached remarkable levels of state participation in verification services such as

USPVS, VLS/SAVE and S2S. The group epitomized what it means to build systems and solutions that are state owned and driven. DIVS Chair Chrissy Nizer asked for a motion and second to officially close their final meeting, thereby concluding the DIVS program March 3. This closure did not go without special recognition for the founding DIVS states of Mississippi, Kentucky, Florida, Indiana, Nevada, Wisconsin and Maryland AND for the group's "founding fathers", Clay Johnston (MS), Steve Leak (IN), Luke McAlpin (MS), Chrissy Nizer (MD), Bernard Soriano (CA), Kristina Boardman (WI) and JoCarol Roberts (KY). AAMVA's IT team received high compliments for having delivered quality verification services in support of the DIVS's member needs. Meeting attendees closed with expressions of deep appreciation to longtime friend, colleague and IT innovator Jay Maxwell who officially retired from Clerus Solutions which managed all the DIVS projects to success over the course of its 8 years of existence.

AAMVA is Now Accepting Applications for Regional Director of Member Support

[How to Fill Out and Send the NMVTIS Change Request Data Form to AAMVA Help Desk](#)

Tuesday, March 7, 2017, 2:00 - 3:00 pm (ET)

This webinar will focus on how to accurately fill out and send the NMVTIS change request data form to AAMVA Help Desk. The webinar includes: When to use the change request data form, Instructions on how to fill out the change request data form, How to send the form to AAMVA Help Desk, How to send corrections to the form to AAMVA Help Desk when needed, and Understand how to request different types of changes to the NMVTIS data using change request data form.

JURISDICTION NEWS

Ohio Department of Public Safety Launches My Safer Ohio Business

The Ohio Department of Public Safety (ODPS) launched the [My Safer Ohio Business](#) clearinghouse as a way to make it easier for businesses, law enforcement and public safety organizations to connect with the purpose of building a stronger, more prepared and safer Ohio. The [My Safer Ohio Business](#) clearinghouse provides businesses simple access to a wide variety of resources, safety tools, and information in order to aid in their development of emergency plans, training, communication and collaboration. Programs such as the Ohio Public Private Partnership, Emergency Partner Credentialing System as well as a wide variety of templates are now available for all businesses in one central location.

FEDERAL NEWS

DOJ Drops Challenge to Voter ID Law

The United States Justice Department (DOJ) has determined that, rather than continuing to litigate the discriminatory purpose claim in its ongoing litigation regarding the Texas voter ID law, DOJ "should give full effect to the Fifth Circuit's directives by withdrawing that claim and allowing the Texas Legislature the opportunity to rectify any alleged infirmities with its voter identification law." Accordingly, the United States has determined that it will not pursue its purpose claim at this time and respectfully moves for voluntary dismissal of that claim without prejudice. The U.S. Court of Appeals for the 5th Circuit has already ruled in the case that the voter ID law has a discriminatory effect requiring changes to the law, but DOJ has chosen not to pursue the discriminatory intent claim.

PARTNER NEWS

GHSA: National Organizations Bring State-Level Recognition to Student Traffic Safety Projects

Family, Career and Community Leaders of America (FCCLA), a Career and Technical Student Organization, is pleased to announce a nationwide partnership with Ford Driving Skills for Life (Ford DSFL) and Governors Highway Safety Association (GHSA). Funded by Ford DSFL, this partnership provides opportunity for FCCLA members to connect directly with GHSA Representatives in their state, through participation in FCCLA's Families Acting for Community Traffic Safety (FACTS) national program, a peer education curriculum piece that engages youth on personal, vehicle, and road safety. [Register today and plan your trip to Minneapolis!](#)

DIVS Executive Committee Holds Its Final Meeting

The DIVS Executive Committee gathered for its final meeting to put finishing touches on the [State-to-State Verification Service \(S2S\)](#) and confirm it would transition successfully to AAMVA along with the other verification programs DIVS developed during its 8 years of activity. The success DIVS achieved in that time is noteworthy, having reached remarkable levels of state participation in verification services such as

USPVS, VLS/SAVE and S2S. The group epitomized what it means to build systems and solutions that are state owned and driven. DIVS Chair Chrissy Nizer asked for a motion and second to officially close their final meeting, thereby concluding the DIVS program March 3. This closure did not go without special recognition for the founding DIVS states of Mississippi, Kentucky, Florida, Indiana, Nevada, Wisconsin and Maryland AND for the group's "founding fathers", Clay Johnston (MS), Steve Leak (IN), Luke McAlpin (MS), Chrissy Nizer (MD), Bernard Soriano (CA), Kristina Boardman (WI) and JoCarol Roberts (KY). AAMVA's IT team received high compliments for having delivered quality verification services in support of the DIVS's member needs. Meeting attendees closed with expressions of deep appreciation to longtime friend, colleague and IT innovator Jay Maxwell who officially retired from Clerus Solutions which managed all the DIVS projects to success over the course of its 8 years of existence.

Next Week! 2017 AAMVA Workshop and Law Institute

The 2017 AAMVA Workshop and Law Institute is just around the corner - NEXT WEEK, March 15-16! Don't miss out, register now and book your travel. The Workshop provides AAMVA members with an opportunity to network with colleagues from fellow jurisdictions across the U.S. and Canada as well as with industry organizations that provide the products and services your jurisdiction needs. [Register today and plan your trip to Minneapolis!](#)

DIVS Executive Committee Holds Its Final Meeting

<http://www.mmsend35.com/link.cfm?r=SMAapOTG-MDwjWazypJfdg~~&pe=94gR9Q1G6huHsXSwwIFYnPcwVZ6f6hzLIVlgM-6K46DAeNL3UtZzdAzsLJQEDc2NLZJtmvnbAaqLG7I-eBZMgQ~~>The DIVS Executive Committee gathered for its final meeting to put finishing touches on the [State-to-State Verification Service](#) (S2S) and confirm it would transition successfully to AAMVA along with the other verification programs DIVS developed during its 8 years of activity. The success DIVS achieved in that time is noteworthy, having reached remarkable levels of state participation in verification services such as USPVS, VLS/SAVE and S2S. The group epitomized what it means to build systems and solutions that are state owned and driven. DIVS Chair Chrissy Nizer asked for a motion and second to officially close their final meeting, thereby concluding the DIVS program March 3. This closure did not go without special recognition for the founding DIVS states of Mississippi, Kentucky, Florida, Indiana, Nevada, Wisconsin and Maryland AND for the group's "founding fathers", Clay Johnston (MS), Steve Leak (IN), Luke McAlpin (MS), Chrissy Nizer (MD), Bernard Soriano (CA), Kristina Boardman (WI) and JoCarol Roberts (KY). AAMVA's IT team received high compliments for having delivered quality verification services in support of the DIVS's member needs. Meeting attendees closed with expressions of deep appreciation to longtime friend, colleague and IT innovator Jay Maxwell who officially retired from Clerus Solutions which managed all the DIVS projects to success over the course of its 8 years of existence.

AAMVA is Now Accepting Applications for Regional Director of Member Support

Sheila Prior, Regional Director for Regions III and IV, has announced her plans to retire at the end of May. To that end, AAMVA has posted her vacancy announcement in the Career Center on AAMVA.org. Visit the [Career Center](#) on AAMVA.org to view this and other vacancies AAMVA is currently trying to fill.

This Week's Webinars

[How to Fill Out and Send the NMVTIS Change Request Data Form to AAMVA Help Desk](#)

Tuesday, March 7, 2017, 2:00 - 3:00 pm (ET)

This webinar will focus on how to accurately fill out and send the NMVTIS change request data form to AAMVA Help Desk. The webinar includes: When to use the change request data form, Instructions on how to fill out the change request data form, How to send the form to AAMVA Help Desk, How to send corrections to the form to AAMVA Help Desk when needed, and Understand how to request different types of changes to the NMVTIS data using change request data form.

[Ohio Department of Public Safety Launches My Safer Ohio Business](#)

The Ohio Department of Public Safety (ODPS) launched the [My Safer Ohio Business](#) clearinghouse as a way to make it easier for businesses, law enforcement and public safety organizations to connect with the purpose of building a stronger, more prepared and safer Ohio. The [My Safer Ohio Business](#) clearinghouse provides businesses simple access to a wide variety of resources, safety tools, and information in order to aid in their development of emergency plans, training, communication and collaboration. Programs such as the Ohio Public Private Partnership, Emergency Partner Credentialing System as well as a wide variety of templates are now available for all businesses in one central location.

http://images.magnetmail.net/images/clients/AAMVA/twir_root/TWIRFederalNewsBannerNew.jpg

[DOJ Drops Challenge to Voter ID Law](#)

The United States Justice Department (DOJ) has determined that, rather than continuing to litigate the discriminatory purpose claim in its ongoing litigation regarding the Texas voter ID law, DOJ "should give full effect to the Fifth Circuit's directives by withdrawing that claim and allowing the Texas Legislature the opportunity to rectify any alleged infirmities with its voter identification law."

Accordingly, the United States has determined that it will not pursue its purpose claim at this time and respectfully moves for voluntary dismissal of that claim without prejudice. The U.S. Court of Appeals for the 5th Circuit has already ruled in the case that the voter ID law has a discriminatory effect requiring changes to the law, but DOJ has chosen not to pursue the discriminatory intent claim.

[GHSA: National Organizations Bring State-Level Recognition to Student Traffic Safety Projects](#)

Family, Career and Community Leaders of America (FCCLA), a Career and Technical Student Organization, is pleased to announce a nationwide partnership with Ford Driving Skills for Life (Ford DSFL) and Governors Highway Safety Association (GHSA). Funded by Ford DSFL, this partnership provides opportunity for FCCLA members to connect directly with GHSA Representatives in their state, through participation in FCCLA's Families Acting for Community Traffic Safety (FACTS) national program, a peer education curriculum piece that engages youth on personal, vehicle, and road safety. [Read more here.](#)

[ITS World Congress 2017](#)

TRB is co-sponsoring the ITS World Congress on October 29-November 2, 2017 in Montréal, Québec, Canada. Topics include autonomy and connectivity, artificial intelligence, infrastructure developments, cloud technologies, data, privacy, cyber issues, traffic management, smart city deployment efforts, and more. [Read more here.](#)

[The Health Effects of Cannabis and Cannabinoids](#)

The National Academies of Sciences, Engineering, and Medicine has released a report that provides a comprehensive review of scientific evidence related to the health effects and potential therapeutic

benefits of cannabis. This report provides a research agenda—outlining gaps in current knowledge and opportunities for providing additional insight into these issues—that summarizes and prioritizes pressing research needs. [Read more here.](#)

Ohio Department of Public Safety Launches My Safer Ohio Business

The Ohio Department of Public Safety (ODPS) launched the [My Safer Ohio Business](#) clearinghouse as a way to make it easier for businesses, law enforcement and public safety organizations to connect with the purpose of building a stronger, more prepared and safer Ohio. The [My Safer Ohio Business](#) clearinghouse provides businesses simple access to a wide variety of resources, safety tools, and information in order to aid in their development of emergency plans, training, communication and collaboration. Programs such as the Ohio Public Private Partnership, Emergency Partner Credentialing System as well as a wide variety of templates are now available for all businesses in one central location.

FEDERAL NEWS

DOJ Drops Challenge to Voter ID Law

The United States Justice Department (DOJ) has determined that, rather than continuing to litigate the discriminatory purpose claim in its ongoing litigation regarding the Texas voter ID law, DOJ "should give full effect to the Fifth Circuit's directives by withdrawing that claim and allowing the Texas Legislature the opportunity to rectify any alleged infirmities with its voter identification law." Accordingly, the United States has determined that it will not pursue its purpose claim at this time and respectfully moves for voluntary dismissal of that claim without prejudice. The U.S. Court of Appeals for the 5th Circuit has already ruled in the case that the voter ID law has a discriminatory effect requiring changes to the law, but DOJ has chosen not to pursue the discriminatory intent claim.

PARTNER NEWS

GHSA: National Organizations Bring State-Level Recognition to Student Traffic Safety Projects

Family, Career and Community Leaders of America (FCCLA), a Career and Technical Student Organization, is pleased to announce a nationwide partnership with Ford Driving Skills for Life (Ford DSFL) and Governors Highway Safety Association (GHSA). Funded by Ford DSFL, this partnership provides opportunity for FCCLA members to connect directly with GHSA Representatives in their state, through participation in FCCLA's Families Acting for Community Traffic Safety (FACTS) national program, a peer education curriculum piece that engages youth on personal, vehicle, and road safety. [Register today and plan your trip to Minneapolis!](#)

DIVS Executive Committee Holds Its Final Meeting

The DIVS Executive Committee gathered for its final meeting to put finishing touches on the [State-to-State Verification Service \(S2S\)](#) and confirm it would transition successfully to AAMVA along with the other verification programs DIVS developed during its 8 years of activity. The success DIVS achieved in that time is noteworthy, having reached remarkable levels of state participation in verification services such as

USPVS, VLS/SAVE and S2S. The group epitomized what it means to build systems and solutions that are state owned and driven. DIVS Chair Chrissy Nizer asked for a motion and second to officially close their final meeting, thereby concluding the DIVS program March 3. This closure did not go without special recognition for the founding DIVS states of Mississippi, Kentucky, Florida, Indiana, Nevada, Wisconsin and Maryland AND for the group's "founding fathers", Clay Johnston (MS), Steve Leak (IN), Luke McAlpin (MS), Chrissy Nizer (MD), Bernard Soriano (CA), Kristina Boardman (WI) and JoCarol Roberts (KY). AAMVA's IT team received high compliments for having delivered quality verification services in support of the DIVS's member needs. Meeting attendees closed with expressions of deep appreciation to longtime friend, colleague and IT innovator Jay Maxwell who officially retired from Clerus Solutions which managed all the DIVS projects to success over the course of its 8 years of existence.

FEDERAL NEWS

DOJ Drops Challenge to Voter ID Law

The United States Justice Department (DOJ) has determined that, rather than continuing to litigate the discriminatory purpose claim in its ongoing litigation regarding the Texas voter ID law, DOJ "should give full effect to the Fifth Circuit's directives by withdrawing that claim and allowing the Texas Legislature the opportunity to rectify any alleged infirmities with its voter identification law." Accordingly, the United States has determined that it will not pursue its purpose claim at this time and respectfully moves for voluntary dismissal of that claim without prejudice. The U.S. Court of Appeals for the 5th Circuit has already ruled in the case that the voter ID law has a discriminatory effect requiring changes to the law, but DOJ has chosen not to pursue the discriminatory intent claim.

PARTNER NEWS

GHSA: National Organizations Bring State-Level Recognition to Student Traffic Safety Projects

Family, Career and Community Leaders of America (FCCLA), a Career and Technical Student Organization, is pleased to announce a nationwide partnership with Ford Driving Skills for Life (Ford DSFL) and Governors Highway Safety Association (GHSA). Funded by Ford DSFL, this partnership provides opportunity for FCCLA members to connect directly with GHSA Representatives in their state, through participation in FCCLA's Families Acting for Community Traffic Safety (FACTS) national program, a peer education curriculum piece that engages youth on personal, vehicle, and road safety. [Register today and plan your trip to Minneapolis!](#)

DIVS Executive Committee Holds Its Final Meeting

The DIVS Executive Committee gathered for its final meeting to put finishing touches on the [State-to-State Verification Service \(S2S\)](#) and confirm it would transition successfully to AAMVA along with the other verification programs DIVS developed during its 8 years of activity. The success DIVS achieved in that time is noteworthy, having reached remarkable levels of state participation in verification services such as

USPVS, VLS/SAVE and S2S. The group epitomized what it means to build systems and solutions that are state owned and driven. DIVS Chair Chrissy Nizer asked for a motion and second to officially close their final meeting, thereby concluding the DIVS program March 3. This closure did not go without special recognition for the founding DIVS states of Mississippi, Kentucky, Florida, Indiana, Nevada, Wisconsin and Maryland AND for the group's "founding fathers", Clay Johnston (MS), Steve Leak (IN), Luke McAlpin (MS), Chrissy Nizer (MD), Bernard Soriano (CA), Kristina Boardman (WI) and JoCarol Roberts (KY). AAMVA's IT team received high compliments for having delivered quality verification services in support of the DIVS's member needs. Meeting attendees closed with expressions of deep appreciation to longtime friend, colleague and IT innovator Jay Maxwell who officially retired from Clerus Solutions which managed all the DIVS projects to success over the course of its 8 years of existence.

GHSA: National Organizations Bring State-Level Recognition to Student Traffic Safety Projects

Family, Career and Community Leaders of America (FCCLA), a Career and Technical Student Organization, is pleased to announce a nationwide partnership with Ford Driving Skills for Life (Ford DSFL) and Governors Highway Safety Association (GHSA). Funded by Ford DSFL, this partnership provides opportunity for FCCLA members to connect directly with GHSA Representatives in their state, through participation in FCCLA's Families Acting for Community Traffic Safety (FACTS) national program, a peer education curriculum piece that engages youth on personal, vehicle, and road safety. [Register today and plan your trip to Minneapolis!](#)

DIVS Executive Committee Holds Its Final Meeting

The DIVS Executive Committee gathered for its final meeting to put finishing touches on the [State-to-State Verification Service \(S2S\)](#) and confirm it would transition successfully to AAMVA along with the other verification programs DIVS developed during its 8 years of activity. The success DIVS achieved in that time is noteworthy, having reached remarkable levels of state participation in verification services such as

USPVS, VLS/SAVE and S2S. The group epitomized what it means to build systems and solutions that are state owned and driven. DIVS Chair Chrissy Nizer asked for a motion and second to officially close their final meeting, thereby concluding the DIVS program March 3. This closure did not go without special recognition for the founding DIVS states of Mississippi, Kentucky, Florida, Indiana, Nevada, Wisconsin and Maryland AND for the group's "founding fathers", Clay Johnston (MS), Steve Leak (IN), Luke McAlpin (MS), Chrissy Nizer (MD), Bernard Soriano (CA), Kristina Boardman (WI) and JoCarol Roberts (KY). AAMVA's IT team received high compliments for having delivered quality verification services in support of the DIVS's member needs. Meeting attendees closed with expressions of deep appreciation to longtime friend, colleague and IT innovator Jay Maxwell who officially retired from Clerus Solutions which managed all the DIVS projects to success over the course of its 8 years of existence.

Ohio Department of Public Safety Launches My Safer Ohio Business

The Ohio Department of Public Safety (ODPS) launched the [My Safer Ohio Business](#) clearinghouse as a way to make it easier for businesses, law enforcement and public safety organizations to connect with the purpose of building a stronger, more prepared and safer Ohio. The [My Safer Ohio Business](#) clearinghouse provides businesses simple access to a wide variety of resources, safety tools, and information in order to aid in their development of emergency plans, training, communication and collaboration. Programs such as the Ohio Public Private Partnership, Emergency Partner Credentialing System as well as a wide variety of templates are now available for all businesses in one central location.

FEDERAL NEWS

DOJ Drops Challenge to Voter ID Law

The United States Justice Department (DOJ) has determined that, rather than continuing to litigate the discriminatory purpose claim in its ongoing litigation regarding the Texas voter ID law, DOJ "should give full effect to the Fifth Circuit's directives by withdrawing that claim and allowing the Texas Legislature the opportunity to rectify any alleged infirmities with its voter identification law." Accordingly, the United States has determined that it will not pursue its purpose claim at this time and respectfully moves for voluntary dismissal of that claim without prejudice. The U.S. Court of Appeals for the 5th Circuit has already ruled in the case that the voter ID law has a discriminatory effect requiring changes to the law, but DOJ has chosen not to pursue the discriminatory intent claim.

Next Week! 2017 AAMVA Workshop and Law Institute

The 2017 AAMVA Workshop and Law Institute is just around the corner - NEXT WEEK, March 15-16! Don't miss out, register now and book your travel. The Workshop provides AAMVA members with an opportunity to network with colleagues from fellow jurisdictions across the U.S. and Canada as well as with industry organizations that provide the products and services your jurisdiction needs. [Register today and plan your trip to Minneapolis!](#)

DIVS Executive Committee Holds Its Final Meeting

The DIVS Executive Committee gathered for its final meeting to put finishing touches on the [State-to-State Verification Service \(S2S\)](#) and confirm it would transition successfully to AAMVA along with the other verification programs DIVS developed during its 8 years of activity. The success DIVS achieved in that time is noteworthy, having reached remarkable levels of state participation in verification services such as

USPVS, VLS/SAVE and S2S. The group epitomized what it means to build systems and solutions that are state owned and driven. DIVS Chair Chrissy Nizer asked for a motion and second to officially close their final meeting, thereby concluding the DIVS program March 3. This closure did not go without special recognition for the founding DIVS states of Mississippi, Kentucky, Florida, Indiana, Nevada, Wisconsin and Maryland AND for the group's "founding fathers", Clay Johnston (MS), Steve Leak (IN), Luke McAlpin (MS), Chrissy Nizer (MD), Bernard Soriano (CA), Kristina Boardman (WI) and JoCarol Roberts (KY). AAMVA's IT team received high compliments for having delivered quality verification services in support of the DIVS's member needs. Meeting attendees closed with expressions of deep appreciation to longtime friend, colleague and IT innovator Jay Maxwell who officially retired from Clerus Solutions which managed all the DIVS projects to success over the course of its 8 years of existence.

[How to Fill Out and Send the NMVTIS Change Request Data Form to AAMVA Help Desk](#)

Tuesday, March 7, 2017, 2:00 - 3:00 pm (ET)

This webinar will focus on how to accurately fill out and send the NMVTIS change request data form to AAMVA Help Desk. The webinar includes: When to use the change request data form, Instructions on how to fill out the change request data form, How to send the form to AAMVA Help Desk, How to send corrections to the form to AAMVA Help Desk when needed, and Understand how to request different types of changes to the NMVTIS data using change request data form.

JURISDICTION NEWS

Ohio Department of Public Safety Launches My Safer Ohio Business

The Ohio Department of Public Safety (ODPS) launched the [My Safer Ohio Business](#) clearinghouse as a way to make it easier for businesses, law enforcement and public safety organizations to connect with the purpose of building a stronger, more prepared and safer Ohio. The [My Safer Ohio Business](#) clearinghouse provides businesses simple access to a wide variety of resources, safety tools, and information in order to aid in their development of emergency plans, training, communication and collaboration. Programs such as the Ohio Public Private Partnership, Emergency Partner Credentialing System as well as a wide variety of templates are now available for all businesses in one central location.

FEDERAL NEWS

DOJ Drops Challenge to Voter ID Law

The United States Justice Department (DOJ) has determined that, rather than continuing to litigate the discriminatory purpose claim in its ongoing litigation regarding the Texas voter ID law, DOJ "should give full effect to the Fifth Circuit's directives by withdrawing that claim and allowing the Texas Legislature the opportunity to rectify any alleged infirmities with its voter identification law." Accordingly, the United States has determined that it will not pursue its purpose claim at this time and respectfully moves for voluntary dismissal of that claim without prejudice. The U.S. Court of Appeals for the 5th Circuit has already ruled in the case that the voter ID law has a discriminatory effect requiring changes to the law, but DOJ has chosen not to pursue the discriminatory intent claim.

PARTNER NEWS

GHSA: National Organizations Bring State-Level Recognition to Student Traffic Safety Projects

Family, Career and Community Leaders of America (FCCLA), a Career and Technical Student Organization, is pleased to announce a nationwide partnership with Ford Driving Skills for Life (Ford DSFL) and Governors Highway Safety Association (GHSA). Funded by Ford DSFL, this partnership provides opportunity for FCCLA members to connect directly with GHSA Representatives in their state, through participation in FCCLA's Families Acting for Community Traffic Safety (FACTS) national program, a peer education curriculum piece that engages youth on personal, vehicle, and road safety. Next Week! 2017 AAMVA Workshop and Law Institute

The 2017 AAMVA Workshop and Law Institute is just around the corner - NEXT WEEK, March 15-16! Don't miss out, register now and book your travel. The Workshop provides AAMVA members with an opportunity to network with colleagues from fellow jurisdictions across the U.S. and Canada as well as with industry organizations that provide the products and services your jurisdiction needs. [Register today and plan your trip to Minneapolis!](#)

DIVS Executive Committee Holds Its Final Meeting

The DIVS Executive Committee gathered for its final meeting to put finishing touches on the [State-to-State Verification Service \(S2S\)](#) and confirm it would transition successfully to AAMVA along with the other verification programs DIVS developed during its 8 years of activity. The success DIVS achieved in that time is noteworthy, having reached remarkable levels of state participation in verification services such as

USPVS, VLS/SAVE and S2S. The group epitomized what it means to build systems and solutions that are state owned and driven. DIVS Chair Chrissy Nizer asked for a motion and second to officially close their final meeting, thereby concluding the DIVS program March 3. This closure did not go without special recognition for the founding DIVS states of Mississippi, Kentucky, Florida, Indiana, Nevada, Wisconsin and Maryland AND for the group's "founding fathers", Clay Johnston (MS), Steve Leak (IN), Luke McAlpin (MS), Chrissy Nizer (MD), Bernard Soriano (CA), Kristina Boardman (WI) and JoCarol Roberts (KY). AAMVA's IT team received high compliments for having delivered quality verification services in support of the DIVS's member needs. Meeting attendees closed with expressions of deep appreciation to longtime friend, colleague and IT innovator Jay Maxwell who officially retired from Clerus Solutions which managed all the DIVS projects to success over the course of its 8 years of existence.

[How to Fill Out and Send the NMVTIS Change Request Data Form to AAMVA Help Desk](#)

Tuesday, March 7, 2017, 2:00 - 3:00 pm (ET)

This webinar will focus on how to accurately fill out and send the NMVTIS change request data form to AAMVA Help Desk. The webinar includes: When to use the change request data form, Instructions on how to fill out the change request data form, How to send the form to AAMVA Help Desk, How to send corrections to the form to AAMVA Help Desk when needed, and Understand how to request different types of changes to the NMVTIS data using change request data form.

JURISDICTION NEWS

Ohio Department of Public Safety Launches My Safer Ohio Business

The Ohio Department of Public Safety (ODPS) launched the [My Safer Ohio Business](#) clearinghouse as a way to make it easier for businesses, law enforcement and public safety organizations to connect with the purpose of building a stronger, more prepared and safer Ohio. The [My Safer Ohio Business](#) clearinghouse provides businesses simple access to a wide variety of resources, safety tools, and information in order to aid in their development of emergency plans, training, communication and collaboration. Programs such as the Ohio Public Private Partnership, Emergency Partner Credentialing System as well as a wide variety of templates are now available for all businesses in one central location.

FEDERAL NEWS

DOJ Drops Challenge to Voter ID Law

The United States Justice Department (DOJ) has determined that, rather than continuing to litigate the discriminatory purpose claim in its ongoing litigation regarding the Texas voter ID law, DOJ "should give full effect to the Fifth Circuit's directives by withdrawing that claim and allowing the Texas Legislature the opportunity to rectify any alleged infirmities with its voter identification law." Accordingly, the United States has determined that it will not pursue its purpose claim at this time and respectfully moves for voluntary dismissal of that claim without prejudice. The U.S. Court of Appeals for the 5th Circuit has already ruled in the case that the voter ID law has a discriminatory effect requiring changes to the law, but DOJ has chosen not to pursue the discriminatory intent claim.

PARTNER NEWS

GHSA: National Organizations Bring State-Level Recognition to Student Traffic Safety Projects

Family, Career and Community Leaders of America (FCCLA), a Career and Technical Student Organization, is pleased to announce a nationwide partnership with Ford Driving Skills for Life (Ford DSFL) and Governors Highway Safety Association (GHSA). Funded by Ford DSFL, this partnership provides opportunity for FCCLA members to connect directly with GHSA Representatives in their state, through participation in FCCLA's Families Acting for Community Traffic Safety (FACTS) national program, a peer education curriculum piece that engages youth on personal, vehicle, and road safety. DIVS Executive Committee Holds Its Final Meeting

<http://www.mmsend35.com/link.cfm?r=5a5YKcIK6FAyE7iH3gTiWg~~&pe=94gR9Q1G6huHsXSwwIFYnPcwVZ6f6hzLIVlgM-6K46DAeNL3UtZzdAzsLJQEDc2NLZJtmvnbAaqLG7I-eBZMgQ~~>The DIVS Executive Committee gathered for its final meeting to put finishing touches on the [State-to-State Verification Service](#) (S2S) and confirm it would transition successfully to AAMVA along with the other verification programs DIVS developed during its 8 years of activity. The success DIVS achieved in that time is noteworthy, having reached remarkable levels of state participation in verification services such as USPVS, VLS/SAVE and S2S. The group epitomized what it means to build systems and solutions that are state owned and driven. DIVS Chair Chrissy Nizer asked for a motion and second to officially close their final meeting, thereby concluding the DIVS program March 3. This closure did not go without special recognition for the founding DIVS states of Mississippi, Kentucky, Florida, Indiana, Nevada, Wisconsin and Maryland AND for the group's "founding fathers", Clay Johnston (MS), Steve Leak (IN), Luke McAlpin (MS), Chrissy Nizer (MD), Bernard Soriano (CA), Kristina Boardman (WI) and JoCarol Roberts (KY). AAMVA's IT team received high compliments for having delivered quality verification services in support of the DIVS's member needs. Meeting attendees closed with expressions of deep appreciation to longtime friend, colleague and IT innovator Jay Maxwell who officially retired from Clerus Solutions which managed all the DIVS projects to success over the course of its 8 years of existence.

AAMVA is Now Accepting Applications for Regional Director of Member Support

Sheila Prior, Regional Director for Regions III and IV, has announced her plans to retire at the end of May. To that end, AAMVA has posted her vacancy announcement in the Career Center on AAMVA.org. Visit the [Career Center](#) on AAMVA.org to view this and other vacancies AAMVA is currently trying to fill.

This Week's Webinars

How to Fill Out and Send the NMVTIS Change Request Data Form to AAMVA Help Desk

Tuesday, March 7, 2017, 2:00 - 3:00 pm (ET)

This webinar will focus on how to accurately fill out and send the NMVTIS change request data form to AAMVA Help Desk. The webinar includes: When to use the change request data form, Instructions on how to fill out the change request data form, How to send the form to AAMVA Help Desk, How to

send corrections to the form to AAMVA Help Desk when needed, and Understand how to request different types of changes to the NMVTIS data using change request data form.

Ohio Department of Public Safety Launches My Safer Ohio Business

The Ohio Department of Public Safety (ODPS) launched the [My Safer Ohio Business](#) clearinghouse as a way to make it easier for businesses, law enforcement and public safety organizations to connect with the purpose of building a stronger, more prepared and safer Ohio. The [My Safer Ohio Business](#) clearinghouse provides businesses simple access to a wide variety of resources, safety tools, and information in order to aid in their development of emergency plans, training, communication and collaboration. Programs such as the Ohio Public Private Partnership, Emergency Partner Credentialing System as well as a wide variety of templates are now available for all businesses in one central location.

DOJ Drops Challenge to Voter ID Law

The United States Justice Department (DOJ) has determined that, rather than continuing to litigate the discriminatory purpose claim in its ongoing litigation regarding the Texas voter ID law, DOJ "should give full effect to the Fifth Circuit's directives by withdrawing that claim and allowing the Texas Legislature the opportunity to rectify any alleged infirmities with its voter identification law."

Accordingly, the United States has determined that it will not pursue its purpose claim at this time and respectfully moves for voluntary dismissal of that claim without prejudice. The U.S. Court of Appeals for the 5th Circuit has already ruled in the case that the voter ID law has a discriminatory effect requiring changes to the law, but DOJ has chosen not to pursue the discriminatory intent claim.

Subject: RE: UNI Call list samples
Attachments: SPEXS Jurisdiction Casual Test Plan- AI.docx

Good afternoon,

Thank you for working on this. We still do need samples – I've been speaking to my contractors, and specifically they are needing samples of the HA and HW messages in SPEXS. So the sooner you can send us that, the better.

FYI, with a few exceptions (like these messages) we are nearly ready to start planning our casual tests for SPEXS and PDPS. We are going to start with SPEXS as it is the closest to ready. There was a casual test plan sent to them last summer (attached). Is this the same plan that they will use? We will also need to talk about SSOLV structured testing and what is involved. It's been 10 years since I did that!!

We are tentatively thinking about beginning casual testing in 2 weeks. If the plan will be different, please forward me the new plan.

Will you also be the contact for PDPS testing, or will someone else be doing that? That is probably more like 3-4 weeks before we can talk casual testing – however, it would help to have the plan.

Thank you for all you do ☺

Subject: RE: UNI Call list samples

Hi Siri,

If you can provide the responses, that would be helpful, but I think the most important part are the initiated transactions. They can then initiate their own transactions from AI and then get "live" responses from AK.

Hi Siri,

In looking at this, it appears this pulls data from our database. What we are looking for is examples from AAMVA, not a way to pull our own data. Our contractors are looking for some good samples to ensure they are formatting our call list correctly.

Hi Mina,

Attached is the query that can be used to extract messages in PLCL format from the UNI database.

Please note, the user needs to modify the where clause parameters accordingly (the example shows that Application 12 and message type IO originated from gap code AA).

Please let us know of any questions.

Thank you,
Siri.

Good morning! Sorry, you want sample messages in the Call list format?

Please let me know.

Thank you.

Subject: UNI Call list samples

Good morning,

Our contractor has asked if we can provide them with call list samples. They seem to think it's something AAMVA can provide. Is it? I don't entirely understand what it is they want from us. Please let me know if I need to ask someone else – I just figured I'd start with you.

Thank you!

NMVTIS planning meeting

The purpose of this meeting is to discuss and plan for upcoming casual and structured testing for NMVTIS in our .Net environment. If anyone else needs to be added to the meeting, please feel free to forward this invitation.

AAMVA: We are currently using the pseudo-code "AI", so please create your tests and pseudo states to be able to interact with this pseudo code. We should be ready to begin casual testing by the time of this meeting, so if at all possible, please create and send the casual test to everyone listed on this meeting beforehand. If you have any specific questions about what to include or not include, please let us know.

STATE-TO-STATE VERIFICATION SERVICE AGREEMENT

THIS STATE-TO-STATE VERIFICATION SERVICE AGREEMENT ("Agreement") is made as of March 1, 2017 ("Effective Date") between the undersigned driver licensing agency of the State of Alaska ("DLA"), pursuant to AS 28.05.021 and the AMERICAN ASSOCIATION OF MOTOR VEHICLE ADMINISTRATORS, a District of Columbia nonprofit corporation (AAMVA). The DLA and AAMVA are individually referred to in this Agreement as a "Party" and collectively as the "Parties".

BACKGROUND

- A. AAMVA has developed and operates the State to State Verification Service ("S2S"). S2S enables jurisdictions participating in the S2S program ("Participating Jurisdictions") to help determine whether an applicant for a driver license or identification card holds a driver license or identification card issued by another Participating Jurisdiction.
- B. DLA desires to participate in the S2S program in accordance with the terms and conditions set forth in this Agreement.

AGREEMENTS

IN CONSIDERATION of the mutual promises made in this Agreement, the parties agree as follows:

- 1. Primary S2S Responsibilities.
 - a. Subject to the terms and conditions of this Agreement, AAMVA agrees to provide DLA with online driver license and identification card (DL/ID) issuance verification services using S2S.
 - b. DLA agrees to carry out its obligations under this Agreement and to comply with the current Enforcement of S2S Compliance document as amended by the S2S Governance Committee from time to time.
- 2. Onboarding.
 - a. DLA agrees to develop and maintain a coded interface to S2S that is compliant with the current version of the S2S Specifications. AAMVA agrees to provide reasonable assistance to DLA in order to facilitate interfacing with S2S. DLA agrees to consult with AAMVA prior to making any modifications to the coded interface during the term of this Agreement.

- b. Testing with AAMVA is limited to transactions between DLA and S2S. AAMVA shall have no responsibility for testing the DLA's graphical user interface (GUI) through which it will access S2S.
 - c. DLA agrees that it will not access S2S until AAMVA has completed, to its satisfaction, structured tests of DLA's application (including testing of the initial load process) and has issued written authorization for DLA to access S2S.
- 3. Fees. DLA agrees to pay for use of S2S on the basis of DLA's actual utilization of S2S in accordance with the charges set forth in the current AAMVA's Products & Services Government Rate Schedule (available on AAMVA website at <http://www.aamva.org/Network-Services/>). All charges for DLA's use of S2S are subject to change upon at least twelve (12) months written notice from AAMVA to DLA.
- 4. Data Use, Privacy and Security.
 - a. AAMVA
 - i. AAMVA agrees to institute the controls as detailed in the S2S System Security and Privacy Plans, copies of which are available on request. The System Security and Privacy Plans are subject to modification by AAMVA. Controls include, but are not limited to, the following privacy and security tenets of the Plan:
 - 1. Access and Authorization
 - 2. Contingency Planning
 - 3. Data and Communication Protections
 - 4. Security Event Monitoring
 - ii. AAMVA agrees to implement the administrative, technical and physical safeguards created to protect and ensure the proper handling of Personally Identifiable Information ("PII"). AAMVA will not disclose, reuse or sell the S2S data per the privacy protections described in the S2S Privacy Impact Assessment (available on AAMVA website at <http://www.aamva.org/State-to-State>) and the S2S System Security and Privacy Plans.
 - b. DLA
 - i. DLA's use of any data furnished by a Participating Jurisdiction is strictly limited to the uses permitted under this Agreement. DLA agrees to limit the use of and access to S2S information and the records created by the data exchange under this Agreement to the purpose of administering their driver's license and/or identification card programs, including investigations of DL/ID related fraud. No other state or local governmental agency or other organization or person shall have access to S2S, or information obtained by DLA from S2S, without prior

written authorization by AAMVA.

- ii. DLA agrees to adopt policies and procedures to ensure that data exchanged under this Agreement is used in accordance with the terms and conditions of this Agreement and any applicable laws including AS 28.10.505(d)(1).
 - iii. DLA acknowledges and agrees that all right, title and interest in data provided by any jurisdiction is owned by the jurisdiction supplying that data. DLA further acknowledges that if a driver associated with a pointer owned by the DLA moves to a new jurisdiction, that jurisdiction automatically shall assume all right, title and interest in the pointer data associated with that driver, as well the driver history data that was received as part of the change of state record transaction.
 - iv. DLA agrees to provide data within S2S according to the same quality and timeliness that applies to data provided within the Commercial Driver's License Information System ("CDLIS"). DLA further acknowledges and agrees that its implementation and use of S2S shall have no impact on the operational and legal requirements established from time to time for state participation in CDLIS.
- c. DLA acknowledges that a positive ("match") verification only establishes that the data it submitted matches the data contained within the S2S pointer service, subject to the tolerances established in the S2S matching routines. The jurisdiction receiving S2S data is then responsible, among other things, for:
- i. authenticating the identity of the applicant
 - ii. determining if the information received pertains to the applicant
 - iii. determining whether or not to issue a driver's license or identification card
- d. DLA agrees to limit the storage of data received from Participating Jurisdictions through S2S, as follows:
- i. If DLA determines that the information received does not pertain to the person applying for a driver's license or identification card, DLA may retain only the minimum information that is needed for its governmental business purposes and agrees to securely destroy the remaining information it received from the other state.
 - ii. If DLA determines that the information received does pertain to the person applying for a driver's license or identification card and for any reason decides not to issue a driver's license or identification card, DLA agrees to retain only the minimum information needed for its governmental business purposes and agrees to securely destroy the remaining information it received from the other state.

- iii. If DLA determines that the information received pertains to the person applying for a driver's license or identification card, and decides to issue a driver's license or identification card, DLA may add some or all of the received driver history to the person's driver record in the receiving state.
- e. DLA agrees to restrict access to the information obtained from S2S, through DLA's systems or directly through the S2S web user interface, to only those authorized State employees, State agents, State representatives or State contractors who need it to perform their official duties in connection with the intended uses of the information authorized in this Agreement. DLA will restrict access to S2S information by taking actions including, but not limited to:
 - i. Immediately disabling accounts upon resignation/termination, or when access is no longer needed;
 - ii. Conducting a review of access accounts at least every 120 days to ensure that any obsolete accounts are disabled; and
 - iii. Monitoring use of accounts having access to S2S information.
- f. DLA agrees to audit user access to the systems and network infrastructure connecting to S2S, processing S2S information or storing S2S information.
- g. DLA agrees to prevent, detect and deter unauthorized access to its driver files, or to the systems and network infrastructure connecting to S2S, processing S2S information, or storing S2S information.
- h. DLA agrees to notify AAMVA within 1 calendar day following any confirmed incidents of data breach.
- i. DLA agrees to establish and enforce penalties for misuse of S2S data within its state.
- j. DLA acknowledges and agrees that when it sends data to another state, the receiving state may choose to retain all or parts of the data and the protection of the retained data is governed by the receiving state's data retention and disclosure rules.
- k. DLA agrees to use the AAMVA Best Practices for the Deterrence and Detection of Fraud (March 2015) (available on AAMVA website at <http://www.aamva.org/Best-Practices/>) as a guideline for state policy and procedures for safeguarding information provided under this Agreement.
- l. DLA agrees to provide notice to the applicants that the PII collected for the purpose of issuing a Driver License or ID card may be verified against nationwide systems for accuracy.
- m. DLA agrees to comply with the requirements and procedures set forth in the current Enforcement of S2S Compliance document as amended by the S2S Governance Committee from time to time.

5. Term, Termination and Suspension of Service.

- a. The term of this Agreement shall begin on the Effective Date and, unless sooner terminated in accordance with this Agreement, shall remain in effect.
 - b. Either AAMVA or DLA may terminate this Agreement upon 90 days' prior written notice to the other. Such termination will be effective 90 days from the date of the notice or at a later date specified in the notice.
 - c. AAMVA may immediately temporarily suspend DLA's access to S2S under this Agreement if it determines that DLA has: (1) incurred an unauthorized use of S2S, (2) violated or failed to comply with the terms of this Agreement or (3) if suspension is required to protect the integrity of S2S.
 - d. As of the effective date of termination of this Agreement or the suspension of access to S2S, DLA shall no longer have visibility or access to S2S data or functionality. S2S data provided by DLA prior to termination or suspension of service shall be removed from the system as a part of the termination process.
 - e. The parties acknowledge that DLA's participation in S2S requires significant modification of DLA's information technology systems and that the termination of DLA's participation in S2S may require significant programming and administrative transitions. In the event of termination of DLA's participation in S2S as provided above, the parties agree to cooperate in good faith to accomplish the programming, administrative and other aspects of the required transition in a manner that promotes the effective administration of state driver licensing and the Commercial Driver License (CDL) and other federal and state governmental programs. DLA acknowledges that it shall have exclusive responsibility for its expenses associated with the termination of its participation in S2S.
6. No Warranties. The State to State Verification Services provided under this Agreement are provided "as is." Except as expressly provided in this Agreement, AAMVA makes no warranties, express or implied, including, but not limited to, those of merchantability or fitness for a particular purpose or any other warranty arising by statute or from a course of dealing or usage of trade. Without limiting the foregoing, AAMVA makes no warranty of any kind that S2S will meet DLA's requirements, operate without interruption, achieve any intended result, be compatible or work with any other services, technologies, information or be error free. Use of information obtained through S2S is at DLA's own risk. AAMVA specifically disclaims any liability or responsibility for the accuracy or quality of data provided by Participating Jurisdictions, or for loss of data resulting from delays, nondeliveries, misdeliveries, or service interruptions, however caused. No oral or written information or advice given by AAMVA shall create a warranty, or in any way increase the scope of AAMVA's obligations to DLA under this Agreement.

7. Limitation of Liability.

- a. Unless expressly contrary to law of the state of the DLA, AAMVA shall have no liability for any consequential, incidental, exemplary, indirect damages, loss, or expenses of any similar kind even if AAMVA has been advised of the possibility of such damages, losses, or expenses. In no event shall AAMVA be liable for any damages caused by DLA's direct failure to carry out its obligations under this Agreement. AAMVA's aggregate liability to DLA under this Agreement, whether arising out of or related to breach of contract, tort (including negligence) or otherwise shall in no event exceed the total amount of fees paid by DLA to AAMVA pursuant to this Agreement in the twelve month period preceding the event giving rise to the claim.
- b. Excluded from the foregoing liability limitations are claims related to fraud, bad faith, infringement issues, bodily injury, death and physical damage to tangible personal or real property.

8. Miscellaneous.

- a. **Headings and Captions.** Headings and captions are inserted for reference and convenience only, and are not a part of and shall not affect the meaning or interpretation of this Agreement.
- b. **Force Majeure.** In no event will AAMVA be liable or responsible to DLA or be deemed to have defaulted under or breached this Agreement, for any failure or delay in fulfilling or performing any term of this Agreement when and to the extent such failure or delay is caused by any circumstances beyond AAMVA's reasonable control.
- c. **Notices.** All notices and communications relating to this Agreement, shall be in writing and shall be sent by certified mail, return receipt requested, or delivered personally or by email to the respective address set forth below, or to such other address(es) as either party shall designate by written notice.

To AAMVA:

- d. **Assignment.** Neither Party may assign or transfer this Agreement without the prior written consent of the other Party.
- e. **Severability.** A determination that any provision of this Agreement is invalid or unenforceable will not affect the validity or enforceability of any other part of this Agreement. Similarly, a determination that any provision is invalid or unenforceable in one application will not affect the validity or enforceability of the same provision in other contexts.
- f. **Survival.** The provisions of Sections 3, 4, 6, 7 and 8 shall survive the expiration or earlier termination of this Agreement.
- g. **Governing Law.** This Agreement shall be governed by the substantive laws of the Commonwealth of Virginia, without regard to its choice of law principles.
- h. **Entire Agreement.** This Agreement (including any exhibit or other attachment to this Agreement) constitutes the entire agreement between the parties pertaining to the subject matter herein, and supersedes all prior oral and written agreements and any proposals, correspondence and memoranda with respect thereto.
- i. **Order of Precedence.** In the event of conflicts among the terms of this Agreement and any attachment or exhibit, the provisions of the attachment or exhibit shall prevail.
- j. **Modification.** No modification to this Agreement will be effective unless it is in writing and signed by all of the Parties of this Agreement.

IN WITNESS WHEREOF, the undersigned have caused the Agreement to be executed by their authorized officials as of the Effective Date.

Good Morning Mina,

We are meeting today and hope to have the UNI Call list samples for you by COB, today.

Regarding the Casual testing, thank you for the heads up, we will add it to our schedule and let you know if there are any changes to the test plan in the next couple of days.

We will also let you know about the contacts when we send the test plan.

Thank you,
Siri.

Subject: RE: UNI Call list samples

Good afternoon,

Thank you for working on this. We still do need samples – I've been speaking to my contractors, and specifically they are needing samples of the HA and HW messages in SPEXS. So the sooner you can send us that, the better.

FYI, with a few exceptions (like these messages) we are nearly ready to start planning our casual tests for SPEXS and PDPS. We are going to start with SPEXS as it is the closest to ready. There was a casual test plan sent to them last summer (attached). Is this the same plan that they will use? We will also need to talk about SSOLV structured testing and what is involved. It's been 10 years since I did that!!

We are tentatively thinking about beginning casual testing in 2 weeks. If the plan will be different, please forward me the new plan.

Will you also be the contact for PDPS testing, or will someone else be doing that? That is probably more like 3-4 weeks before we can talk casual testing – however, it would help to have the plan.

Thank you for all you do ☺

Hi Siri,

If you can provide the responses, that would be helpful, but I think the most important part are the initiated transactions. They can then initiate their own transactions from AI and then get "live" responses from AK.

Hi Siri,

In looking at this, it appears this pulls data from our database. What we are looking for is examples from AAMVA, not a way to pull our own data. Our contractors are looking for some good samples to ensure they are formatting our call list correctly.

Hi Mina,

Attached is the query that can be used to extract messages in PLCL format from the UNI database.

Please note, the user needs to modify the where clause parameters accordingly (the example shows that Application 12 and message type IO originated form gap code AA).

Please let us know of any questions.

Thank you,
Siri.

Subject: UNI Call list samples

Good morning,

Our contractor has asked if we can provide them with call list samples. They seem to think it's something AAMVA can provide. Is it? I don't entirely understand what it is they want from us. Please let me know if I need to ask someone else – I just figured I'd start with you.

Thank you!

From: Johnson, Marion <MJohnson@aamva.org>
Sent: Tuesday, March 7, 2017 6:56 AM
To: Leonardo, Debra L (DOA)
Subject: 2017 Workshop & Law Institute Hotel Confirmation

Dear Debra:

Thank you for registering for the 2017 March Workshop and Law Institute. We are looking forward to seeing you.

We have made reservations for you at Hyatt Regency Minneapolis, 1300 Nicollet Mall, Minneapolis, MN 55403. Your hotel **confirmation number is 37248172** with **check in on 03/14/2017** and **check out on 03/17/2017**. If you have any questions or changes, please contact me by email at mjohnson@aamva.org or phone at 703.908.2827. **Please do NOT contact the hotel directly.**

If you are a member of a hotel loyalty program, please let the hotel know upon check-in. Loyalty programs often entitle you to hotel points or other amenities. Please note that some hotels will not credit you with points if your room is on the hotel master account. If you prefer to ensure point accumulation by paying for your lodging directly and then getting reimbursed by AAMVA (as opposed to having AAMVA pay the hotel directly), please request that change at the time of check-in and let me know.

Again, we are looking forward to seeing you.

Subject: Invitation to AAMVA Leadership Academy Alumni Event at 2017 Workshop & Law Institute

Dear AAMVA Leadership Academy Participant,

We are excited to welcome you to our 2017 Workshop & Law Institute in Minneapolis next week! In addition to an exciting program of informative sessions, there are several opportunities to network with your colleagues, including our first AAMVA Leadership Academy Alumni event. Please join Chair of the Board Jean Shiimoto, fellow ALA alumni, incoming students, instructors, and me, at a reception on Wednesday, March 15th from 5:00-5:30 pm at the hotel bar – Prairie Kitchen and Bar – for an informal get together preceding the Welcome Reception in the Exhibit Hall.

We look forward to seeing you there!

Safe travels,

Anne

Cc: Singaraju, Sruti
Subject: RE: UNI Call list samples

Good afternoon,

Thank you for working on this. We still do need samples – I've been speaking to my contractors, and specifically they are needing samples of the HA and HW messages in SPEXS. So the sooner you can send us that, the better.

FYI, with a few exceptions (like these messages) we are nearly ready to start planning our casual tests for SPEXS and PDPS. We are going to start with SPEXS as it is the closest to ready. There was a casual test plan sent to them last summer (attached). Is this the same plan that they will use? We will also need to talk about SSOLV structured testing and what is involved. It's been 10 years since I did that!!

We are tentatively thinking about beginning casual testing in 2 weeks. If the plan will be different, please forward me the new plan.

Will you also be the contact for PDPS testing, or will someone else be doing that? That is probably more like 3-4 weeks before we can talk casual testing – however, it would help to have the plan.

Thank you for all you do ☺

Hi Siri,

If you can provide the responses, that would be helpful, but I think the most important part are the initiated transactions. They can then initiate their own transactions from AI and then get "live" responses from AK.

Hi Siri,

In looking at this, it appears this pulls data from our database. What we are looking for is examples from AAMVA, not a way to pull our own data. Our contractors are looking for some good samples to ensure they are formatting our call list correctly.

Hi Mina,

Attached is the query that can be used to extract messages in PLCL format from the UNI database.

Please note, the user needs to modify the where clause parameters accordingly (the example shows that Application 12 and message type IO originated from gap code AA).

Please let us know of any questions.

Thank you,
Siri.

Subject: UNI Call list samples

Good morning,

Our contractor has asked if we can provide them with call list samples. They seem to think it's something AAMVA can provide. Is it? I don't entirely understand what it is they want from us. Please let me know if I need to ask someone else – I just figured I'd start with you.

Thank you!

Regards,

Mina Peters

Subject: AAMVA Event - 2017 April CDL Coordinators & IT Meeting Registration Invitation

2017 CDL Coordinators /IT Meeting
April 11 - 13, 2017
St. Louis, Missouri

Dear Mina:

Thank you for letting us know that you plan on attending the CDL Coordinators /IT Meeting at the Hyatt Regency St. Louis at The Arch located at 315 Chestnut St., St. Louis, MO 63102; phone: 314-655-1234.

The following information is provided in order to assist you in registering and making hotel reservations.

Hotel Accommodations: AAMVA will make hotel reservations for all attendees at the Hyatt Regency St. Louis at The Arch located. Please do NOT contact the hotel directly. You will be asked to provide your check in and check out dates during the online registration process.

Airport: St. Louis Lambert International Airport

Arrival & Registration: Monday, April 10

Meeting Dates: Tuesday, April 11 - Thursday, April 13

Departure: After 7:00 pm on April 13 or anytime April 14

Meals: No meals will be provided during the meeting. Attendees will be responsible for all meals each day and will be reimbursed for meals on a per diem basis. Please see the January 31, 2017 meeting announcement email for the per diem amounts.

Attire: Casual

Meeting Registration: Please register online now using the link: [Register Now](http://www.aamva.org/workarea/DownloadAsset.aspx?id=4023) and complete your registration no later than Monday, March 13, 2017. AAMVA will forward all the names and arrival / departure dates to the hotel. Confirmation numbers will be emailed to all attendees closer to the meeting date. If you are having problems with logging into "My AAMVA" to register, please follow instructions in this link for assistance: <http://www.aamva.org/workarea/DownloadAsset.aspx?id=4023>

FMCSA Attendees Only - Once you get to the Hotel Reservation portion of the registration, please

change the Payment Method to “All Charges to be Paid by Individual.” The field has been defaulted otherwise to accommodate the large number of jurisdictional participants.

Airline Reservations for Jurisdictional Attendees Only - You will be receiving an email from AAMVA (Member & Conference Services) asking you to make your airline reservation using our online reservation tool called Concur. Please follow the steps carefully to complete your reservation. Please note that your flight reservation will not be complete until you are at the end of the booking steps and click on the "purchase ticket" button. This will be mentioned in the instructions as well.

Transportation to Hotel: Reservations are strongly suggested but not required for the St. Louis, Missouri airport shuttle. Please call 24 hours a day to (877) STLGOVAN (785-4682). The cost is \$25 for one person one way or \$45 roundtrip for the St. Louis airport shuttle

Meeting & Program Questions: Kevin Lewis, [klewis@aamva.org](mailto:kewis@aamva.org), 703.908.2823

Travel Questions: Damian Bass, dbass@aamva.org, 703.908.5773

If you are a member of a hotel loyalty program please note that some hotels require that you self-pay your hotel room. Loyalty programs often entitle you to hotel points or other amenities. If you prefer to ensure point accumulation by paying for your lodging directly and then getting reimbursed by AAMVA (as opposed to having AAMVA pay the hotel directly), please change the Payment Method to “All Charges To Be Paid By Individual” as you register online for the meeting.

Attachments: Sample NMVTIS Batch Initial Load Structure Test Case Plan 20160103.xlsx; NMVTIS State Batch Data Synchronization Specification, r1.1.1.pdf; T_BRINI.txt; T_VININI.txt; AK Meeting Minutes 20170307.docx

Hi AK,

It was nice meeting with you. Attached are the minutes for today's meeting. Please let me know if I missed or misstated anything.

I am also attaching sample initial load files as well as a sample initial load test case plan and the data sync specs as promised. I will be sending some dates/times we are available for weekly meetings and data we can use for AK to test their response to unsolicited messages soon.

Please don't hesitate to let me know if you have questions.

Thanks,

Susan Creighton | Lead Systems Analyst - Quality Assurance Vehicles |AAMVA | 4401 Wilson Blvd, Ste 700, Arlington, VA 22203 | 703.908.5893 | screighton@aamva.org | www.aamva.org

Be part of the solution.

MEETING AGENDA and MINUTES ALASKA – STATUS MEETING

Date of Meeting: 3/7/2017

Minutes Prepared By: Susan Creighton

Location: Conference Call – (669) 224-3212 pass code 703-214-941
DeLorean Conference Room Time: 4:00 PM – 5:00 PM ET

1. Purpose of Meeting *(prepare and distribute in advance of meeting)*

Discuss status of NMVTIS implementation re-write for AMIE integrated online updates and inquiries with initial load. Tentative implementation is set for early December 2017.

2. Attendance at Meeting *(add rows as necessary)*

Name	Department/Division	Invitee	Attended
Mina Peters	Alaska	√	√
David Nolan	Alaska	√	√
Dillon Pressley	Alaska – Resource Data	√	√
Patrick Anderson	Alaska – Resource Data	√	√
Casey Garber	AAMVA, Business Solutions	√	√
Susan Creighton	AAMVA, Lead Systems Analyst	√	√
Amir Chaudhry	AAMVA, Lead Systems Analyst	√	√

3. Meeting Agenda *(prepare and distribute in advance of meeting)*

- AK Development/Test Status
- Casual Testing
- Status of Outstanding Items
- Next Steps
- Questions & Concerns

4. Meeting Notes, Decisions, Issues

AK is performing a re-write moving from the mainframe to servers. They will be developing the AMIE approach for online inquiry and updates as well as the initial load programs that will later be used for data sync / disaster recovery. Susan will send AK the data sync specs. AK has a targeted go-live for early December 2017.

AK has developed all the solicited and unsolicited messages and the only thing remaining is some UI development. They will be ready to start structured testing the online process soon. AK has not yet started on the initial load process. Susan will send AK sample initial load files as well as a sample initial load test case plan.

The states are responsible for testing all their processes (casual testing) prior to structured testing. AAMVA sent a spreadsheet with test data that can be used for casual testing. AK would like to have a couple of VINs where they can test that they are responding to unsolicited messages. Susan will send AK some data that can be used for this.

AAMVA has not received the mapping or questionnaires from AK which are needed to create the test case plans. AK indicated they will have the mapping and questionnaires updated and returned to AAMVA within the next few days.

Once the mapping and questionnaires are received AAMVA will review and let AK know if there are any questions. Once questions are resolved AAMVA will create the online structured test case plan and setup the test data on NMVTIS. Structured testing is to begin no later than 4/24 and sooner if at all possible.

We will begin meeting weekly. Susan will send AK some dates/times AAMVA is available for a weekly meetings which are not on Monday mornings.

NEXT STEPS:

AK to update and send mapping and questionnaires

AAMVA to send dates/times AAMVA is available for a weekly meeting

AAMVA to send test data for unsolicited message testing

AAMVA to send sample IL files and sample IL TCP

AAMVA to send data sync specs

5. Action Items *(add rows as necessary)*

Action	Assigned to	Due Date	Status
Set up Casual Test Data in NMVTIS	Susan Creighton	3/7/2017	Complete
Send Sample Initial Load Files	Susan Creighton	3/7/2017	Complete
Send Sample Initial Load Test Case Plan	Susan Creighton	3/7/2017	Complete
Send Data Sync Specs	Susan Creighton	3/7/2017	Complete
Send Updated Mapping or an Email Indicating There are No Changes to Mapping	Alaska	3/10/2017	Open
Update and Send Business Questionnaire	Alaska	3/10/2017	Open
Update and Send Test Questionnaire	Alaska	3/10/2017	Open
Provide Dates/Times Available for Weekly Meetings	Susan Creighton	3/10/2017	Open
Send test data for casual testing unsolicited message responses	Susan Creighton	3/10/2017	Open

6. Issues Identified (add rows as necessary; issues are unplanned items of impact that require action)

Issues	Owner	Due Date	Status
--------	-------	----------	--------

.

7. Next Meeting

Date: (MM/DD/CCYY)	TBD	Time:	TBD	Location:	TBD
--------------------	-----	-------	-----	-----------	-----

Agenda:	Will be Sent out Prior to Meeting

Subject: The National Driver Register will conduct a Cleanfile on March 19, 2017

PDPS Participants:

The National Driver Register will conduct a Cleanfile on March 19th, 2017

Cleanfile is an optional process. It is a means for jurisdictions to refresh the pointers it has on PDPS. NDR replaces all pointers on the PDPS file with the Cleanfile set of pointers sent by the jurisdiction. In order for a pointer to be included in the Cleanfile, the associated record in the jurisdiction must contain a conviction or withdrawal specified in 23 CFR Part 1327 section 1327.5 (a) or in Appendix A to that rule.

To participate in this Cleanfile, please email NDR by March 8th, 2017, and plan to send your file to NDR no later than March 15th, 2017.

Cleanfiles must be submitted via Secure FTP or FTP. Please schedule a test of SFTP/FTP connectivity with NDR before attempting to send the full Cleanfile.

If you plan to participate in this Cleanfile or if you have any questions please contact the NDR Office by sending an e-mail to NDR_Operations@dot.gov.

Cleanfile is an optional process. It is a means for jurisdictions to refresh the pointers it has on PDPS. NDR replaces all pointers on the PDPS file with the Cleanfile set of pointers sent by the jurisdiction. In order for a pointer to be included in the Cleanfile, the associated record in the jurisdiction must contain a conviction or withdrawal specified in 23 CFR Part 1327 section 1327.5 (a) or in Appendix A to that rule.

To participate in this Cleanfile, please email NDR by March 8th, 2017, and plan to send your file to NDR no later than March 15th, 2017.

Cleanfiles must be submitted via Secure FTP or FTP. Please schedule a test of SFTP/FTP connectivity with NDR before attempting to send the full Cleanfile.

If you plan to participate in this Cleanfile or if you have any questions please contact the NDR Office by sending an e-mail to NDR_Operations@dot.gov.

Subject: S2S Pilot Working Group Tasking
Attachments: 2017-03-07- Minutes for S2S Pilot States Working Group.pdf; 2017-03-21 - Agenda for
S2S Pilot States Working Group.pdf; 2017-03-07 SPEXS Search Functionality.pptx

Good afternoon all,

Attached please find the minutes from Tuesday's Working Group call, along with a draft agenda for our next call, plus the slide deck presented by AAMVA. Due to the connectivity issues experienced during Tuesday's call, AAMVA's presentation on SPEXS Search Functionality will be presented again in its entirety on the next call. Likewise, the questions raised by States for group discussion will be mentioned again to allow feedback/comment from those that weren't able to participate in Tuesday's call.

A new webinar series has been created for our use while we continue to meet. The link to register will be provided shortly via a new Outlook meeting invite. Please register (one time) prior to our next call and use the new information to participate.

While our responsibilities as the pilot Working Group are complete, several states have requested that we continue meeting at our regularly scheduled time until the post-pilot WG sub-group is spun up. The purpose is to provide states with a venue for sharing information and suggestions related to S2S, talk about technical issues, potential duplicate situations, etc. The agenda topics will be driven entirely by you, the States. Please consider additional topics that you would like to discuss, and if possible, send our way prior to the next call. Our next call is scheduled for **Tuesday, March 21st, at 2pm eastern.**

S2S WG Presentation

2017-03-07

Safe Drivers · Safe Vehicles · Secure Identities · Saving Lives

Transactions

- CDH1 (CD01 & CD05)
- CD02
- CD06 (3rd party participants only)
- CD18 (FMCSA only)
- CDA1

Safe Drivers · Safe Vehicles · Secure Identities · Saving Lives

CD02 Input

Name
AND
Date of Birth
AND
[SSN AND/OR ST-DLN]

Safe Drivers · Safe Vehicles · Secure Identities · Saving Lives

CD02 Search Rules

Pointer has to exactly match input

Note that:

- SSN match on last 5 digits only
- Inquiry ST-DLN match may be against pointer
AKA ST-DLN
- Exact match on Name defined as:
 exact Last Name
 AND
 [similar First Name OR similar Middle Name]

Safe Drivers · Safe Vehicles · Secure Identities · Saving Lives

CDH1 Input

Name

AND

Date of Birth

Optional:

[ST-DLN; SSN; AKA Name; AKA DOB]

Safe Drivers · Safe Vehicles · Secure Identities · Saving Lives

CDH1 Search Rules

2 separate and independent inquiries:

- ST-DLN
- Everything else
 - Rule sets differ depending on input fields present
 - Similarity score calculated

CDH1 Search Rules

Name & DOB:

- Similar Name and similar DOB
- Very similar AKA Name and similar DOB

Note that:

- “similar” = “fuzzy match”
- Fuzziness depends on string length
- Currently, no match if 2 strings differ in more than 2 characters
- Substitute SSN on input disregarded
- Name switching evaluated

CDH1 Search Rules

Name, DOB, SSN:

- Various rules
- Substitute SSN on input disregarded

Minutes – S2S Pilot State Working Group Meeting

Tuesday, March 7th, 2017 | 2:30 PM – 3:30 PM Eastern | Weekly Webinar

FACILITATORS

Steve Leak, IN Business SME and WG Chair
Nancy Carlson, Mississippi Program Manager

AGENDA

1. Call to Order

The meeting was called to order by Steve Leak.

2. Approval of minutes from 02/21/2017 WG Call.

The minutes from the 02/21/2017 WG call were approved without revision..

3. Transition Plans (Pilot to Post-Pilot)

Nancy shared that the final DIVS Executive Committee meeting was held on March 3rd. Philippe shared at that time that all post-pilot user agreements have been fully executed. In addition, the S2S Governance Working Group kick-off meeting was held on February 28th.

4. SPEXS Search Functionality

Based on prior discussions with the pilot States and concerns regarding SPEXS Search Functionality, Loffie presented slides explaining the search functionality in more detail. Due to connectivity and audio issues, Loffie will present these slides again on the next call. States are encouraged to review them and discuss internally and consider potential questions for the next call.

5. WG Continuity and Continuous Improvement

- a) The Arizona team indicated that, between their go-live event and the creation of associated potential duplicate files, and the time they were able to extract supplemental information for inclusion in the file to share with the other related States, information on a number of pointers has since changed. They look to AAMVA for direction on how to populate the supplemental file before redistributing to the other States. After some discussion, all agreed that the information provided by AAMVA on the file should not be changed – even if the values have been modified – and if supplemental information is no longer applicable due to those changes – that information should be left blank. It was agreed that by doing this, the other related States will know to treat the pair through exception processing.
- b) The Arizona team also mentioned that they've received some requests (via phone and/or email) to pull another State's pointer due to multiple credentials being issued to the same customer. Since Arizona allows multiple credentials, they questioned whether or not these requests from other States were appropriate. AAMVA indicated that States should follow their own State policies and not those of other States. AAMVA and States will consider whether this might be a training issue and consider options for ensuring State personnel are on the same page regarding proper procedures. This topic will be explored in more detail on the next call.

	<p>6. Next Steps / Action Items Are noted within the minutes.</p> <p>7. Adjourn Meeting The meeting was adjourned by Steve Leak.</p>

testing testing

I'm sending our two SPEXS training powerpoints for your amusement. Let me know if you get these ok and I'll send my spreadsheet.

FYI - the 30 that I identified were ONLY those found in the course of issuing a license. We don't keep the data for a simple IM - only when a user receives an HC during issuance and has to make a decision to use or not.

Thanks again,

Mina

Subject: RE: Alaska Pointer Issues

Good Morning Helen,

Thanks for reaching out to us on this important issue. The quick fix here is to perform a CSOR for the DL and ignore the ID pointer, as it should be an allowable combo per SPEXS. This will allow the drivers to be licensed in WY without delay. Whether or not this is complicated by WY and AK issuance laws is another story. Unfortunately Mina is out this week but I'll get with her as soon as she returns to discuss resolution, and reply as soon as possible.

In the meantime, please continue to send relevant driver information for our review.

Sincerely,

Nichole Tham

Subject: Alaska Pointer Issues

Hello,

Wyoming is experiencing issues with transferring SPEXS Pointers from Alaska to Wyoming on drivers who are being coming from Alaska to be issued in Wyoming.

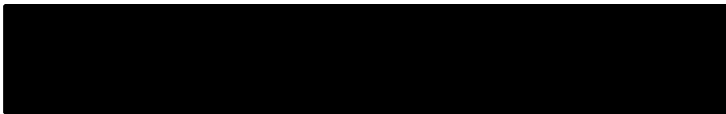

It seems that Alaska has put SPEXS Pointers on both the driver licenses and identification cards, so that when Wyoming is trying to transfer the SPEXS Pointer for a driver license, we are getting the duplicate pointer message and unable to do the transfer.

We have contacted your SPEXS help desk requesting that one of the SPEXS Pointers be deleted so that Wyoming can transfer the SPEXS Pointer, and they are telling us that they cannot delete any of the SPEXS Pointers per their IT person.

Please review the driver information below and let Wyoming know how we are to transfer the driver license SPEXS Pointers for these drivers when they have the same number for the SPEXS Pointers on the ID cards as well.

These drivers are at our exam stations waiting to be issued a Wyoming driver license.

Please respond as soon as possible. Thank you.

Subject: S2S Pilot Working Group Tasking

Good afternoon all,

Attached please find the minutes from Tuesday's Working Group call, along with a draft agenda for our next call. As mentioned on Tuesday, while our responsibilities as the pilot Working Group are complete, several states have requested that we continue meeting at our regularly scheduled time until the post-pilot WG sub-group is spun up. The purpose is to provide states with a venue for sharing information and suggestions related to S2S, talk about technical issues, potential duplicate situations, etc. The agenda topics will be driven entirely by you, the States. Please consider additional topics that you would like to discuss, and if possible, send our way prior to the next call. Please note that our next call is scheduled for **Tuesday, March 7th, at 2pm eastern**.

Much thanks to all of you that have submitted your completed surveys throughout the S2S pilot. The information gathered has been extremely valuable in completing the S2S Pilot Evaluation Report and the S2S Best Practices document. **As a reminder, the Survey of S2S Pilot State Monthly Activities covering the month of February is due on March 7**, and is also attached to this email. The good news is that **this is the last monthly survey to fill out!!!** Woo hoo!!! If you are one of the states that is a month or two behind in submissions, feel free to just fill out one survey covering previous months – be sure to indicate the appropriate months in the "Months Covered" field. Information from this last survey will be used to complete a version 2 of the above two deliverables.

Thanks again to everyone for all your efforts and input throughout the pilot.

Nancy Carlson, PMP

Survey of S2S Pilot State Implementation Activities

Instructions

This survey requests information about your State's experiences during its implementation of the State-to-State (S2S) pilot. The information provided will be used to create important documents such as a pilot evaluation report and a best practices document. Please enter the date the survey was prepared, and your State. Also, please provide the name, email address, and phone number for a point-of-contact who can be contacted if clarification or additional information is needed regarding any of the answers to the survey questions.

Date: March 7, 2017

Pilot State: AK

Point of Contact Information

Name: NicholeTham

Phone: 907-269-3775

Email: nichole.tham@alaska.gov

Survey Questions

1. What specific benefits do you anticipate realizing by implementing and piloting the service? Examples of areas to consider might include customer service, accuracy of data, and timeliness.

Both improved timeliness and accuracy of data over the long run as more states onboard.

Important information for answering questions 2 through 4:

The following four questions make a distinction between the parts of your implementation process that are **external** to your state and those that are **internal**. The **external** activities are those that involve cooperation and coordination with entities outside your state, such as defining and documenting requirements, time-line planning, implementation support, structure testing support, structure testing execution and bulk load execution. The **internal** activities are those that involve only the state's own employees and contractors, such as early team construction, use of dedicated resources, agile approach to system enhancements, specific approaches to quality assurance, change control regression testing. If you have doubt about into which category an activity falls, just use your best judgment. Providing your information is more important than correctly categorizing it.

2. Describe those aspects of the implementation process related to **external** activities that you believe worked well.

On the IT side implementation support, structure testing support, structure testing execution and bulk load execution went well.

Survey of S2S Pilot State Implementation Activities

3. Describe those aspects of the implementation process related to external activities that you believe did **not** work well and provide any suggestions you have for improving these areas.

The technical and business aspects of S2S overlap quite a bit, though for obvious reasons focuses more on the technical side. It may be helpful to have states provide a bit more detail on their laws and business rules so other states may consider the impacts this might have on post-implementation interactions and communications with other S2S states. For example, Alaska law permits a person to hold both an Alaska driver's license and Identification card, in addition to identification cards issued by other states. Because of this, we cannot "delete" other states' ID pointers, nor can we "delete" an Alaska ID pointer when the person obtains a license or ID card in another state. This is frustrating for states with more stringent laws and/or business rules. Legislation has been proposed to alleviate the issue, however it has yet to be introduced.

4. Describe those aspects of the implementation process related to your own state's **internal** activities that you believe worked well.

IT planning/implementation and business training of front line/administrative licensing staff. IT was ready for and able to quickly resolve the technical potholes encountered on day one as well as a few other hiccups over the first week.

Participation in the working group meetings and the face-to-face meetings was especially helpful in talking through/clarifying specific issues and scenarios that might have been overlooked otherwise. Pre-implementation the IT and Driver Services groups worked closely to complete internal data cleanup that significantly reduced the number of potential duplicates.

5. Describe those aspects of the implementation process related to your own state's **internal** activities that you believe did **not** work well and provide any suggestions you have for improving these areas.

Alaska's uniqueness and relatively low number of driver's license and identification card records compared with other states made it difficult to gauge the full operational impact pre-implementation and apply the experience(s)/lessons learned of other pilot states. Post-implementation we discovered more licensing staff could have been dedicated to the increased workload due to critical duplicate resolution and daily maintenance (manual CSORs, correction of missing/broken pointers, pointer error resolution, email and phone communication with other SPEXS states, and CDLIS maintenance. Leanly staffed jurisdictions may wish to consider additional staff dedicated solely to these functions, at least temporarily until things settle down.

Though it isn't necessarily going poorly, we are considering pulling CSORs back to the Driver Services Unit to evaluate the effectiveness of performing them in the background so we have a 360-degree view.

Survey of S2S Pilot State Implementation Activities

6. What platform(s) did you implement the service on? Examples include mainframe, windows, and hybrid.

Mainframe

7. Did you implement this service using Web Services or AMIE Messages?

AMIE

8. Please provide the following counts for each credential type listed.

Type of Credential	Total Issued as of Go-Live	Total Loaded to SPEXS at Go -Live
REAL ID Driver Licenses	0	0
REAL ID Identification Cards	0	0
Customary Driver Licenses	475254	475254
Customary Identification Cards	188322	188322

9. As a result of your bulk load did you discover any cases where there was an indication that someone might have multiple REAL ID cards, for example someone to whom your state had issued a REAL ID card for whom there was already a pointer from another state for a REAL ID card? If so, how many cases like this did you discover?

Alaska is not REAL ID compliant thus has not experienced a scenario with a conflicting REAL ID pointer in another state. We are however keeping an eye out for multiple non-Alaska REAL ID pointers but have yet to encounter them.

S2S Monthly Activities Survey Version 1.2

Instructions

This survey requests information about your State's experiences operating the State-to-State (S2S) pilot for a given month during the S2S Pilot evaluation. Your state should complete and submit this survey for each month it operates S2S during the pilot evaluation period. The information provided will be used to create important documents such as a pilot evaluation report and a best practices document. Please enter the date the survey was prepared, and your State. Also, please provide the name, email address, and phone number for a point-of-contact who can be contacted if clarification or additional information is needed regarding any of the answers to the survey questions.

Pilot State: Alaska

Date Submitted: March 7, 2017

Month(s) Covered: January and February, 2017

Point of Contact Information

Name: NicholeTham

Phone: 907-269-3775

Email: nichole.tham@alaska.gov

Survey Questions

1. What specific benefits did you realize from the operation of S2S pilot? Examples of areas to consider might include customer service, accuracy of data, and timeliness.

Though the initial impact brought on a significant workload for our leanly staffed organization, the immediate benefit is timeliness. In the long run participation in S2S will improve accuracy of data and promote the "one-driver/one license" driver compact.

Important information for answering questions 2 through 4:

The following four questions make a distinction between the parts of your implementation process that are **external** to your state and those that are **internal**. The **external** activities are those that involve cooperation and coordination with entities outside your state, such as operational support from AAMVA, AAMVA help desk responsiveness, and interaction with other states. The **internal** activities are those that involve only the state's own employees and contractors, such as operational support from in-state entities, local help desk responsiveness, and interaction among various in-state entities. If you have doubt about into which category an activity falls, just use your best judgment. Providing your information is more important than correctly categorizing it.

S2S Monthly Activities Survey Version 1.2

2. Describe those aspects of S2S operations related to **external** activities that you believe worked well

Participation in the working group and face-to-face meetings provided much needed contacts that facilitated better communication between an onboarding state and other pilot states. AAMVA and Clerus were extremely responsive and supportive every step of the way.

3. Describe those aspects of S2S operations related to external activities that you believe did not work well and provide any suggestions you have for improving these areas.

The inability to merge pointers has created significant problems when working with other states. Misunderstanding of other states laws and/or business practices leading to real or perceived disagreements regarding pointer maintenance of identification cards. What would be most helpful would be to be able to take over multiple pointers from an OSOR, merging them into single NSOR pointer. Another issue we have encountered is what could be termed as a "loose" algorithm in the search engine from the IM inquiry. Many records returned as a "Match" are quite obviously not.

4. Describe those aspects of S2S operations related to your own state's **internal** activities that you believe worked well.

IT planning/implementation and business training of front line/administrative licensing staff. IT was ready for and able to quickly resolve the technical potholes encountered on day one as well as a few other hiccups over the first week. Internal data cleanup pre-implementation helped reduce the number of duplicates after go live.

5. Describe those aspects of S2S operations related to your own state's **internal** activities that you believe did not work well and provide any suggestions you have for improving these areas.

To mirror pre-implementation business flow, the CSOR function is performed by front-line staff at the time of issuance. Though it isn't necessarily going poorly, we are considering pulling CSORs back to the Driver Services Unit to evaluate the effectiveness of performing them in the background so we have a 360-degree view. Due to the significant number of incorrect "Matches" that we have received, some records have been accepted and pointers taken over that were not actually matches. This has resulted in the need to contact other states to re-add their pointers.

Important information for answering questions 8 through 11:

If the answers provided were obtained using sampling, please include in your answer information about the sampling basis used. For example, "We sampled activity for 5 working days at a site that on average processes about 10% of our state's issuance applications."

6. Please provide the number of cases where a search of the S2S master pointer file indicated that the applicant might hold a driver license in another state. Also, please provide the number of cases where

S2S Monthly Activities Survey Version 1.2

the individual did not provide information about the other state's driver license prior to the S2S search.

As of this moment (between 1/31/17 and 3/6/17) we have received 1018 possible pointers. 403 of these have been taken over by Alaska.

We've only had one confirmed case of non-disclosure of an out of state license, stemming from the applicant's unfamiliarity with re-licensing requirements following issuance of an out of state license. The person is from a remote Alaska community. However, we don't collect this data specifically, so it is possible that there are more cases we are not aware of.

7. Please provide the number of cases where a search of the S2S master pointer file indicated that the applicant might hold a REAL ID card in another state. Also, please provide the number of cases where the individual did not provide information about the other state's REAL ID card prior to the S2S search.

As of this moment (between 1/31/17 and 3/6/17) we have received 221 real-id responses from other states. Of these, 89 have been taken over by Alaska.

Alaska is not REAL ID compliant thus does not specifically ask applicants if any previous license/license being surrendered is a REAL ID document. We are not aware of any cases where a person failed to provide information on an existing REAL ID cards issues to them or in their possession. Most applicants have a vested interest in obtaining a license thus are pretty forthcoming.

8. Were any cases referred for investigation of possible fraud based at least in part on information obtained through S2S? If so, please provide a brief description of the case, taking care not to include any personally identifiable information (PII).

Not yet, since we are only just beginning to work the critical duplicates.

9. How many DL/ID cards that had been issued by your State were **cancelled** this month as a result of receiving a CSOR request or notification that another state had issued a DL/ID card to the cardholder?

As of this moment (between 1/31/17 and 3/6/17) we have transferred 837 credentials were cancelled due to being transferred to other states. This includes CDLIS and Non -CDLIS transactions.

10. If you encountered any problems as a result of the bulk load or other aspects of another state going live on the S2S Pilot, please briefly describe the problem.

The bulk load went fine. Our only issue is regarding the sending and receipt of the Duplicate list. The different formats required and sent by different states. While we have compensated for other state issues, other states have been extremely picky with us and refused our duplicate lists.

2017 Driver License and ID Card

WASHINGTON NEW LOOK AND SECURITY FEATURES

Washington is issuing newly-designed driver licenses and ID cards to better protect residents from identity theft. The cards will have a different look and will contain state-of-the-art security features that go further to prevent fraud and identity theft, a key mission of the Department of Licensing.

You won't need to take any special steps if you have a valid license or ID card. The new cards are issued when you apply for a renewal or replacement. Driver licenses and ID cards with the previous design will remain valid until their normal expiration date. All new driver licenses, permits and ID cards will have the new format with additional security features that will assist retailers, banks, law enforcement and government agencies to verify that the cards are authentic.

Subject: Outlook Invite Attachments

Hi All,

I'm receiving wide-spread reporting of issues with opening the documents attached to the Outlook invite for the April call.

Find them attached. All should open cleanly.

Have a great day!

Sheila

Thanks, Nichole!

This has been really good input on both the merging issue and the search algorithm. Much appreciated!

Hi Nancy,

Attached are Alaska's monthly and implementation surveys. Apologies for being a tad late, but I hope Alaska's feedback is helpful!

Sincerely,

Nichole Tham

Subject: S2S Pilot Working Group Tasking

Good afternoon all,

Attached please find the minutes from Tuesday's Working Group call, along with a draft agenda for our next call. As mentioned on Tuesday, while our responsibilities as the pilot Working Group are complete, several states have requested that we continue meeting at our regularly scheduled time until the post-pilot WG sub-group is spun up. The purpose is to provide states with a venue for sharing information and suggestions

related to S2S, talk about technical issues, potential duplicate situations, etc. The agenda topics will be driven entirely by you, the States. Please consider additional topics that you would like to discuss, and if possible, send our way prior to the next call. Please note that our next call is scheduled for **Tuesday, March 7th, at 2pm eastern.**

Much thanks to all of you that have submitted your completed surveys throughout the S2S pilot. The information gathered has been extremely valuable in completing the S2S Pilot Evaluation Report and the S2S Best Practices document. **As a reminder, the Survey of S2S Pilot State Monthly Activities covering the month of February is due on March 7,** and is also attached to this email. The good news is that **this is the last monthly survey to fill out!!!** Woo hoo!!! If you are one of the states that is a month or two behind in submissions, feel free to just fill out one survey covering previous months – be sure to indicate the appropriate months in the “Months Covered” field. Information from this last survey will be used to complete a version 2 of the above two deliverables.

Thanks again to everyone for all your efforts and input throughout the pilot.

Nancy Carlson, PMP

Survey of S2S Pilot State Implementation Activities

Instructions

This survey requests information about your State's experiences during its implementation of the State-to-State (S2S) pilot. The information provided will be used to create important documents such as a pilot evaluation report and a best practices document. Please enter the date the survey was prepared, and your State. Also, please provide the name, email address, and phone number for a point-of-contact who can be contacted if clarification or additional information is needed regarding any of the answers to the survey questions.

Date: March 7, 2017

Pilot State: AK

Point of Contact Information

Name: NicholeTham

Phone: 907-269-3775

Email: nichole.tham@alaska.gov

Survey Questions

1. What specific benefits do you anticipate realizing by implementing and piloting the service? Examples of areas to consider might include customer service, accuracy of data, and timeliness.

Both improved timeliness and accuracy of data over the long run as more states onboard.

Important information for answering questions 2 through 4:

The following four questions make a distinction between the parts of your implementation process that are **external** to your state and those that are **internal**. The **external** activities are those that involve cooperation and coordination with entities outside your state, such as defining and documenting requirements, time-line planning, implementation support, structure testing support, structure testing execution and bulk load execution. The **internal** activities are those that involve only the state's own employees and contractors, such as early team construction, use of dedicated resources, agile approach to system enhancements, specific approaches to quality assurance, change control regression testing. If you have doubt about into which category an activity falls, just use your best judgment. Providing your information is more important than correctly categorizing it.

2. Describe those aspects of the implementation process related to **external** activities that you believe worked well.

On the IT side implementation support, structure testing support, structure testing execution and bulk load execution went well.

Survey of S2S Pilot State Implementation Activities

3. Describe those aspects of the implementation process related to external activities that you believe did **not** work well and provide any suggestions you have for improving these areas.

The technical and business aspects of S2S overlap quite a bit, though for obvious reasons focuses more on the technical side. It may be helpful to have states provide a bit more detail on their laws and business rules so other states may consider the impacts this might have on post-implementation interactions and communications with other S2S states. For example, Alaska law permits a person to hold both an Alaska driver's license and Identification card, in addition to identification cards issued by other states. Because of this, we cannot "delete" other states' ID pointers, nor can we "delete" an Alaska ID pointer when the person obtains a license or ID card in another state. This is frustrating for states with more stringent laws and/or business rules. Legislation has been proposed to alleviate the issue, however it has yet to be introduced.

4. Describe those aspects of the implementation process related to your own state's **internal** activities that you believe worked well.

IT planning/implementation and business training of front line/administrative licensing staff. IT was ready for and able to quickly resolve the technical potholes encountered on day one as well as a few other hiccups over the first week.

Participation in the working group meetings and the face-to-face meetings was especially helpful in talking through/clarifying specific issues and scenarios that might have been overlooked otherwise. Pre-implementation the IT and Driver Services groups worked closely to complete internal data cleanup that significantly reduced the number of potential duplicates.

5. Describe those aspects of the implementation process related to your own state's **internal** activities that you believe did **not** work well and provide any suggestions you have for improving these areas.

Alaska's uniqueness and relatively low number of driver's license and identification card records compared with other states made it difficult to gauge the full operational impact pre-implementation and apply the experience(s)/lessons learned of other pilot states. Post-implementation we discovered more licensing staff could have been dedicated to the increased workload due to critical duplicate resolution and daily maintenance (manual CSORs, correction of missing/broken pointers, pointer error resolution, email and phone communication with other SPEXS states, and CDLIS maintenance. Leanly staffed jurisdictions may wish to consider additional staff dedicated solely to these functions, at least temporarily until things settle down.

Though it isn't necessarily going poorly, we are considering pulling CSORs back to the Driver Services Unit to evaluate the effectiveness of performing them in the background so we have a 360-degree view.

Survey of S2S Pilot State Implementation Activities

6. What platform(s) did you implement the service on? Examples include mainframe, windows, and hybrid.

Mainframe

7. Did you implement this service using Web Services or AMIE Messages?

AMIE

8. Please provide the following counts for each credential type listed.

Type of Credential	Total Issued as of Go-Live	Total Loaded to SPEXS at Go -Live
REAL ID Driver Licenses	0	0
REAL ID Identification Cards	0	0
Customary Driver Licenses	475254	475254
Customary Identification Cards	188322	188322

9. As a result of your bulk load did you discover any cases where there was an indication that someone might have multiple REAL ID cards, for example someone to whom your state had issued a REAL ID card for whom there was already a pointer from another state for a REAL ID card? If so, how many cases like this did you discover?

Alaska is not REAL ID compliant thus has not experienced a scenario with a conflicting REAL ID pointer in another state. We are however keeping an eye out for multiple non-Alaska REAL ID pointers but have yet to encounter them.

S2S Monthly Activities Survey Version 1.2

Instructions

This survey requests information about your State's experiences operating the State-to-State (S2S) pilot for a given month during the S2S Pilot evaluation. Your state should complete and submit this survey for each month it operates S2S during the pilot evaluation period. The information provided will be used to create important documents such as a pilot evaluation report and a best practices document. Please enter the date the survey was prepared, and your State. Also, please provide the name, email address, and phone number for a point-of-contact who can be contacted if clarification or additional information is needed regarding any of the answers to the survey questions.

Pilot State: Alaska

Date Submitted: March 7, 2017

Month(s) Covered: January and February, 2017

Point of Contact Information

Name: NicholeTham

Phone: 907-269-3775

Email: nichole.tham@alaska.gov

Survey Questions

1. What specific benefits did you realize from the operation of S2S pilot? Examples of areas to consider might include customer service, accuracy of data, and timeliness.

Though the initial impact brought on a significant workload for our leanly staffed organization, the immediate benefit is timeliness. In the long run participation in S2S will improve accuracy of data and promote the "one-driver/one license" driver compact.

Important information for answering questions 2 through 4:

The following four questions make a distinction between the parts of your implementation process that are **external** to your state and those that are **internal**. The **external** activities are those that involve cooperation and coordination with entities outside your state, such as operational support from AAMVA, AAMVA help desk responsiveness, and interaction with other states. The **internal** activities are those that involve only the state's own employees and contractors, such as operational support from in-state entities, local help desk responsiveness, and interaction among various in-state entities. If you have doubt about into which category an activity falls, just use your best judgment. Providing your information is more important than correctly categorizing it.

S2S Monthly Activities Survey Version 1.2

2. Describe those aspects of S2S operations related to **external** activities that you believe worked well

Participation in the working group and face-to-face meetings provided much needed contacts that facilitated better communication between an onboarding state and other pilot states. AAMVA and Clerus were extremely responsive and supportive every step of the way.

3. Describe those aspects of S2S operations related to external activities that you believe did not work well and provide any suggestions you have for improving these areas.

The inability to merge pointers has created significant problems when working with other states. Misunderstanding of other states laws and/or business practices leading to real or perceived disagreements regarding pointer maintenance of identification cards. What would be most helpful would be to be able to take over multiple pointers from an OSOR, merging them into single NSOR pointer. Another issue we have encountered is what could be termed as a "loose" algorithm in the search engine from the IM inquiry. Many records returned as a "Match" are quite obviously not.

4. Describe those aspects of S2S operations related to your own state's **internal** activities that you believe worked well.

IT planning/implementation and business training of front line/administrative licensing staff. IT was ready for and able to quickly resolve the technical potholes encountered on day one as well as a few other hiccups over the first week. Internal data cleanup pre-implementation helped reduce the number of duplicates after go live.

5. Describe those aspects of S2S operations related to your own state's **internal** activities that you believe did not work well and provide any suggestions you have for improving these areas.

To mirror pre-implementation business flow, the CSOR function is performed by front-line staff at the time of issuance. Though it isn't necessarily going poorly, we are considering pulling CSORs back to the Driver Services Unit to evaluate the effectiveness of performing them in the background so we have a 360-degree view. Due to the significant number of incorrect "Matches" that we have received, some records have been accepted and pointers taken over that were not actually matches. This has resulted in the need to contact other states to re-add their pointers.

Important information for answering questions 8 through 11:

If the answers provided were obtained using sampling, please include in your answer information about the sampling basis used. For example, "We sampled activity for 5 working days at a site that on average processes about 10% of our state's issuance applications."

6. Please provide the number of cases where a search of the S2S master pointer file indicated that the applicant might hold a driver license in another state. Also, please provide the number of cases where

S2S Monthly Activities Survey Version 1.2

the individual did not provide information about the other state's driver license prior to the S2S search.

As of this moment (between 1/31/17 and 3/6/17) we have received 1018 possible pointers. 403 of these have been taken over by Alaska.

We've only had one confirmed case of non-disclosure of an out of state license, stemming from the applicant's unfamiliarity with re-licensing requirements following issuance of an out of state license. The person is from a remote Alaska community. However, we don't collect this data specifically, so it is possible that there are more cases we are not aware of.

7. Please provide the number of cases where a search of the S2S master pointer file indicated that the applicant might hold a REAL ID card in another state. Also, please provide the number of cases where the individual did not provide information about the other state's REAL ID card prior to the S2S search.

As of this moment (between 1/31/17 and 3/6/17) we have received 221 real-id responses from other states. Of these, 89 have been taken over by Alaska.

Alaska is not REAL ID compliant thus does not specifically ask applicants if any previous license/license being surrendered is a REAL ID document. We are not aware of any cases where a person failed to provide information on an existing REAL ID cards issues to them or in their possession. Most applicants have a vested interest in obtaining a license thus are pretty forthcoming.

8. Were any cases referred for investigation of possible fraud based at least in part on information obtained through S2S? If so, please provide a brief description of the case, taking care not to include any personally identifiable information (PII).

Not yet, since we are only just beginning to work the critical duplicates.

9. How many DL/ID cards that had been issued by your State were **cancelled** this month as a result of receiving a CSOR request or notification that another state had issued a DL/ID card to the cardholder?

As of this moment (between 1/31/17 and 3/6/17) we have transferred 837 credentials were cancelled due to being transferred to other states. This includes CDLIS and Non -CDLIS transactions.

10. If you encountered any problems as a result of the bulk load or other aspects of another state going live on the S2S Pilot, please briefly describe the problem.

The bulk load went fine. Our only issue is regarding the sending and receipt of the Duplicate list. The different formats required and sent by different states. While we have compensated for other state issues, other states have been extremely picky with us and refused our duplicate lists.

Subject: R-IV Travel Grant

Hi Marla,

I'm delighted to advise that Region IV President Pat Kohler has approved your travel grant request. Expenses to be covered by the Region includes airfare, four (4) nights lodging, and your conference registration fee. Is it possible for your agency to cover your registration fee? If not, the Region certainly can, but if so, it will allow travel grant funding to be shared with more conference attendees. Please let me know before you register for the conference.

I will make your hotel reservations. Please provide the following information so I can book your flights.

Full name as listed on DL/passport:

Date of birth:

Cell phone number:

Departure airport:

Date of departure:

Time of departure / airline preference: *(If you can find a specific flight you prefer, please include that info as it will save time and effort and ensure you get the flights you want):*

Return date:

Return time / airline *(ditto above)*:

Seat preference for non-Southwest flyers (aisle or window):

Frequent flyer number:

Please let me know if you have questions or need additional information. I appreciate receiving your personal information and travel no later than March 24 to allow us to take advantage of early rates.

Thanks!

Sheila

Subject: RE: R-IV Travel Grant

I am very excited to get this opportunity! Thank you. I would love to say that we could cover the Grant but at this time I know that if I did I would not be able to travel. Our budget situation is top of mind and Travel Freeze is still in place. I will make sure I say that I will personally donate a basket for the auction from Alaska DMV so at least I can contribute in that way.

I will get back to you with the flight info and other things you requested.

Thanks,
Marla

I am very excited to get this opportunity! Thank you. I would love to say that we could cover the Grant but at this time I know that if I did I would not be able to travel. Our budget situation is top of mind and Travel Freeze is still in place. I will make sure I say that I will personally donate a basket for the auction from Alaska DMV so at least I can contribute in that way.

I will get back to you with the flight info and other things you requested.

Thanks,
Marla

Subject: R-IV Travel Grant

Hi Marla,

I'm delighted to advise that Region IV President Pat Kohler has approved your travel grant request. Expenses to be covered by the Region includes airfare, four (4) nights lodging, and your conference registration fee. Is it possible for your

agency to cover your registration fee? If not, the Region certainly can, but if so, it will allow travel grant funding to be shared with more conference attendees. Please let me know before you register for the conference.

I will make your hotel reservations. Please provide the following information so I can book your flights.

Full name as listed on DL/passport:

Date of birth:

Cell phone number:

Departure airport:

Date of departure:

Time of departure / airline preference: *(If you can find a specific flight you prefer, please include that info as it will save time and effort and ensure you get the flights you want):*

Return date:

Return time / airline *(ditto above)*:

Seat preference for non-Southwest flyers (aisle or window):

Frequent flyer number:

Please let me know if you have questions or need additional information. I appreciate receiving your personal information and travel no later than March 24 to allow us to take advantage of early rates.

Thanks!

Sheila

Attachments: Reminder about S2S Surveys and Touch Point 4

Nichole,

Thanks for submitting these surveys. We now have only two things left to do with AK related to the S2S Pilot, the After Operations Survey and the Touch Point 4 conference call. These are important because we need them to produce the second (and final) versions of the Best Practices and Pilot Eval Report documents. My earlier email, sent on February 22, contains more information about the After Operations survey and Touch Point 4.

We would like to do the Touch Point 4 call with you sometime between March 15 and March 28. Could you please suggest some dates/times that would be good for the Alaska staff?

Thanks,

Subject: S2S Pilot Working Group Tasking

Good afternoon all,

Attached please find the minutes from Tuesday's Working Group call, along with a draft agenda for our next call. As mentioned on Tuesday, while our responsibilities as the pilot Working Group are complete, several states have requested that we continue meeting at our regularly scheduled time until the post-pilot WG subgroup is spun up. The purpose is to provide states with a venue for sharing information and suggestions related to S2S, talk about technical issues, potential duplicate situations, etc. The agenda topics will be driven entirely by you, the States. Please consider additional topics that you would like to discuss, and if possible, send our way prior to the next call. Please note that our next call is scheduled for **Tuesday, March 7th, at 2pm eastern**.

Much thanks to all of you that have submitted your completed surveys throughout the S2S pilot. The information gathered has been extremely valuable in completing the S2S Pilot Evaluation Report and the S2S Best Practices document. **As a reminder, the Survey of S2S Pilot State Monthly Activities covering the month of February is due on March 7**, and is also attached to this email. The good news is that **this is the last monthly survey to fill out!!!** Woo hoo!!! If you are one of the states that is a month or two behind in submissions, feel free to just fill out one survey covering previous months – be sure to indicate the appropriate months in the "Months Covered" field. Information from this last survey will be used to complete a version 2 of the above two deliverables.

Thanks again to everyone for all your efforts and input throughout the pilot.

Subject: Reminder about S2S Surveys and Touch Point 4

The purpose of this email is to provide a reminder about providing information about Alaska's experiences with the S2S Pilot. We need this information to ensure the pilot report and best practices recommendations are as complete and accurate as possible.

All pilot states agreed to gather information through the surveys that were developed under the guidance of the S2S Pilot Working Group. There are three of these surveys, and they are all important because each has unique questions.

The Implementation Survey is intended to gather information about the state's deployment of S2S. Each state should submit this after it's go-live. Could Alaska please complete and send this survey as soon as possible?

The Monthly Survey gathers information about a pilot state's on-going usage of S2S. We particularly need information about situations discovered where S2S has uncovered attempts to obtain DL/ID cards to avoid driving restrictions or other types of fraud. This would include cases that were found during the resolution of potential duplicate lists. Since the pilot will soon end, Alaska only needs to submit a monthly survey covering February 2107, which is due on March 7?

The Survey after Operations gathers information about the state's views and experiences with S2S after it has had it running for some time. As we get closer to the end of the pilot, the amount of time a state has to operate the pilot is growing shorter, so we need to have states submit this survey sooner. Could Alaska please submit this completed survey at least a few days prior to our Touch Point #4 call?

Touch Point 4 is also an important tool for gathering information for the pilot evaluation report and best practices recommendations. This touch point primarily involves interviews with key personnel about a pilot state's experiences implementing and using S2S. While previously we visited pilot states, we have switched to doing these interviews by conference call. These conference calls usually last around 90 minutes. We would like to schedule Touch Point 4 with Alaska in late March, preferably between March 215 and March 28. Can you suggest some dates for this?

Subject: RE: AK - NMVTIS Re-write AMIE Online Updates/Inquiries Meeting Minutes

Hi AK,

Could you please provide me a VIN you would like to use for the response to inquiry. It would be best if you can use a VIN that has all the data elements and occurrences that you plan to respond with filled and that you respond with both the HC and H1 if you provide lien holder overflow.

Also, please provide a VIN that I can perform a change state of title on so you can respond with the HD (please check that all fields you plan to return are filled).

Once I have these I will update the test data spreadsheet with the VINs we used and perform the inquiry and CSOT on those VINs. You will be responsible for checking your responses for this testing.

Below are some times we are available to meet weekly. Please let me know if either of these work for you:

Starting Tuesday, 3/14 from 2:00 – 3:00 pm ET (10:00 – 11:00 am AKT)

Starting Tuesday, 3/14 from 4:30 – 5:30 pm ET (12:30 – 1:30 pm AKT)

Ashish Regmi		<input type="checkbox"/>
Madhu Chandrasekharan		<input checked="" type="checkbox"/>

Meeting Schedule/Agenda:

- a. S2S Implementations.....01 min
 - ~~Idaho – August 21st~~
 - ~~South Dakota – October 2nd~~
 - ~~Nebraska – October 16th~~
 - ~~Wyoming – November 20th~~
 - ~~Virginia – December 4th~~
 - ~~Delaware – December 18th~~
 - ~~Alaska – January 29th~~
 - Arizona – February 26th (14th state to join S2S)
 - Mississippi - June 2017
- b. CDLIS Working Group/PRC Meetings.....01 min
 - Madhu be taking over facilitation
- c. CDL Coordinators Meeting.....05 mins
 - CDLIS Working Group Meeting?
 - CDLIS Working Group Dinner?
- d. NR01 MEC Verification Inquiry Documents.....02 mins
 - Approved by FMCSA 03/01
 - AAMVA working to post to AAMVA website
- e. NR02 MEC Transmission Documents.....02 mins
 - Voting deadline 03/06 COB – 7/12 states responded
 - AAMVA sending the documents to FMCSA for review and approval
- f. CDLIS Working Group Participation25 mins
 - Review attendance and voting stats
 - Next steps
- g. Change Proposal 387 - Add new value 'No Restrictions' to the Medical Certificate Restriction Code (DMCRES).....15 mins
 - Review CP
- h. Medical Variance Validation Issue.....30 mins
 - Review new proposed solution
- i. Pending Discussion Topics.....05 mins
 - MO/AR Creating MPR with SSN as DLN duplicate MPR issue
 - Fix CSOR inconsistencies – CSOR should not be performed prior to issuance
 - Can we phase out the Truncation and Transliteration Indicators?

- Do we need a new restriction code value for state variance?
- Remove Redrive info in SPEXS

j. Summary.....05 mins

Notes, Decisions, Issues:

CDL Coordinators Meeting-

AAMVA added this agenda topic to discuss plans/events for the CDLIS Working Group at this year's CDL Coordinator meeting.

- CDLIS PRC group would like to have a CDLIS WG meeting on Monday night 04/10.
 - AAMVA will make these arrangements. If a meeting room is not available, a nearby restaurant would also be ok.
- CDLIS PRC group would like to reserve seats for the CDLIS WG to sit together during certain sessions. If possible reserve a number of seats on several rows instead of taking up an entire row for the group, as it makes it hard to communicate with members at the other end of the table. If possible reserve additional seats in the area for other staff from WG states that will also be attending, this will help to resolve the issue of sitting with your state group vs sitting with the WG.
 - AAMVA will make placeholder tent cards and reserve the seats.
- CDLIS PRC group would like to have a CDLIS WG dinner. Wednesday night would be preferred.
 - AAMVA will begin to make this arrangements and send an invite out to the group.
- AAMVA will need to know who from the WG will be attending the CDL Coordinators meeting for head count.

CDLIS WG Participation-

AAMVA put together a document that shows the CDLIS WG participation by state since the updated charter was reviewed on 10/18/2016. Two tables were discussed, the first showing attendance at meetings from 10/18-Present, the second showing which states responding to voting requests and surveys since 10/18/2016.

- The CDLIS PRC concluded that based on the participation document, there are 2 states that require attention:
 - Colorado – missed several meetings and voting requests over the last few months. The representative was however out of office for an extended period of time during this period. Since returning, participation has increased. The CDLIS

PRC agreed to keep an eye on participation for CO, no action will be taken at this time.

- Massachusetts – has not been participating over the last few months, only present for 2 out of 10 meetings and has not responded to any voting requests. The CDLIS PRC agreed that Massachusetts needs to be replaced on the group.

Change Proposal 387-

AAMVA reviewed CP-387 with the group. This documents proposes to add a new restriction code value of '0- No Restrictions' to DMCRES to support the CDLIS WG's decision to add the value as a part of NR02 to make DMCRES required on MECs from the NR.

- The CDLIS PRC voted and approved the document on the call (JoLynn, Mina, Kami, Andy, Russ and Patrick all approve)
- The CDLIS PRC agreed that since the element has been added by the WG as a part of NR02 that this CP doesn't need to be reviewed with the full group for approval.

Medical Variance Validation Issue-

AAMVA reviewed slides that addressed an issue with MEC validations for Medical Variances with the CDLIS WG back in Jan 2017. After the call, Andy had suggested a different approach to resolving the issue which is to separate the Medical Variance data (effective/expiration dates) from the MEC data, as they are not the same. This would allow states to send Medical Variance dates even in the event that person's certification status = blank. AAMVA updated the slides to review the proposed solution with the PRC.

The updates to the slides suggested to remove the Medical Variance Data elements from the MEC data elements for the appropriate validation (shown in the slides), the updates also suggested to make updates to the appropriate rows of Appendix D in the CDLIS SPM to separate the Medical Variance data from the MEC data.

- AAMVA pointed out that even with these changes, there would still be an issue with the validations that checks for a V license restriction and the W/E and/or SPE dates as the SDLAs currently have 10 calendar days to enter the W/E and/or SPE dates to the driver's record. This means there will still be cases where there is a 'V' on the license but no MEC data, or Medical Variance data on the record yet.
- Alaska offered that it would be better to get Medical Variance data if it is available rather than the validations stopping it. The preferred solution would be to remove both validations and make the updates to Appendix D so that the data can be sent without error.
- The new proposed updates seemed to cause additional confusion about the issue and the group could not come to a conclusion on how to approach it again with the larger group.

- AAMVA took an action item to update the slides based on the conversation at this meeting and send it out to the PRC for review. The updated slides will be reviewed by PRC before being presented to the full WG.

Action Items:

<i>Action Item</i>	<i>Assigned To</i>	<i>Status</i>
1. Reach out to Pam to discuss the possibility of having F2F meetings for the CDLIS WG as an incentive of membership	Mindy	In Progress
2. Make arrangements as mentioned above for CDL Coordinators Meeting	Mindy/Madhu	In Progress
3. Update Medical Variance Validation Issues slides based on conversation	Mindy/Madhu	Pending

Next Meeting: Tuesday April 4th 2017, 11:00-12:30 EDT

Nichole,

Thanks for submitting these surveys. We now have only two things left to do with AK related to the S2S Pilot, the After Operations Survey and the Touch Point 4 conference call. These are important because we need them to produce the second (and final) versions of the Best Practices and Pilot Eval Report documents. My earlier email, sent on February 22, contains more information about the After Operations survey and Touch Point 4.

We would like to do the Touch Point 4 call with you sometime between March 15 and March 28. Could you please suggest some dates/times that would be good for the Alaska staff?

Thanks,
Richard A. Carter

Subject: S2S Pilot Working Group Tasking

Good afternoon all,

Attached please find the minutes from Tuesday's Working Group call, along with a draft agenda for our next call. As mentioned on Tuesday, while our responsibilities as the pilot Working Group are complete, several states have requested that we continue meeting at our regularly scheduled time until the post-pilot WG sub-group is spun up. The purpose is to provide states with a venue for sharing information and suggestions

related to S2S, talk about technical issues, potential duplicate situations, etc. The agenda topics will be driven entirely by you, the States. Please consider additional topics that you would like to discuss, and if possible, send our way prior to the next call. Please note that our next call is scheduled for **Tuesday, March 7th, at 2pm eastern.**

Much thanks to all of you that have submitted your completed surveys throughout the S2S pilot. The information gathered has been extremely valuable in completing the S2S Pilot Evaluation Report and the S2S Best Practices document. **As a reminder, the Survey of S2S Pilot State Monthly Activities covering the month of February is due on March 7,** and is also attached to this email. The good news is that **this is the last monthly survey to fill out!!!** Woo hoo!!! If you are one of the states that is a month or two behind in submissions, feel free to just fill out one survey covering previous months – be sure to indicate the appropriate months in the “Months Covered” field. Information from this last survey will be used to complete a version 2 of the above two deliverables.

Thanks again to everyone for all your efforts and input throughout the pilot.

Subject: S2S Pilot Working Group Tasking

Good afternoon all,

Attached please find the minutes from Tuesday's Working Group call, along with a draft agenda for our next call. As mentioned on Tuesday, while our responsibilities as the pilot Working Group are complete, several states have requested that we continue meeting at our regularly scheduled time until the post-pilot WG sub-group is spun up. The purpose is to provide states with a venue for sharing information and suggestions

related to S2S, talk about technical issues, potential duplicate situations, etc. The agenda topics will be driven entirely by you, the States. Please consider additional topics that you would like to discuss, and if possible, send our way prior to the next call. Please note that our next call is scheduled for **Tuesday, March 7th, at 2pm eastern.**

Much thanks to all of you that have submitted your completed surveys throughout the S2S pilot. The information gathered has been extremely valuable in completing the S2S Pilot Evaluation Report and the S2S Best Practices document. **As a reminder, the Survey of S2S Pilot State Monthly Activities covering the month of February is due on March 7,** and is also attached to this email. The good news is that **this is the last monthly survey to fill out!!!** Woo hoo!!! If you are one of the states that is a month or two behind in submissions, feel free to just fill out one survey covering previous months – be sure to indicate the appropriate months in the “Months Covered” field. Information from this last survey will be used to complete a version 2 of the above two deliverables.

Thanks again to everyone for all your efforts and input throughout the pilot.

Subject: RE: S2S Pilot Working Group Tasking

Nichole,

Thanks for submitting these surveys. We now have only two things left to do with AK related to the S2S Pilot, the After Operations Survey and the Touch Point 4 conference call. These are important because we need them to produce the second (and final) versions of the Best Practices and Pilot Eval Report documents. My earlier email, sent on February 22, contains more information about the After Operations survey and Touch Point 4.

We would like to do the Touch Point 4 call with you sometime between March 15 and March 28. Could you please suggest some dates/times that would be good for the Alaska staff?

Thanks,

Richard A. Carter

Subject: R-IV Travel Grant

Hi Marla,

I'm delighted to advise that Region IV President Pat Kohler has approved your travel grant request. Expenses to be covered by the Region includes airfare, four (4) nights lodging, and your conference registration fee. Is it possible for your agency to cover your registration fee? If not, the Region certainly can, but if so, it will allow travel grant funding to be shared with more conference attendees. Please let me know before you register for the conference.

I will make your hotel reservations. Please provide the following information so I can book your flights.

Full name as listed on DL/passport:

Date of birth:

Cell phone number:

Departure airport:

Date of departure:

Time of departure / airline preference: *(If you can find a specific flight you prefer, please include that info as it will save time and effort and ensure you get the flights you want):*

Return date:

Return time / airline *(ditto above)*:

Seat preference for non-Southwest flyers (aisle or window):

Frequent flyer number:

Please let me know if you have questions or need additional information. I appreciate receiving your personal information and travel no later than March 24 to allow us to take advantage of early rates.

Thanks!

Sheila

Subject: AAMVA Event - 2017 April CDL Coordinators & IT Meeting Registration Invitation

2017 CDL Coordinators /IT Meeting
April 11 - 13, 2017
St. Louis, Missouri

Dear Mina:

Thank you for letting us know that you plan on attending the CDL Coordinators /IT Meeting at the Hyatt Regency St. Louis at The Arch located at 315 Chestnut St., St. Louis, MO 63102; phone: 314-655-1234.

The following information is provided in order to assist you in registering and making hotel reservations.

Hotel Accommodations: AAMVA will make hotel reservations for all attendees at the Hyatt Regency St. Louis at The Arch located. Please do NOT contact the hotel directly. You will be asked to provide your check in and check out dates during the online registration process.

Airport: St. Louis Lambert International Airport

Arrival & Registration: Monday, April 10

Meeting Dates: Tuesday, April 11 - Thursday, April 13

Departure: After 7:00 pm on April 13 or anytime April 14

Meals: No meals will be provided during the meeting. Attendees will be responsible for all meals each day and will be reimbursed for meals on a per diem basis. Please see the January 31, 2017 meeting announcement email for the per diem amounts.

Attire: Casual

Meeting Registration: Please register online now using the link: [Register Now](#) and complete your registration no later than Monday, March 13, 2017. AAMVA will forward all the names and arrival / departure dates to the hotel. Confirmation numbers will be emailed to all attendees closer to the meeting date. If you are having problems with logging into "My AAMVA" to register, please follow instructions in this link for assistance: <http://www.aamva.org/workarea/DownloadAsset.aspx?id=4023>

FMCSA Attendees Only - Once you get to the Hotel Reservation portion of the registration, please change the Payment Method to "All Charges to be Paid by Individual." The field has been defaulted otherwise to accommodate the large number of jurisdictional participants.

Airline Reservations for Jurisdictional Attendees Only - You will be receiving an email from AAMVA (Member & Conference Services) asking you to make your airline reservation using our online reservation tool called Concur. Please follow the steps carefully to complete your reservation. Please note that your flight reservation will not be complete until you are at the end of the booking steps and click on the "purchase ticket" button. This will be mentioned in the instructions as well.

Transportation to Hotel: Reservations are strongly suggested but not required for the St. Louis, Missouri airport shuttle. Please call 24 hours a day to (877) STLGOVAN (785-4682). The cost is \$25 for one person one way or \$45 roundtrip for the St. Louis airport shuttle

Travel Questions: Damian Bass, dbass@aamva.org, 703.908.5773

If you are a member of a hotel loyalty program please note that some hotels require that you self-pay your hotel room. Loyalty programs often entitle you to hotel points or other amenities. If you prefer to ensure point accumulation by paying for your lodging directly and then getting reimbursed by AAMVA (as opposed to having AAMVA pay the hotel directly), please change the Payment Method to "All Charges To Be Paid By Individual" as you register online for the meeting.

Subject: Final DIVS Newsletter Issue 13 - March 2017
Attachments: DIVS Newsletter Issue 13 2017-03-07.pdf

Good afternoon,

On behalf of Major Kenneth Brown, Mississippi and Administrator Christine Nizer, Maryland:

Attached is the 2017 Spring DIVS Newsletter (Issue 13) which contains information on the State to State Verification service (S2S). We hope you find this issue to be informative and beneficial in increasing awareness of the benefits that the State to State Verification service offers to all states and stakeholders. The pilot states have provided their perspective on the benefits they are realizing from use of the service as well as the lessons they have learned up to this point in the program.

This is the final newsletter from the DIVS organization. The ownership and governance of the S2S service was recently transferred to AAMVA and the strong history of jurisdictional input into the service will continue through AAMVA's newly formed S2S Governance Committee. If you have questions regarding the State to State Verification Service, please contact Loffie Jordaan at LJordaan@aamva.org.

Please do not hesitate to reach out with questions regarding the DIVS program or the State to State Verification service.

Sincerely,
Tom

Thomas L. Osterbind

The DIVS Report

State to State Verification Service (S2S)

In This Issue: p. 3 Determine if and applicant has DL/ID - p. 4 S2S Pilot Evaluation Report and Best Practices - p. 6 State Volunteer Recognition and Grant Funding - p. 7 Message from Anne Ferro, President & CEO, AAMVA

Message from Christine Nizer

On March 3, 2017, DIVS held its final Executive Committee meeting and when that meeting was adjourned, the DIVS Program was officially concluded. We have accomplished much over the past 8 years and there are many people to thank for that. First and foremost, I want to thank the DIVS Executive Committee, composed of the states of Florida, Indiana, Kentucky, Mississippi, Nevada, Wisconsin and Maryland. The Executive Committee put in many long hours, working diligently as a team to provide direction for the program and review and approve the countless deliverables created in support of a more secure driver's license issuance process.

I also want to thank all of the states that participated on the DIVS Board of Directors and on DIVS Working Groups and committees. You were the source of so many important concepts and ideas and your guidance and contributions to the Program are much appreciated.

The results of the DIVS Program are demonstrated by evaluating the various pilots we conducted. The states that stepped up and participated in pilot operations invested considerable time, effort and resources in order for our concepts and ideas to be tested and evaluated. Thank you to those that participated on the "bleeding edge" and took the time to provide the feedback we needed to evaluate the program. We are grateful for your leadership.

AAMVA was involved from the beginning in the DIVS Program. Both the staff and Board of Directors provided invaluable expertise and support for development, implementation and governance of the various electronic tools supported by DIVS and will now serve as the governance entity for these important electronic verification services. Many thanks for all your contributions.

Last, but certainly not least, my biggest thank you is for the State of Mississippi. When they were given the responsibility for the program, they quickly understood that they needed to recruit other states for the electronic verification tools to reflect the interests of more than just Mississippi. They worked with FEMA and DHS to secure the funds needed for the Program and to procure the assistance of Clerus Solutions and AAMVA. Their leadership was exceptional and we cannot thank the Mississippi Team enough for all they have done to benefit all jurisdictions.

I am very proud of the collective effort of the jurisdictions and what we have accomplished together to make the driver's license issuance process more secure. The work completed under the DIVS program is a very solid beginning but our work is not done. Now, we need to grow the use of these electronic tools so that driver license and identification card fraud can be detected and deterred by all US driver license issuance agencies.

It is all our responsibility to continue to ensure that special attention is paid to S2S. S2S is state owned and state driven. The states must take a strong leadership role with both growing the use of the service and governing its use and operation. AAMVA has established a new committee, the S2S Governance Committee, for just that purpose. The charter for that committee is included within this newsletter. The S2S pilot has shown the tremendous potential for S2S to help us detect and deter driver license and identification card fraud. S2S will only be successful over the long term if states take active ownership of the governance of the program, including bringing fellow jurisdictions on board. Congratulations to all involved for your great effort. Working together we will realize the full potential to secure our driver's license and identification card issuance process.

Message from Major Brown

Mississippi is very pleased with and proud of the success of the DIVS Program. The states of Florida, Indiana, Kentucky, Nevada and Mississippi met for the first time in November 2008, formally founding DIVS in June 2009. Our objective was twofold:

- To provide states with electronic tools that could be used to verify the identity of a person applying for a driver's license or identification card and
- To provide states with a means to determine whether or not the applicant already held a credential issued by another state, regardless of whether the person declared it on their application.

Those objectives have been successfully met, thanks to the involvement of the thirty-four states that have participated on various DIVS subcommittees and working groups. Last year, we published an Interim Report that summarized the results of the program. An updated version of that report, the Final DIVS Report, has now been published and is available from either Mississippi or AAMVA.

This issue of the newsletter, the final DIVS newsletter, will focus on the results of the State to State Verification Service (S2S) pilot. The pilot has shown both the anticipated benefits and some surprising additional benefits. Now that the pilot has come to a close, all states have access to documentation that describes the service, the results of the pilot, and information regarding the effort the pilot states had to make to join and use the service. S2S is an extraordinary tool that has already significantly helped states issue credentials with more integrity. If all states were to participate, we could finally achieve our long-standing goal of "one driver/one license". I strongly encourage all states to consider implementing S2S.

I want to thank all of the states that have contributed to the success of DIVS and want to commend the staff at Clerus Solutions and the AAMVA staff for the outstanding work they have done on behalf of Mississippi and DIVS.

Combined Effect of the DIVS Program

"Secure identification should begin in the United States. The federal government should set standards for the issuance of birth certificates and sources of identification, such as drivers' licenses."

~ The 9/11 Commission Report

"S2S pilot results corroborate the value of the collective efforts of state Driver Licensing Agencies. Combatting issuance fraud is ineffective at best without a modern toolset. After years of discussing our expectations for S2S to assist in detecting and deterring fraud, it is gratifying to realize how potent a tool it can be. Indiana encourages all states to make use of the S2S service as broader use will improve the effectiveness of the tool. The effectiveness is also improved when participating states proactively collaborate, as a part of daily operations, to research and resolve potential fraud. Indiana and other S2S participants have benefited greatly from this ongoing collaboration. "

~ The Indiana Team

Using S2S to Determine If an Applicant Already Has a DL/ID Card

The successfully completed S2S Pilot yielded a wealth of information. We have good information about the level of effort required for a state to implement and participate in the program. We also better understand how the results returned by the service will affect the day-to-day operations of a state's driver license issuance program. Most importantly, we can say that the pilot states all believe that the results are worth the effort.

To implement and operate S2S, there are two key activities that a state can expect will potentially require significant resources:

- Development and implementation of S2S within each state's existing environment
- Resolving potential duplicates identified by the service

Development & implementation costs are very traditional concerns for projects of this type. The level of effort needed for each of the pilot states to implement have varied considerably. We have determined that many factors besides the size of a state can affect the resources that will be needed. Factors such as the state's policies, the level of automation in its driver licensing systems, and the availability of staff experienced with other AAMVAnet based systems may all affect the level of effort needed to implement S2S. Estimates of the cost for a state to implement range from around \$300 thousand to over \$2 million. For this reason, a thoughtful look at the information each pilot state provided about its level of effort in the S2S Pilot Evaluation Report is more meaningful than any generalized estimate. This report can be obtained from AAMVA.

Resolving potential duplicates is another key consideration. A potential duplicate in this context means that the service has indicated that a given person appears to have more than one US-issued credential. Potential duplicates can arise during the day-to-day operations of S2S and also when states load their pointers when implementing the service. When duplicates are discovered at the time when pointers are loaded, it is because of credentials that were issued in the past, prior to S2S. The manual processes that states used prior to S2S did not discover or prevent them, a situation exploited by those that wished to commit driver license and/or identification card fraud.

Pilot states worked together to determine the best ways of resolving potential duplicates, and these recommendations can be found in the S2S Best Practices, also available from AAMVA. The resources needed to resolve duplicates decreased as the pilot progressed because states gained a better understanding of the problem and identified more efficient means to address it.

Many of the potential duplicates are the result of the flaws inherent in the manual process used prior to S2S. However, many cases have been discovered that pose some form of risk to the public, such as:

- Drivers holding a CDL in one state and a non-CDL license in a different state
- Drivers holding credentials in more than one state in order to:
 - Avoid driver control actions
 - Commit identity theft
 - Obtain state government benefits to which the cardholder was not entitled
 - Avoid paying taxes or reduce their tax burden

The duplicate resolution process will be ongoing and intensive until all states participate in the Program.

The most important conclusion reached during the S2S Pilot is that all the pilot states feel that the benefits they have gained from using S2S outweigh the effort needed to incorporate it into their driver licensing operations.

"State to State has the flexibility to allow each state to follow their own laws and regulations for the issuance of multiple credentials without interfering with how other states process their pointers."

Now Available: S2S Pilot Evaluation Report and S2S Pilot Best Practices Document

As the S2S Pilot period comes to an end, the S2S Pilot Working Group has put the final touches on two of its most important deliverables; the S2S Pilot Evaluation Report and the S2S Pilot Best Practices Document. This article provides a high-level summary of evaluation findings and recommended best practices based on pilot State experiences and lessons learned spanning March 2015 through March 2017. Both comprehensive documents are available to all interested States via the AAMVA web-site at <http://www.aamva.org/State-to-State/>, or by contacting Loffie Jordaan at ljordaan@aamva.org.

All indications from the pilot's evaluation reflect that the S2S Verification Service successfully satisfies all original design requirements and goals established for the pilot program. Fourteen pilot States have been able to successfully implement the service within the pilot period, incorporating its added functionality into daily operations related to credential issuance processes.

All pilot States have shared that they've realized significant and tangible benefits from using the service. One of the most notable benefits has been the measurable improvements in fraud detection and prevention. Largely attributed to the automated visibility into non-commercial credential issuance across participating States, many instances of a given person holding multiple credentials concurrently have been identified. Some of these have involved multiple base driver licenses, others a driver license in one state and an identification card in another, and still others both a commercial license and a non-commercial license being issued to the same person concurrently by two different States. Participating in S2S has allowed States to identify and resolve such instances, which has served to enhance their identity management capabilities and improve the integrity of the credentials they issue.

Another significant benefit of participation cited by pilot States has been the replacement of various manual processes with automated functionality that has proven to be more timely and accurate state-side. This has been seen in the electronic exchange of non-commercial driver history when an existing credential is surrendered by the applicant or when a pointer exists and is pulled from the old State to the new State. It has also been realized in the electronic notification of issuance to a State known to have previously issued a credential to the applicant.

While extremely pleased with the overall pilot experience, pilot States have identified a number of enhancements and recommended improvements to consider moving forward. Following are a few key items recommended by the pilot States for future consideration.

- Improving the overall approach to and scope of Casual and Structured Testing such that States are able to maximize their testing efforts related to state-side processes, multiple state interaction, and other application (e.g. PDPS) interaction, while at the same time minimizing the potential impact of testing on unrelated software releases state-side
- Adding the capability for States to electronically report and negate out-of-state convictions and withdrawals for non-commercial violations, including the standardization of ACD Codes related to non-commercial violations
- Adding the capability for States to electronically obtain the implementation level (CDLIS-only vs. S2S participant) of other States
- Incorporating a more comprehensive set of validations within the service for non-CDLIS-related driver history exchanged between States
- Gaining consensus among all participants regarding the loading of and retention requirements for pointers associated with expired, cancelled and/or revoked credentials
- Incorporating additional functionality within the service to help States research and resolve potential duplicates.

"Participation is essential to maximize State to State's power in combating identity fraud and to achieve the 'one driver, one credential' vision nationwide. DIVS and AAMVA made the process seamless and provided whatever support we needed as we implemented the program. As more states come aboard, Virginia DMV will happily offer our support, just as other early adopting states assisted us along the way."

~ Richard D. Holcomb, Commissioner, Virginia DMV

- Enhancing the service's pointer index search functionality to support more advanced name matching features such as common name variants (e.g. Bill/William), "intelligent" edit distances that take into account the closeness of keys on a terminal, and accommodating field length limitations that may have applied to older data.

Pilot States have also identified a number of recommended best practices and lessons learned based on their personal experiences during the two-year pilot period. Some are specifically related to the planning and implementation of S2S, while others are related to ongoing operational aspects surrounding the use of the S2S Verification Service as a part of issuance.

Key recommendations fall into the following general categories and are dealt with in detail in the S2S Pilot Best Practices Document; leadership, planning and communications, business impact assessment, development and testing, go-live preparations, user interface updates, training, communications, back office operations, issuance considerations and potential duplicate resolution.

One recommendation of particular note, is to focus on the business impact assessment associated with implementing S2S very early on in the project life-cycle. Pilot States emphasized how important it was for them to allocate sufficient time, resources and expertise upfront to review a comprehensive array of business use cases and gather consensus state-side as to what appropriate course(s) of action to take in each case. In several instances, States actually revisited and revised existing State policies based on their impact assessment.

Another key recommendation is to identify specific communication points between the customer and the State that inform and educate the customer about the potential cancellation of credentials should state policies or federal regulations be violated (e.g. multiple concurrent driver licenses). In particular, pilot States emphasized the importance of customer service and transparency, to ensure that the customer understands that;

- 1) any credential already issued to him/her by another State may be cancelled as a result of the current credential issuance, and
- 2) the current credential being issued may be cancelled in the future if the customer is subsequently issued a credential in another State

While this article only touches on a handful of topics from the S2S Pilot Evaluation Report and S2S Pilot Best Practices Document, States interested in implementing the S2S Verification Service are strongly encouraged to read both documents in their entirety as part of their exploratory and planning processes. States should be able to realize significant savings in their overall implementation efforts and ongoing operations by benefiting from their peer State experiences during the pilot period.

"There are a number of benefits for states using S2S. During implementation, Arkansas had a great opportunity to clean up data inconsistencies within our own system. We were able to resolve many duplicate records within our system as well. The go live process, as well as the daily operations resulted in many potential duplicate records, most of which could be resolved using an automated process, some required human eyes and research, and some required an effort from both states involved to determine a match. The service has proven invaluable in fraud detection. Arkansas has discovered cases of identity theft, with the imposter being the person with the Arkansas credential, and with the victim being the person with the Arkansas credential. As more states come on board, this program could be one of the most valuable tools available in the fight against identity theft. I believe that we owe our citizens the peace of mind of knowing that every effort, and every tool available to us, is being used to secure their identity by keeping another person from being able to have a credential fraudulently issued in their name. Don't be intimidated by the challenges of implementation, these can be quickly resolved. If clean data, fraud detection, and one credential/one record are important to your state, this is a great opportunity for you. "

~ Anita Boatman, Assistant Administrator,
Office of Driver Services for the state of Arkansas

Recognizing Our Volunteers:

We would like to recognize a total of 35 States and their volunteers who gave of their time and expertise to the DIVS projects, committees and working groups. We also want to recognize the **pilot states** that implemented and evaluated the services. Your contributions have been invaluable. Thank you!

DIVS Board of Directors

California, Florida, Georgia, Hawaii, Indiana, Idaho, Iowa, Kentucky, Louisiana, Maryland, Mississippi, Nevada, New Jersey, West Virginia, Wisconsin.

DIVS Board of Directors Executive Committee

Florida, Indiana, Kentucky, Maryland, Mississippi, Nevada, Wisconsin.

SSOLV Working Group

California, Iowa, Louisiana, Maryland, Massachusetts, Mississippi, Nevada, South Carolina.

SAVE & Verification of Lawful Status (VLS) Working Groups

Birth Certificate and DL/ID Verification Working Groups

Arizona, Louisiana, Mississippi, North Dakota.

S2S Working Groups and Committees

Alaska, Arizona, Arkansas, California, Delaware, Florida, Georgia, Hawaii, Idaho, Indiana, Iowa, Maryland, Massachusetts, Mississippi, Nebraska, Nevada, North Carolina, North Dakota, Pennsylvania, South Carolina, South Dakota, Virginia, Wisconsin, Wyoming.

Grant Funding for S2S

NHTSA, DHS and FMCSA have annual grant programs that are available for states that wish to offset costs associated with the implementation and operation of the S2S service. Several states are making use of these funding sources to implement the service and to resolve potential duplicates identified by the service. NHTSA funding is available through the 405(c) grant program administered by each state's highway safety office. States can also work with their DHS office to pursue grant monies available under the State Homeland Security Program (SHSP). The use of grants from FMCSA is another option available to states. FMCSA program improvement grants can be used by states to resolve the large number of potential duplicates, especially those involving a CDLIS pointer and a non-CDLIS pointer. States applying for FMCSA grants should describe the benefits to the CDL program. NHTSA, DHS and FMCSA have acknowledged that S2S is an eligible use of these grant monies, which are available annually to all states.

For more information concerning the NHTSA, DHS and FMCSA grant programs please visit:

Message from Anne Ferro, President & CEO, AAMVA

As was noted in the previous issue of the DIVS Newsletter, the governance function of S2S will soon transition to an AAMVA committee. Specifically, the AAMVA Board of Directors has authorized the creation of the S2S Governance Committee to shoulder this responsibility. The Committee's charter allows for an equitable division of responsibilities between the Board and the Committee. It maximizes the Committee's ability to govern S2S, and also allows the AAMVA Board to manage the financial support provided to S2S.

At this time, the S2S Governance Committee is in the process of being formed. Everything is proceeding according to plan, and the Committee is expected to be up and running in time to take the baton from DIVS.

AAMVA is looking forward to being a home for the S2S program, creating an environment within which it can continue to grow. Growth is envisioned in the number of states who are participating as well as for the functionality of the program. The more states participate, the better we can serve our vision of safe drivers, safe vehicles, secure identities, and saving lives.

More information is available on the AAMVA website at <http://www.aamva.org/State-to-State/>.

"AAMVA is excited and ready to take on the responsibility of governing S2S," said Jean Shiimoto, Chair of the AAMVA Board of Directors. "'One-Driver, One License' has long been a goal of the AAMVA community, and given how vital S2S is in bringing us closer to this goal, we are eager to take a more direct role in how the service functions."

"S2S is a service that directly benefits participating members, so it is a natural fit for AAMVA members to be directly involved in how it is administered through the S2S Governance Committee," said Chrissy Nizer, Administrator of the Maryland MVA, Chair of the DIVS Executive Committee, and also the Chair of the State-to-State Governance Committee. "It is our hope that additional states will recognize the benefits their jurisdictions can realize through S2S, and will participate in the service."

This Document was prepared under a grant from the Federal Emergency Management Agency's (FEMA) Grant Programs Directorate (GPD) United States Department of Homeland Security. Points of view or opinions expressed in this document are those of the authors and do not necessarily represent the official position or policies of FEMA/GPD or the U.S. Department of Homeland Security.

Subject: AAMVA Workshop 2017 - See You in the Twin Cities!

Twin Cities Awaits

See you next week in Minneapolis!

We're looking forward to seeing you next week at the 2017 Workshop & Law Institute. All conference sessions and events will take place at the conveniently located Hyatt Regency in Downtown Minneapolis. Get ready to learn about a variety of topics facing your jurisdiction as well as meet with industry leaders providing products and services to improve your business.

If you're wondering what to pack, the Workshop is a business casual event. No ties or fancy business suits required.

If you need any assistance or have any questions once arriving at the Hyatt, AAMVA staff will be wearing white shirts with the AAMVA logo. We will be ready to help!

Great Expectations

Now that we know you're on your way to join us, we want to know what you're expecting. Send us a note at info@aamva.org to let us know your goals for your time at the Workshop & Law Institute.

- What do you expect to get out of your time in Minneapolis?
- Anything specific you're hoping to learn more about?
- What are the key take aways that will make your Workshop experience worth the time and effort?

In the opening session, President & CEO Anne Ferro will be sharing a summary of attendee expectations and we will work together to track our progress and discuss how well we did by the end of the conference on Thursday afternoon.

It's Not too Late to Showcase Your Brand

Companies and organizations can support the Workshop in a variety of ways. Showcase your brand by renting exhibit space and demonstrate your products

Full Conference Program Available Online

Plan out your Workshop agenda by scrolling through the full program.

Get Ready for the Twin Cities with this Promo Video

Click the link below and get geared up for this year's Workshop!

and services or sponsor meeting materials and events to gain recognition from AAMVA members across North America.

Exhibit space and sponsorship items are still available, but act fast before they sell out next week.

Hi AK,

Could you please provide me a VIN you would like to use for the response to inquiry. It would be best if you can use a VIN that has all the data elements and occurrences that you plan to respond with filled and that you respond with both the HC and H1 if you provide lien holder overflow.

Also, please provide a VIN that I can perform a change state of title on so you can respond with the HD (please check that all fields you plan to return are filled).

Once I have these I will update the test data spreadsheet with the VINs we used and perform the inquiry and CSOT on those VINs. You will be responsible for checking your responses for this testing.

Below are some times we are available to meet weekly. Please let me know if either of these work for you:

Starting Tuesday, 3/14 from 2:00 – 3:00 pm ET (10:00 – 11:00 am AKT)

Starting Tuesday, 3/14 from 4:30 – 5:30 pm ET (12:30 – 1:30 pm AKT)

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: AK - NMVTIS Re-write AMIE Online Updates/Inquiries Meeting Minutes

Hi AK,

Could you please provide me a VIN you would like to use for the response to inquiry. It would be best if you can use a VIN that has all the data elements and occurrences that you plan to respond with filled and that you respond with both the HC and H1 if you provide lien holder overflow.

Also, please provide a VIN that I can perform a change state of title on so you can respond with the HD (please check that all fields you plan to return are filled).

Once I have these I will update the test data spreadsheet with the VINs we used and perform the inquiry and CSOT on those VINs. You will be responsible for checking your responses for this testing.

Below are some times we are available to meet weekly. Please let me know if either of these work for you:

Starting Tuesday, 3/14 from 2:00 – 3:00 pm ET (10:00 – 11:00 am AKT)

Starting Tuesday, 3/14 from 4:30 – 5:30 pm ET (12:30 – 1:30 pm AKT)

Thanks,

Sure Mina. I will send you an email later today with all the details.

For the SSOLV testing – You can do the first round of testing with AAMVA test tools using the AI alternate gap code. However, for the final or end to end test, you will need to test with SSA and they use only Standard Jurisdiction gap codes, you will need to use AK.

For other applications, I will send you highlevel details and would really appreciate if you can also send us your project and Implementation timelines so we are prepared with our resources.

Thank you.

From: Ferro, Anne <AFerro@aamva.org>
Sent: Friday, March 10, 2017 5:48 AM
Subject: Special Welcome to 2017 AAMVA Workshop & Law Institute for First Time Attendees

Dear Colleague:

I am excited to welcome you to the 2017 Workshop & Law Institute! You are joining over 250 other registrants and we are looking forward to spending two informative and educational days together in Minneapolis next week. Since this will be your first AAMVA Workshop, I want to provide you with some specific information to help really maximize your experience.

First Time Attendee Ribbon. When you check in at registration, you will receive a “first time attendee” ribbon. Be sure to put it on your badge so we can introduce ourselves.

Yeah, We Do That! Please mark your calendar to join us 7:30 am Wednesday morning in Nicollet C for this special session that provides an overview of the association, its products and services, and how AAMVA can serve you as a member. I know it’s early in the morning, but it is very worthwhile and we are even serving breakfast!

Welcome Reception. On Wednesday evening we have a Welcome Reception in the exhibit hall from 5:30 pm to 6:30 pm. It’s a great time to decompress from a day full of sessions, network with colleagues, and make new contacts.

Town Halls. Over the years we have discovered that attendees really appreciate being able to come together by discipline and hold an open forum discussion of topics that are on the tops of their minds. We have 4 town halls on Thursday morning – Driver, Law Enforcement, Legal Services, and Vehicle. It’s a great way to discuss topics and issues that were not covered by sessions and to learn from your colleagues.

If you have any questions while at the Workshop, AAMVA staff are there to help. Like you, I will be attending as many sessions as possible and when you see me in the hallways or in the exhibit hall, please stop and introduce yourself. I look forward to meeting you.

Safe travels and see you next week!

Sincerely,

Anne

Hi Susan,

Unfortunately neither of those times on Tuesdays work for me. Is there another day of the week we could use?

Dillon, since you're doing the casual test, could you please respond to Susan's request, and be sure to cc me and David Nolen? Thank you.

Hi AK,

Could you please provide me a VIN you would like to use for the response to inquiry. It would be best if you can use a VIN that has all the data elements and occurrences that you plan to respond with filled and that you respond with both the HC and H1 if you provide lien holder overflow.

Also, please provide a VIN that I can perform a change state of title on so you can respond with the HD (please check that all fields you plan to return are filled).

Once I have these I will update the test data spreadsheet with the VINs we used and perform the inquiry and CSOT on those VINs. You will be responsible for checking your responses for this testing.

Below are some times we are available to meet weekly. Please let me know if either of these work for you:

Starting Tuesday, 3/14 from 2:00 – 3:00 pm ET (10:00 – 11:00 am AKT)

Starting Tuesday, 3/14 from 4:30 – 5:30 pm ET (12:30 – 1:30 pm AKT)

Thanks,

Subject: RE: Structured testing for SSOLV using AI

Hi Sruti,

Thank you for your reply. Can you please let us know what is involved for the first round of testing SSOLV using the AI gap code? Is that a casual test?

Our plan is to go live the first week of December, 2017. So we are coordinating testing for NMVTIS, SPEXS, PDPS, and SSOLV. We are in active discussions with the NMVTIS team already. Here is our current status for each application.

NMVTIS: Currently casual testing. Structured tests can begin as early as April 24, but only if we can return AAMVA's questionnaires this week. As far as we know, all messages, inbound, outbound, solicited, and unsolicited are functioning.

SPEXS: All messages are set up. Most are fully functional, although ROOSW and ROOSC are still having issues. We are awaiting sample Call list formatting from you on these. Casual test plan was sent last July, and we are waiting for you to either send an updated casual test plan or confirm we will be using the previous one. We would like to begin casual testing in 2 weeks, and hopefully begin structure testing in 4 weeks.

PDPS: All messages are functioning, though we are still performing internal tests. We are ready for a casual test plan if you have one. I was waiting on this so as not to overwhelm you. If we have the same tester for SPEXS and PDPS (Siri?) then we'd like to plan to start PDPS testing immediately following SPEXS testing. This should eliminate the need for an additional PDPS regression test.

SSOLV: All messages are functioning, and we are ready to begin testing as soon as you are. However, since we are not ready to change our test environment to AK, we can only go so far with this. We would like to know an approximate amount of time required for SSOLV structure testing, because since we will need to be on AK, it will probably have to come last – like in November, if possible.

We are aware there will need to be smoke tests for all these applications before we go live, so we hope that you can provide an approximate length of time for smoke testing for all these applications so we can plan for it.

I hope that answers your questions!

Subject: RE: Structured testing for SSOLV using AI

Sure Mina. I will send you an email later today with all the details.

For the SSOLV testing – You can do the first round of testing with AAMVA test tools using the AI alternate gap code. However, for the final or end to end test, you will need to test with SSA and they use only Standard Jurisdiction gap codes, you will need to use AK.

For other applications, I will send you highlevel details and would really appreciate if you can also send us your project and Implementation timelines so we are prepared with our resources.

Thank you.

Flag Status: Completed

Hi Dillon,

That works. Please see attached for the updated spreadsheet. You will need to go ahead and send a UA to establish the title on NMVTIS before I can perform the inquiry, CSOT and then later the undo CSOT. If you let me know once the records have been added to NMVTIS I will perform the inquiry and if I get a response I will perform the CSOT on the next VIN. Then you will need to let me know when you are ready for me to perform the undo CSOT.

Thanks,

Following up on my previous e-mail, would the following VINs be acceptable for testing?

AITESTRECORDFORSC
AITESTRECORDFORSD

I believe we will also need to test our ability to respond to NT messages, but in theory that will be done using AITESTRECORDFORSD by initiating an undo.

Subject: RE: AK-AR Duplicates File Processing

Good morning,

The error has been found and corrected. Updated file AK_PROD_AR_AK_DUPL_20170310 has been added to Alaska's /CD34/GoLiveDuplicate folder.

(ignore the file named AK_PROD_IN_AK_DUPL_20170310 – that is also Arkansas' file but I forgot to change the file name when I first submitted).

Thank you!

Subject: AK-AR Duplicates File Processing

Greetings,

Arkansas has informed us that the Duplicate text file has a few lines that begin with " which is causing the file format to be off. The lines are 99, 100, 193, and 197.

Could you please look into this and let me know when it is fixed?

Thanks,

Subject: AZ Bulk Load Results: Potential Duplicates

Greetings,

Arizona successfully implemented S2S during the weekend of February 26th, 2017 and became the 14th participant using the new service.

The Bulk Add process identified **4566 pairs of non-type-7** and **1681 pairs of type-7** potential duplicates between Arizona and Alaska.

The files that contain the details about these records have been placed in the Alaska CD34 output FTP folder identified with the following filenames:

AK_CD34_POTNL_DT7NA_20170225101620_ADD

AK_CD34_POTNL_DUPLC_20170225101620_ADD

You may reach out to the contacts listed below (also copied on this email), to begin reviewing the duplicates.

- Rachelle Johnson - RJohnson3@azdot.gov
- Angie Richardson - ARichardson@azdot.gov

Thanks,

Madhu Chandrasekharan

Hello,

Please find the upcoming training schedule below:

March:

14 TUE	2:00-4:00 PM ET	CDLIS Rules for Driver Withdrawals (intermediate)
15 WED	2:00-4:00 PM ET	CD16 Report Out-of-State Withdrawal (intermediate)
16 THU	2:00-4:00 PM ET	CD17 Negate Out-of-State Withdrawal (intermediate)

28 TUE	2:00-4:00 PM ET	PDPS Interactions (intermediate)
29 WED	2:00-4:00 PM ET	PDPS Broken Pointers Management (intermediate) *New*
30 THU	2:00-4:00 PM ET	PDPS Cleanfile Processing (intermediate) *New*

April:

4 TUE	2:00-4:00 PM ET	CDLIS A Overview (basic)
5 WED	2:00-4:00 PM ET	CDLIS B Inquiry Transactions (basic)
6 THU	2:00-4:00 PM ET	CDLIS C Update Transactions (basic)

11 TUE	2:00-4:00 PM ET	CD01 Search Inquiry (intermediate)
12 WED	2:00-4:00 PM ET	CD02 Verification Inquiry (intermediate)
13 THU	2:00-4:00 PM ET	CD05 AKA Data Inquiry (intermediate)

18 TUE	2:00-4:00 PM ET	CD07 Add New Driver (intermediate)
19 WED	2:00-4:00 PM ET	CD09 Change Data (intermediate)
20 THU	2:00-4:00 PM ET	CD15 Update AKA Data (intermediate)

25 TUE	2:00-4:00 PM ET	CDLIS Resolving Duplicate Pointers (advanced)
--------	-----------------	-----------------------------------------------

26 WED	2:00-4:00 PM ET	CD14 Mark Driver Unique (intermediate)
27 THU	2:00-4:00 PM ET	CD10 Delete Master Pointer Record (intermediate)

Subject: AZ Bulk Load Results: Potential Duplicates

Greetings,

Arizona successfully implemented S2S during the weekend of February 26th, 2017 and became the 14th participant using the new service.

The Bulk Add process identified **4566 pairs of non-type-7** and **1681 pairs of type-7** potential duplicates between Arizona and Alaska.

The files that contain the details about these records have been placed in the Alaska CD34 output FTP folder identified with the following filenames:

AK_CD34_POTNL_DT7NA_20170225101620_ADD

AK_CD34_POTNL_DUPLC_20170225101620_ADD

You may reach out to the contacts listed below (also copied on this email), to begin reviewing the duplicates.

- Rachelle Johnson - RJohnson3@azdot.gov
- Angie Richardson - ARichardson@azdot.gov

Thanks,

Madhu Chandrasekharan

Subject: RE: UNI Call list samples

Good afternoon,

Thank you for working on this. We still do need samples – I've been speaking to my contractors, and specifically they are needing samples of the HA and HW messages in SPEXS. So the sooner you can send us that, the better.

FYI, with a few exceptions (like these messages) we are nearly ready to start planning our casual tests for SPEXS and PDPS. We are going to start with SPEXS as it is the closest to ready. There was a casual test plan sent to them last

summer (attached). Is this the same plan that they will use? We will also need to talk about SSOLV structured testing and what is involved. It's been 10 years since I did that!!

We are tentatively thinking about beginning casual testing in 2 weeks. If the plan will be different, please forward me the new plan.

Will you also be the contact for PDPS testing, or will someone else be doing that? That is probably more like 3-4 weeks before we can talk casual testing – however, it would help to have the plan.

Thank you for all you do ☺

Subject: UNI Call list samples

Good morning,

Our contractor has asked if we can provide them with call list samples. They seem to think it's something AAMVA can provide. Is it? I don't entirely understand what it is they want from us. Please let me know if I need to ask someone else – I just figured I'd start with you.

Thank you!

Regards,

Mina Peters

Subject: Travel Challenges to Minneapolis for Workshop

THIS IS A GROUP-DISTRIBUTION EMAIL. PLEASE DO NOT REPLY ALL

Good morning. We are looking forward to seeing you in Minneapolis. While the event team is here, we know some of you will face travel challenges over the next couple of days. Please do what you need to travel safely and keep me apprised via email of changes that may require a change to your hotel reservation. We will work with the hotel on your behalf.

Thank you and safe travels.

Subject: Thank you again for reviewing the Leadership Academy applications
Attachments: Class Roster - May 2017 - PDF.pdf

Hi everyone,

I wanted to thank you again for assisting with the application review process for the Leadership Academy. I think this was a more effective approach than just having AAMVA staff review the applications and make the selection.

I also want to apologize because I don't think I ever sent you the final list of participants. If I did send it, please forgive the duplication.

I have attached the class roster. Jeff Closer with the Washington DPS was originally on the list, but had to drop out because of a scheduling conflict.

We are going to try asking prior participants to review applications again for the 2018 Academy.

If you would like to share any thoughts about this process and any suggestions for improvement, please feel free. I am interested in hearing any recommendations you may have.

Thank you.
Janice

Subject: RE: Structured testing for SSOLV using AI

Follow Up Flag: Follow up
Flag Status: Flagged

Mina,

For SSOLV, we typically have the states test with us AA (Pseudo Gap code acting as SSA) so we verify the Message formats and data on the messages before you test with SSA. It is the same set of test cases that we have for the execution with AA and with SSA. Since you will be testing with an alternate gap code, you will need to perform the end to end test with SSA after you have moved all your code to AK gap code.

For the testing timelines for SPEXS and PDPS –

SPEXS (6.0) – Typically, we have seen Jurisdictions take about 6 to 8 weeks. There is a SPEXS Baseline Structured test plan that Jurisdictions take if they are implementing the new system as a 6.0 State. The Test plan is different than the one you used for the 6.0 Structured test, the Baseline Structured test has more scenarios as we will not just be testing the delta between the last release and the new release but we will be testing the whole application. As we do for any other Structured test too, we will execute two passes of the Structured test (First pass and End to End). You know exactly how the First pass and End to End work, the format is not any different than what you already know.

PDPS – The PDPS Baseline Structured test typically take about 4-6 weeks to complete. Similar to the SPEXS Baseline Structured test, PDPS also has 2 rounds of testing (First pass and End to End).

Due to the nature of the SPEXS And PDPS Applications, many Jurisdictions have common processes/code that is shared between the two applications. Hence, the PDPS application does include some SPEXS transactions as well. If you are taking the SPEXS Structured test first and the PDPS next, in case during the PDPS Structured test you make some code changes which would impact the SPEXS transactions, we would request that we go back and test a few test cases for the SPEXS application (kind of a Regression test) in order to ensure the changes have been subsumed gracefully.

The SPEXS and PDPS applications must be tested consecutively and cannot be tested concurrently. So the total testing timelines should SPEXS+PDPS testing timelines.

CD31 – The File formats for CD31 would be verified again as you are doing a System rewrite and would have a new extraction in place for the CD31 execution on the New system. The test would be similar to what we have done during the 6.0 Structured test. In case, there are changes to any IP addresses etc that you have used for sending the CD31 files on your legacy system, please let us know so we can send you the forms for connectivity.

Smoke Test – Since you are using an Alternate gap code for your Structured testing, we would need to perform a smoke test at the end once you have deployed all the code to the AK gap code. This would typically be about 8-10 business days.

I also wanted to make a note that Jurisdictions are required to implement the Structured tested changes to production with 6-8 weeks of completing the Structured test for all applications with AAMVA. In case your implementation will be

longer than the recommended 6 to 8 weeks, in that case, we would require to reassess the timelines and conduct a Smoke test in order to ensure that there were no changes to the Structured tested code. This test would be a subset of the Structured test cases for the SPEXS and PDPS application and a couple of end to end tests for SSOLV.

Is there any other applications that I may have missed that you are implementing on the New System, please let me know.

The Casual test plan for SPEXS is very similar to the Casual test plan we had for 6.0, Siri will be able to send you the updated version. Also, for PDPS as well if you are using the AI gap code then we will need to put in a request with NDR to add the alternate gap code to their System before you begin any testing. For the PDPS Application, we do not have a Baseline Casual test plan but you can certainly use the PDPS Regression test plan we had while you tested the 6.0 Structured testing. We can alter the test plan to include AI instead of AK.

For now, please reach out to Siri with any questions for either of the applications, however, as you get closer, in case the POC changes I will surely let you know.

Please feel free to let me know in case there is anything else I can help with.

Thank you.

Subject: RE: Structured testing for SSOLV using AI

Hi Sruti,

Thank you for your reply. Can you please let us know what is involved for the first round of testing SSOLV using the AI gap code? Is that a casual test?

Our plan is to go live the first week of December, 2017. So we are coordinating testing for NMVTIS, SPEXS, PDPS, and SSOLV. We are in active discussions with the NMVTIS team already. Here is our current status for each application.

NMVTIS: Currently casual testing. Structured tests can begin as early as April 24, but only if we can return AAMVA's questionnaires this week. As far as we know, all messages, inbound, outbound, solicited, and unsolicited are functioning.

SPEXS: All messages are set up. Most are fully functional, although ROOSW and ROOSC are still having issues. We are awaiting sample Call list formatting from you on these. Casual test plan was sent last July, and we are waiting for you to either send an updated casual test plan or confirm we will be using the previous one. We would like to begin casual testing in 2 weeks, and hopefully begin structure testing in 4 weeks.

PDPS: All messages are functioning, though we are still performing internal tests. We are ready for a casual test plan if you have one. I was waiting on this so as not to overwhelm you. If we have the same tester for SPEXS and PDPS (Siri?) then we'd like to plan to start PDPS testing immediately following SPEXS testing. This should eliminate the need for an additional PDPS regression test.

SSOLV: All messages are functioning, and we are ready to begin testing as soon as you are. However, since we are not ready to change our test environment to AK, we can only go so far with this. We would like to know an approximate amount of time required for SSOLV structure testing, because since we will need to be on AK, it will probably have to come last – like in November, if possible.

We are aware there will need to be smoke tests for all these applications before we go live, so we hope that you can provide an approximate length of time for smoke testing for all these applications so we can plan for it.

I hope that answers your questions!

Subject: RE: Structured testing for SSOLV using AI

Sure Mina. I will send you an email later today with all the details.

For the SSOLV testing – You can do the first round of testing with AAMVA test tools using the AI alternate gap code. However, for the final or end to end test, you will need to test with SSA and they use only Standard Jurisdiction gap codes, you will need to use AK.

For other applications, I will send you highlevel details and would really appreciate if you can also send us your project and Implementation timelines so we are prepared with our resources.

Thank you.

Hi Sruti,

I'd much rather have it in writing, if at all possible. I've got so many meetings I don't have time to actually get anything done (much less remember what is said). Can you please just send me the information to review, and if we need to meet, we can set that up?

AAMVA Meets with US DOT Secretary Elaine Chao

On Thursday, March 9, AAMVA Chair of the Board Jean Shiomoto led an AAMVA delegation to meet with U.S. Secretary of Transportation Elaine Chao. Joined by team members Anne Ferro, Ian Grossman, Philippe Guiot, and Cian Cashin, the group briefed Secretary Chao on the long standing partnership AAMVA has had with DOT. With special emphasis on our work with NHTSA and FMCSA, the discussion covered a wide range of transportation topics including driver safety, commercial driver licensing, AAMVA's IT infrastructure, and automated vehicles. The Secretary and her team expressed appreciation for AAMVA's work and committed to partner on shared topics of interest. AAMVA is fortunate to have been one of the earlier stakeholder groups to meet with the Secretary and share with her the important work being done by its members throughout North America.

AAA: Younger Millennials Top List of Worst Behaved Drivers

A new report from the AAA Foundation for Traffic Safety finds that while young millennials are the riskiest drivers – none of us are setting good examples. According to the study, almost 90 percent of young millennials – defined as those between the ages of 19-24 - engaged in at least one risky behavior behind the wheel in the past 30 days, earning the top spot of worst behaved drivers in the US. These dangerous behaviors ? known to increase crash risk ? included texting while driving, speeding and running red-lights. In fact, 50 percent of the young millennials said they'd driven through a red light in the past month. These findings come as U.S. traffic deaths rose to 35,092 in 2015, an increase of more than 7 percent, the largest single-year increase in five decades. [Read more here.](#)

Virginia Presents Rose Crist with 2016 Examiner of the Year Award

During a rally and recognition session with DMV employees held Monday, February 27th, Virginia DMV Commissioner Rick Holcomb presented Rose Crist, Instruction Safety Specialist, Customer Service Management Administration with the 2016 AAMVA Examiner of the Year award. Also present is Derek Grant, Regulatory Supervisor Sr.

Wisconsin DMV Offers Car Buying Tips

With peak demand for vehicle sales occurring in spring and fall, dealers' advertising and enticing discounts may tempt buyers. Before customers sign on the dotted line, Wisconsin Department of Transportation's Division of Motor Vehicles (DMV) reminds customers to do their homework. DMV offers a number of brochures and online resources to buy wisely. The consumer guides include:

- [Odometer Tampering: Tips to spot fraud](#)
- [Sell It Right: Tips for selling your car](#)
- [Smart Buying: Tips for buying a car](#)

DMV's Dealer and Agent Section collaborates with federal, state and local enforcement agencies to deter criminal activity and protect consumers. Duties include regulating wholesale auto auctions and salvage yards, investigating unlicensed sales and salvage activity and investigating consumer complaints. DMV oversees over 3,000 licensed dealers and conducted 1,065 inspections last year.

PARTNER NEWS

AAA: Younger Millennials Top List of Worst Behaved Drivers

A new report from the AAA Foundation for Traffic Safety finds that while young millennials are the riskiest drivers – none of us are setting good examples. According to the study, almost 90 percent of young millennials – defined as those between the ages of 19-24 - engaged in at least one risky behavior behind the wheel in the past 30 days, earning the top spot of worst behaved drivers in the US. These dangerous behaviors ? known to increase crash risk ? included texting while driving, speeding and running red-lights. In fact, 50 percent of the young millennials said they'd driven through a red light in the past month. These findings come as U.S. traffic deaths rose to 35,092 in 2015, an increase of more than 7 percent, the largest single-year increase in five decades. [Read more here.](#)

AAMVA Meets with US DOT Secretary Elaine Chao

On Thursday, March 9, AAMVA Chair of the Board Jean Shiomoto led an AAMVA delegation to meet with U.S. Secretary of Transportation Elaine Chao. Joined by team members Anne Ferro, Ian Grossman, Philippe Guiot, and Cian Cashin, the group briefed Secretary Chao on the long standing partnership AAMVA has had with DOT. With special emphasis on our work with NHTSA and FMCSA, the discussion covered a wide range of transportation topics including driver safety, commercial driver licensing, AAMVA's IT infrastructure, and automated vehicles. The Secretary and her team expressed appreciation for AAMVA's work and committed to partner on shared topics of interest. AAMVA is fortunate to have been one of the earlier stakeholder groups to meet with the Secretary and share with her the important work being done by its members throughout North America.

Submissions Due Soon for Martha Irwin Award for Lifetime Achievement in Highway Safety

The Martha Irwin Award for Lifetime Achievement in Highway Safety is presented annually to an AAMVA member jurisdiction employee or other individual whose primary function is directly associated with highway and traffic safety efforts and who has had a distinguished career in this arena. The individual can be currently active or retired. One award is presented for [achievement in highway safety in Motor Vehicle Administration \(MVA\)](#) and one for [achievement in highway safety in Law Enforcement \(LE\)](#). Visit the *Safety Awards* category of the [AAMVA Awards Program](#) for complete details about the Martha Irwin Award for Lifetime Achievement in Highway Safety. **Award submissions and accompanying materials must be received by AAMVA by April 15, 2017.** All submissions should be sent to awards@aamva.org. [Download the 2017 Awards Submission Packet.](#)

eID Working Group Seeks Volunteers

The eID Working Group has been jointly working with the Card Design Standards Committee (CDS) on the topic of mobile driver licenses (mDL). The Joint WG has been charged with the review and potential leveraging of existing identity credential standards and recommend standards for the AAMVA membership relating to the emergence and rising popularity of electronic identity (mDL being a prominent use case). The joint working group typically meets in-person only once or twice annually, and members are funded for travel to this meeting. Additionally, members are expected to complete occasional assignments between meetings.

If you are interested in volunteering for this Working Group, please [complete the application](#) and submit to committees@aamva.org no later than **March 24, 2017**. If you have any questions regarding the Working Group, please contact [Geoff Slagle](#).

Final DIVS Newsletter Issue 13 - March 2017

The [2017 Spring DIVS Newsletter \(Issue 13\)](#) is now available, containing information on the State to State Verification service (S2S). The pilot states have provided their perspective on the benefits they are realizing from use of the service as well as the lessons they have learned up to this point in the program.

This is the final newsletter from the DIVS organization. The ownership and governance of the S2S service was recently transferred to AAMVA and the strong history of jurisdictional input into the service will continue through AAMVA's newly formed S2S Governance Committee. If you have questions regarding the State to State Verification Service, please contact Loffie Jordaan at LJordaan@aamva.org.

AAMVA is Now Accepting Applications for Regional Director of Member Support

Sheila Prior, Regional Director for Regions III and IV, has announced her plans to retire at the end of May. To that end, AAMVA has posted her vacancy announcement in the Career Center on AAMVA.org. NHTSA Traffic Safety Marketing: St. Patrick's Day

St. Patrick's Day is March 17th, and we continually see a spike in drunk-driving crashes on this date every year. [Use these marketing tools](#) to reach out to your community about the dangers of drinking and driving on this day. These materials will partner your office with other States, communities, and organizations on this drunk driving prevention initiative:

- [Drive Sober or Get Pulled Over](#) for enforcement, or
- [Buzzed Driving Is Drunk Driving](#) for social norming

PARTNER NEWS

AAA: Younger Millennials Top List of Worst Behaved Drivers

A new report from the AAA Foundation for Traffic Safety finds that while young millennials are the riskiest drivers – none of us are setting good examples. According to the study, almost 90 percent of young millennials – defined as those between the ages of 19-24 - engaged in at least one risky behavior behind the wheel in the past 30 days, earning the top spot of worst behaved drivers in the US. These dangerous behaviors ? known to increase crash risk ? included texting while driving, speeding and running red-lights. In fact, 50 percent of the young millennials said they'd driven through a red light in the past month. These findings come as U.S. traffic deaths rose to 35,092 in 2015, an increase of more than 7 percent, the largest single-year increase in five decades. [Read more here.](#)

2017 AAMVA Workshop and Law Institute - See You in Minneapolis

We're looking forward to seeing you this week at the [2017 Workshop & Law Institute](#). All conference sessions and events will take place at the conveniently located Hyatt Regency in Downtown Minneapolis. Get ready to learn about a variety of topics facing your jurisdiction as well as meet with industry leaders providing products and services to improve your business. If you're wondering what to pack, the Workshop is a business casual event. No ties or fancy business suits required. If you need any assistance or have any questions once arriving at the Hyatt, AAMVA staff will be wearing white shirts with the AAMVA logo. We will be ready to help!. [Register today and plan your trip to Minneapolis!](#)

AAMVA Meets with US DOT Secretary Elaine Chao

On Thursday, March 9, AAMVA Chair of the Board Jean Shiomoto led an AAMVA delegation to meet with U.S. Secretary of Transportation Elaine Chao. Joined by team members Anne Ferro, Ian Grossman, Philippe Guiot, and Cian Cashin, the group briefed Secretary Chao on the long standing partnership AAMVA has had with DOT. With special emphasis on our work with NHTSA and FMCSA, the discussion covered a wide range of transportation topics including driver safety, commercial driver licensing, AAMVA's IT infrastructure, and automated vehicles. The Secretary and her team expressed appreciation for AAMVA's work and committed to partner on shared topics of interest. AAMVA is fortunate to have been one of the earlier stakeholder groups to meet with the Secretary and share with her the important work being done by its members throughout North America.

Submissions Due Soon for Martha Irwin Award for Lifetime Achievement in Highway Safety

The Martha Irwin Award for Lifetime Achievement in Highway Safety is presented annually to an AAMVA member jurisdiction employee or other individual whose primary function is directly associated with highway and traffic safety efforts and who has had a distinguished career in this arena. The individual can be currently active or retired. One award is presented for [achievement in highway safety in Motor Vehicle Administration \(MVA\)](#) and one for [achievement in highway safety in Law Enforcement \(LE\)](#). Visit the *Safety Awards* category of the [AAMVA Awards Program](#) for complete details about the Martha Irwin Award for Lifetime Achievement in Highway Safety. **Award submissions and accompanying materials must be received by AAMVA by April 15, 2017.** All submissions should be sent to awards@aamva.org. [Download the 2017 Awards Submission Packet.](#)

eID Working Group Seeks Volunteers

The eID Working Group has been jointly working with the Card Design Standards Committee (CDS) on the topic of mobile driver licenses (mDL). The Joint WG has been charged with the review and potential leveraging of existing identity credential standards and recommend standards for the AAMVA membership relating to the emergence and rising popularity of electronic identity (mDL being a prominent use case). The joint working group typically meets in-person only once or twice annually, and members are funded for travel to this meeting. Additionally, members are expected to complete occasional assignments between meetings.

If you are interested in volunteering for this Working Group, please [complete the application](#) and submit to committees@aamva.org no later than **March 24, 2017**. If you have any questions regarding the Working Group, please contact [Geoff Slagle](#).

Final DIVS Newsletter Issue 13 - March 2017

The [2017 Spring DIVS Newsletter \(Issue 13\)](#) is now available, containing information on the State to State Verification service (S2S). The pilot states have provided their perspective on the benefits they are realizing from use of the service as well as the lessons they have learned up to this point in the program.

This is the final newsletter from the DIVS organization. The ownership and governance of the S2S service was recently transferred to AAMVA and the strong history of jurisdictional input into the service will continue through AAMVA's newly formed S2S Governance Committee. If you have questions regarding the State to State Verification Service, please contact Loffie Jordaan at LJordaan@aamva.org.

AAMVA is Now Accepting Applications for Regional Director of Member Support

Sheila Prior, Regional Director for Regions III and IV, has announced her plans to retire at the end of May. To that end, AAMVA has posted her vacancy announcement in the Career Center on AAMVA.org. Also present is Derek Grant, Regulatory Supervisor Sr.

Wisconsin DMV Offers Car Buying Tips

With peak demand for vehicle sales occurring in spring and fall, dealers' advertising and enticing discounts may tempt buyers. Before customers sign on the dotted line, Wisconsin Department of Transportation's Division of Motor Vehicles (DMV) reminds customers to do their homework. DMV offers a number of brochures and online resources to buy wisely. The consumer guides include:

- [Odometer Tampering: Tips to spot fraud](#)
- [Sell It Right: Tips for selling your car](#)
- [Smart Buying: Tips for buying a car](#)

DMV's Dealer and Agent Section collaborates with federal, state and local enforcement agencies to deter criminal activity and protect consumers. Duties include regulating wholesale auto auctions and salvage yards, investigating unlicensed sales and salvage activity and investigating consumer complaints. DMV oversees over 3,000 licensed dealers and conducted 1,065 inspections last year.

These dangerous behaviors ? known to increase crash risk ? included texting while driving, speeding and running red-lights. In fact, 50 percent of the young millennials said they'd driven through a red light in the past month. These findings come as U.S. traffic deaths rose to 35,092 in 2015, an increase of more than 7 percent, the largest single-year increase in five decades. [Read more here.](#)

AAMVA Meets with US DOT Secretary Elaine Chao

On Thursday, March 9, AAMVA Chair of the Board Jean Shiomoto led an AAMVA delegation to meet with U.S. Secretary of Transportation Elaine Chao. Joined by team members Anne Ferro, Ian Grossman, Philippe Guiot, and Cian Cashin, the group briefed Secretary Chao on the long standing partnership AAMVA has had with DOT. With special emphasis on our work with NHTSA and FMCSA, the discussion covered a wide range of transportation topics including driver safety, commercial driver licensing, AAMVA's IT infrastructure, and automated vehicles. The Secretary and her team expressed appreciation for AAMVA's work and committed to partner on shared topics of interest. AAMVA is fortunate to have been one of the earlier stakeholder groups to meet with the Secretary and share with her the important work being done by its members throughout North America.

Submissions Due Soon for Martha Irwin Award for Lifetime Achievement in Highway Safety

The Martha Irwin Award for Lifetime Achievement in Highway Safety is presented annually to an AAMVA member jurisdiction employee or other individual whose primary function is directly associated with highway and traffic safety efforts and who has had a distinguished career in this arena. The individual can be currently active or retired. One award is presented for [achievement in highway safety in Motor Vehicle Administration \(MVA\)](#) and one for [achievement in highway safety in Law Enforcement \(LE\)](#). Visit the *Safety Awards* category of the [AAMVA Awards Program](#) for complete details about the Martha Irwin Award for Lifetime Achievement in Highway Safety. **Award submissions and accompanying materials must be received by AAMVA by April 15, 2017.** All submissions should be sent to awards@aamva.org. [Download the 2017 Awards Submission Packet.](#)

eID Working Group Seeks Volunteers

The eID Working Group has been jointly working with the Card Design Standards Committee (CDS) on the topic of mobile driver licenses (mDL). The Joint WG has been charged with the review and potential leveraging of existing identity credential standards and recommend standards for the AAMVA membership relating to the emergence and rising popularity of electronic identity (mDL being a prominent use case). The joint working group typically meets in-person only once or twice annually, and members are funded for travel to this meeting. Additionally, members are expected to complete occasional assignments between meetings.

If you are interested in volunteering for this Working Group, please [complete the application](#) and submit to committees@aamva.org no later than **March 24, 2017**. If you have any questions regarding the Working Group, please contact [Geoff Slagle](#).

Final DIVS Newsletter Issue 13 - March 2017

The [2017 Spring DIVS Newsletter \(Issue 13\)](#) is now available, containing information on the State to State Verification service (S2S). The pilot states have provided their perspective on the benefits they are realizing from use of the service as well as the lessons they have learned up to this point in the program.

This is the final newsletter from the DIVS organization. The ownership and governance of the S2S service was recently transferred to AAMVA and the strong history of jurisdictional input into the service will continue through AAMVA's newly formed S2S Governance Committee. If you have questions regarding the State to State Verification Service, please contact Loffie Jordaan at LJordaan@aamva.org.

AAMVA is Now Accepting Applications for Regional Director of Member Support

Sheila Prior, Regional Director for Regions III and IV, has announced her plans to retire at the end of May. To that end, AAMVA has posted her vacancy announcement in the Career Center on AAMVA.org. Virginia Presents Rose Crist with 2016 Examiner of the Year Award

During a rally and recognition session with DMV employees held Monday, February 27th, Virginia DMV Commissioner Rick Holcomb presented Rose Crist, Instruction Safety Specialist, Customer Service Management Administration with the 2016 AAMVA Examiner of the Year award. Also present is Derek Grant, Regulatory Supervisor Sr.

Wisconsin DMV Offers Car Buying Tips

With peak demand for vehicle sales occurring in spring and fall, dealers' advertising and enticing discounts may tempt buyers. Before customers sign on the dotted line, Wisconsin Department of Transportation's Division of Motor Vehicles (DMV) reminds customers to do their homework. DMV offers a number of brochures and online resources to buy wisely. The consumer guides include:

- [Odometer Tampering: Tips to spot fraud](#)
- [Sell It Right: Tips for selling your car](#)
- [Smart Buying: Tips for buying a car](#)

DMV's Dealer and Agent Section collaborates with federal, state and local enforcement agencies to deter criminal activity and protect consumers. Duties include regulating wholesale auto auctions and salvage yards, investigating unlicensed sales and salvage activity and investigating consumer complaints. DMV oversees over 3,000 licensed dealers and conducted 1,065 inspections last year.

2017 AAMVA Workshop and Law Institute - See You in Minneapolis

We're looking forward to seeing you this week at the [2017 Workshop & Law Institute](#). All conference sessions and events will take place at the conveniently located Hyatt Regency in Downtown Minneapolis. Get ready to learn about a variety of topics facing your jurisdiction as well as meet with industry leaders providing products and services to improve your business. If you're wondering what to pack, the Workshop is a business casual event. No ties or fancy business suits required. If you need any assistance or have any questions once arriving at the Hyatt, AAMVA staff will be wearing white shirts with the AAMVA logo. We will be ready to help!. [Register today and plan your trip to Minneapolis!](#)

AAMVA Meets with US DOT Secretary Elaine Chao

On Thursday, March 9, AAMVA Chair of the Board Jean Shiomoto led an AAMVA delegation to meet with U.S. Secretary of Transportation Elaine Chao. Joined by team members Anne Ferro, Ian Grossman, Philippe Guiot, and Cian Cashin, the group briefed Secretary Chao on the long standing partnership AAMVA has had with DOT. With special emphasis on our work with NHTSA and FMCSA, the discussion covered a wide range of transportation topics including driver safety, commercial driver licensing, AAMVA's IT infrastructure, and automated vehicles. The Secretary and her team expressed appreciation for AAMVA's work and committed to partner on shared topics of interest. AAMVA is fortunate to have been one of the earlier stakeholder groups to meet with the Secretary and share with her the important work being done by its members throughout North America.

DMV Investigators Integration Strategies Now Available

The DMV Investigator Integration Working Group has just released two deliverables. The first is a Resource Guide that includes general organizational and operational principles and guidance for DMV Investigative Units based on the research, experiences, and practices of Working Group members and the agencies they represent. Submissions Due Soon for Martha Irwin Award for Lifetime Achievement in Highway Safety

The Martha Irwin Award for Lifetime Achievement in Highway Safety is presented annually to an AAMVA member jurisdiction employee or other individual whose primary function is directly associated with highway and traffic safety efforts and who has had a distinguished career in this arena. The individual can be currently active or retired. One award is presented for [achievement in highway safety in Motor Vehicle Administration \(MVA\)](#) and one for [achievement in highway safety in Law Enforcement \(LE\)](#). Visit the *Safety Awards* category of the [AAMVA Awards Program](#) for complete details about the Martha Irwin Award for Lifetime Achievement in Highway Safety. **Award submissions and accompanying materials must be received by AAMVA by April 15, 2017.** All submissions should be sent to awards@aamva.org. [Download the 2017 Awards Submission Packet.](#)

eID Working Group Seeks Volunteers

The eID Working Group has been jointly working with the Card Design Standards Committee (CDS) on the topic of mobile driver licenses (mDL). The Joint WG has been charged with the review and potential leveraging of existing identity credential standards and recommend standards for the AAMVA membership relating to the emergence and rising popularity of electronic identity (mDL being a prominent use case). The joint working group typically meets in-person only once or twice annually, and members are funded for travel to this meeting. Additionally, members are expected to complete occasional assignments between meetings.

If you are interested in volunteering for this Working Group, please [complete the application](#) and submit to committees@aamva.org no later than **March 24, 2017**. If you have any questions regarding the Working Group, please contact [Geoff Slagle](#).

Final DIVS Newsletter Issue 13 - March 2017

The [2017 Spring DIVS Newsletter \(Issue 13\)](#) is now available, containing information on the State to State Verification service (S2S). The pilot states have provided their perspective on the benefits they are realizing from use of the service as well as the lessons they have learned up to this point in the program.

This is the final newsletter from the DIVS organization. The ownership and governance of the S2S service was recently transferred to AAMVA and the strong history of jurisdictional input into the service will continue through AAMVA's newly formed S2S Governance Committee. If you have questions regarding the State to State Verification Service, please contact Loffie Jordaan at LJordaan@aamva.org.

AAMVA is Now Accepting Applications for Regional Director of Member Support

Sheila Prior, Regional Director for Regions III and IV, has announced her plans to retire at the end of May. To that end, AAMVA has posted her vacancy announcement in the Career Center on AAMVA.org. Visit the [Career Center](#) on AAMVA.org to view this and other vacancies AAMVA is currently trying to fill.

Kentucky Presents Examiner Renee McCoy With 2016 Examiner of the Year Award

Sergeant Derris Hedger (right) of the Kentucky State Police presented Examiner Renee McCoy (left) with the 2016 Examiner of the Year Award during a ceremony last week.

Virginia Presents Rose Crist with 2016 Examiner of the Year Award

During a rally and recognition session with DMV employees held Monday, February 27th, Virginia DMV Commissioner Rick Holcomb presented Rose Crist, Instruction Safety Specialist, Customer Service Management Administration with the 2016 AAMVA Examiner of the Year award. Also present is Derek Grant, Regulatory Supervisor Sr.

Wisconsin DMV Offers Car Buying Tips

With peak demand for vehicle sales occurring in spring and fall, dealers' advertising and enticing discounts may tempt buyers. Before customers sign on the dotted line, Wisconsin Department of Transportation's Division of Motor Vehicles (DMV) reminds customers to do their homework. DMV offers a number of brochures and online resources to buy wisely. The consumer guides include:

- [Odometer Tampering: Tips to spot fraud](#)
- [Sell It Right: Tips for selling your car](#)
- [Smart Buying: Tips for buying a car](#)

DMV's Dealer and Agent Section collaborates with federal, state and local enforcement agencies to deter criminal activity and protect consumers. Duties include regulating wholesale auto auctions and salvage yards, investigating unlicensed sales and salvage activity and investigating consumer complaints. DMV oversees over 3,000 licensed dealers and conducted 1,065 inspections last year.

AAA: Younger Millennials Top List of Worst Behaved Drivers

A new report from the AAA Foundation for Traffic Safety finds that while young millennials are the riskiest drivers – none of us are setting good examples. According to the study, almost 90 percent of young millennials – defined as those between the ages of 19-24 - engaged in at least one risky behavior behind the wheel in the past 30 days, earning the top spot of worst behaved drivers in the US. These dangerous behaviors ? known to increase crash risk ? included texting while driving, speeding and running red-lights. In fact, 50 percent of the young millennials said they'd driven through a red light in the past month. These findings come as U.S. traffic deaths rose to 35,092 in 2015, an increase of more than 7 percent, the largest single-year increase in five decades. [Read more here.](#)

Submissions Due Soon for Martha Irwin Award for Lifetime Achievement in Highway Safety

The Martha Irwin Award for Lifetime Achievement in Highway Safety is presented annually to an AAMVA member jurisdiction employee or other individual whose primary function is directly associated with highway and traffic safety efforts and who has had a distinguished career in this arena. The individual can be currently active or retired. One award is presented for [achievement in highway safety in Motor Vehicle Administration \(MVA\)](#) and one for [achievement in highway safety in Law Enforcement \(LE\)](#). Visit the *Safety Awards* category of the [AAMVA Awards Program](#) for complete details about the Martha Irwin Award for Lifetime Achievement in Highway Safety. **Award submissions and accompanying materials must be received by AAMVA by April 15, 2017.** All submissions should be sent to awards@aamva.org. [Download the 2017 Awards Submission Packet.](#)

eID Working Group Seeks Volunteers

The eID Working Group has been jointly working with the Card Design Standards Committee (CDS) on the topic of mobile driver licenses (mDL). The Joint WG has been charged with the review and potential leveraging of existing identity credential standards and recommend standards for the AAMVA membership relating to the emergence and rising popularity of electronic identity (mDL being a prominent use case). The joint working group typically meets in-person only once or twice annually, and members are funded for travel to this meeting. Additionally, members are expected to complete occasional assignments between meetings.

If you are interested in volunteering for this Working Group, please [complete the application](#) and submit to committees@aamva.org no later than **March 24, 2017**. If you have any questions regarding the Working Group, please contact [Geoff Slagle](#).

Final DIVS Newsletter Issue 13 - March 2017

The [2017 Spring DIVS Newsletter \(Issue 13\)](#) is now available, containing information on the State to State Verification service (S2S). The pilot states have provided their perspective on the benefits they are realizing from use of the service as well as the lessons they have learned up to this point in the program.

This is the final newsletter from the DIVS organization. The ownership and governance of the S2S service was recently transferred to AAMVA and the strong history of jurisdictional input into the service will continue through AAMVA's newly formed S2S Governance Committee. If you have questions regarding the State to State Verification Service, please contact Loffie Jordaan at LJordaan@aamva.org.

AAMVA is Now Accepting Applications for Regional Director of Member Support

Sheila Prior, Regional Director for Regions III and IV, has announced her plans to retire at the end of May. To that end, AAMVA has posted her vacancy announcement in the Career Center on AAMVA.org. Virginia Presents Rose Crist with 2016 Examiner of the Year Award

During a rally and recognition session with DMV employees held Monday, February 27th, Virginia DMV Commissioner Rick Holcomb presented Rose Crist, Instruction Safety Specialist, Customer Service Management Administration with the 2016 AAMVA Examiner of the Year award. Also present is Derek Grant, Regulatory Supervisor Sr.

Wisconsin DMV Offers Car Buying Tips

With peak demand for vehicle sales occurring in spring and fall, dealers' advertising and enticing discounts may tempt buyers. Before customers sign on the dotted line, Wisconsin Department of Transportation's Division of Motor Vehicles (DMV) reminds customers to do their homework. DMV offers a number of brochures and online resources to buy wisely. The consumer guides include:

- [Odometer Tampering: Tips to spot fraud](#)
- [Sell It Right: Tips for selling your car](#)
- [Smart Buying: Tips for buying a car](#)

DMV's Dealer and Agent Section collaborates with federal, state and local enforcement agencies to deter criminal activity and protect consumers. Duties include regulating wholesale auto auctions and salvage yards, investigating unlicensed sales and salvage activity and investigating consumer complaints. DMV oversees over 3,000 licensed dealers and conducted 1,065 inspections last year.

AAA: Younger Millennials Top List of Worst Behaved Drivers

A new report from the AAA Foundation for Traffic Safety finds that while young millennials are the riskiest drivers – none of us are setting good examples. According to the study, almost 90 percent of young millennials – defined as those between the ages of 19-24 - engaged in at least one risky behavior behind the wheel in the past 30 days, earning the top spot of worst behaved drivers in the US. These dangerous behaviors ? known to increase crash risk ? included texting while driving, speeding and running red-lights. In fact, 50 percent of the young millennials said they'd driven through a red light in the past month. These findings come as U.S. traffic deaths rose to 35,092 in 2015, an increase of more than 7 percent, the largest single-year increase in five decades. [Read more here.](#)

AAMVA Meets with US DOT Secretary Elaine Chao

On Thursday, March 9, AAMVA Chair of the Board Jean Shiomoto led an AAMVA delegation to meet with U.S. Secretary of Transportation Elaine Chao. Joined by team members Anne Ferro, Ian Grossman, Philippe Guiot, and Cian Cashin, the group briefed Secretary Chao on the long standing partnership AAMVA has had with DOT. With special emphasis on our work with NHTSA and FMCSA, the discussion covered a wide range of transportation topics including driver safety, commercial driver licensing, AAMVA's IT infrastructure, and automated vehicles. The Secretary and her team expressed appreciation for AAMVA's work and committed to partner on shared topics of interest. AAMVA is fortunate to have been one of the earlier stakeholder groups to meet with the Secretary and share with her the important work being done by its members throughout North America.

The Martha Irwin Award for Lifetime Achievement in Highway Safety is presented annually to an AAMVA member jurisdiction employee or other individual whose primary function is directly associated with highway and traffic safety efforts and who has had a distinguished career in this arena. The individual can be currently active or retired. One award is presented for [achievement in highway safety in Motor Vehicle Administration \(MVA\)](#) and one for [achievement in highway safety in Law Enforcement \(LE\)](#). Visit the *Safety Awards* category of the [AAMVA Awards Program](#) for complete details about the Martha Irwin Award for Lifetime Achievement in Highway Safety. **Award submissions and accompanying materials must be received by AAMVA by April 15, 2017.** All submissions should be sent to awards@aamva.org. [Download the 2017 Awards Submission Packet.](#)

eID Working Group Seeks Volunteers

The eID Working Group has been jointly working with the Card Design Standards Committee (CDS) on the topic of mobile driver licenses (mDL). The Joint WG has been charged with the review and potential leveraging of existing identity credential standards and recommend standards for the AAMVA membership relating to the emergence and rising popularity of electronic identity (mDL being a prominent use case). The joint working group typically meets in-person only once or twice annually, and members are funded for travel to this meeting. Additionally, members are expected to complete occasional assignments between meetings.

If you are interested in volunteering for this Working Group, please [complete the application](#) and submit to committees@aamva.org no later than **March 24, 2017**. If you have any questions regarding the Working Group, please contact [Geoff Slagle](#).

Final DIVS Newsletter Issue 13 - March 2017

The [2017 Spring DIVS Newsletter \(Issue 13\)](#) is now available, containing information on the State to State Verification service (S2S). The pilot states have provided their perspective on the benefits they are realizing from use of the service as well as the lessons they have learned up to this point in the program.

This is the final newsletter from the DIVS organization. The ownership and governance of the S2S service was recently transferred to AAMVA and the strong history of jurisdictional input into the service will continue through AAMVA's newly formed S2S Governance Committee. If you have questions regarding the State to State Verification Service, please contact Loffie Jordaan at LJordaan@aamva.org.

AAMVA is Now Accepting Applications for Regional Director of Member Support

Sheila Prior, Regional Director for Regions III and IV, has announced her plans to retire at the end of May. To that end, AAMVA has posted her vacancy announcement in the Career Center on AAMVA.org. Visit the [Career Center](#) on AAMVA.org to view this and other vacancies AAMVA is currently trying to fill.

Virginia Presents Rose Crist with 2016 Examiner of the Year Award

During a rally and recognition session with DMV employees held Monday, February 27th, Virginia DMV Commissioner Rick Holcomb presented Rose Crist, Instruction Safety Specialist, Customer Service Management Administration with the 2016 AAMVA Examiner of the Year award. Also present is Derek Grant, Regulatory Supervisor Sr.

Wisconsin DMV Offers Car Buying Tips

With peak demand for vehicle sales occurring in spring and fall, dealers' advertising and enticing discounts may tempt buyers. Before customers sign on the dotted line, Wisconsin Department of Transportation's Division of Motor Vehicles (DMV) reminds customers to do their homework. DMV offers a number of brochures and online resources to buy wisely. The consumer guides include:

- [Odometer Tampering: Tips to spot fraud](#)
- [Sell It Right: Tips for selling your car](#)
- [Smart Buying: Tips for buying a car](#)

DMV's Dealer and Agent Section collaborates with federal, state and local enforcement agencies to deter criminal activity and protect consumers. Duties include regulating wholesale auto auctions and salvage yards, investigating unlicensed sales and salvage activity and investigating consumer complaints. DMV oversees over 3,000 licensed dealers and conducted 1,065 inspections last year.

PARTNER NEWS

AAA: Younger Millennials Top List of Worst Behaved Drivers

A new report from the AAA Foundation for Traffic Safety finds that while young millennials are the riskiest drivers – none of us are setting good examples. According to the study, almost 90 percent of young millennials – defined as those between the ages of 19-24 - engaged in at least one risky behavior behind the wheel in the past 30 days, earning the top spot of worst behaved drivers in the US. These dangerous behaviors ? known to increase crash risk ? included texting while driving, speeding and running red-lights. In fact, 50 percent of the young millennials said they'd driven through a red light in the past month. These findings come as U.S. traffic deaths rose to 35,092 in 2015, an increase of more than 7 percent, the largest single-year increase in five decades. [Read more here.](#)

AAMVA Meets with US DOT Secretary Elaine Chao

On Thursday, March 9, AAMVA Chair of the Board Jean Shiomoto led an AAMVA delegation to meet with U.S. Secretary of Transportation Elaine Chao. Joined by team members Anne Ferro, Ian Grossman, Philippe Guiot, and Cian Cashin, the group briefed Secretary Chao on the long standing partnership AAMVA has had with DOT. With special emphasis on our work with NHTSA and FMCSA, the discussion covered a wide range of transportation topics including driver safety, commercial driver licensing, AAMVA's IT infrastructure, and automated vehicles. The Secretary and her team expressed appreciation for AAMVA's work and committed to partner on shared topics of interest. AAMVA is fortunate to have been one of the earlier stakeholder groups to meet with the Secretary and share with her the important work being done by its members throughout North America.

Kentucky Presents Examiner Renee McCoy With 2016 Examiner of the Year Award

Sergeant Derris Hedger (right) of the Kentucky State Police presented Examiner Renee McCoy (left) with the 2016 Examiner of the Year Award during a ceremony last week.

Virginia Presents Rose Crist with 2016 Examiner of the Year Award

During a rally and recognition session with DMV employees held Monday, February 27th, Virginia DMV Commissioner Rick Holcomb presented Rose Crist, Instruction Safety Specialist, Customer Service Management Administration with the 2016 AAMVA Examiner of the Year award. Also present is Derek Grant, Regulatory Supervisor Sr.

Wisconsin DMV Offers Car Buying Tips

With peak demand for vehicle sales occurring in spring and fall, dealers' advertising and enticing discounts may tempt buyers. Before customers sign on the dotted line, Wisconsin Department of Transportation's Division of Motor Vehicles (DMV) reminds customers to do their homework. DMV offers a number of brochures and online resources to buy wisely. The consumer guides include:

- [Odometer Tampering: Tips to spot fraud](#)
- [Sell It Right: Tips for selling your car](#)
- [Smart Buying: Tips for buying a car](#)

DMV's Dealer and Agent Section collaborates with federal, state and local enforcement agencies to deter criminal activity and protect consumers. Duties include regulating wholesale auto auctions and salvage yards, investigating unlicensed sales and salvage activity and investigating consumer complaints. DMV oversees over 3,000 licensed dealers and conducted 1,065 inspections last year.

PARTNER NEWS

AAA: Younger Millennials Top List of Worst Behaved Drivers

A new report from the AAA Foundation for Traffic Safety finds that while young millennials are the riskiest drivers – none of us are setting good examples. According to the study, almost 90 percent of young millennials – defined as those between the ages of 19-24 - engaged in at least one risky behavior behind the wheel in the past 30 days, earning the top spot of worst behaved drivers in the US. These dangerous behaviors ? known to increase crash risk ? included texting while driving, speeding and running red-lights. In fact, 50 percent of the young millennials said they'd driven through a red light in the past month. These findings come as U.S. traffic deaths rose to 35,092 in 2015, an increase of more than 7 percent, the largest single-year increase in five decades. [Read more here.](#)

AAMVA Meets with US DOT Secretary Elaine Chao

On Thursday, March 9, AAMVA Chair of the Board Jean Shiomoto led an AAMVA delegation to meet with U.S. Secretary of Transportation Elaine Chao. Joined by team members Anne Ferro, Ian Grossman, Philippe Guiot, and Cian Cashin, the group briefed Secretary Chao on the long standing partnership AAMVA has had with DOT. With special emphasis on our work with NHTSA and FMCSA, the discussion covered a wide range of transportation topics including driver safety, commercial driver licensing, AAMVA's IT infrastructure, and automated vehicles. The Secretary and her team expressed appreciation for AAMVA's work and committed to partner on shared topics of interest. AAMVA is fortunate to have been one of the earlier stakeholder groups to meet with the Secretary and share with her the important work being done by its members throughout North America.

Kentucky Presents Examiner Renee McCoy With 2016 Examiner of the Year Award

Sergeant Derris Hedger (right) of the Kentucky State Police presented Examiner Renee McCoy (left) with the 2016 Examiner of the Year Award during a ceremony last week.

Virginia Presents Rose Crist with 2016 Examiner of the Year Award

During a rally and recognition session with DMV employees held Monday, February 27th, Virginia DMV Commissioner Rick Holcomb presented Rose Crist, Instruction Safety Specialist, Customer Service Management Administration with the 2016 AAMVA Examiner of the Year award. Also present is Derek Grant, Regulatory Supervisor Sr.

Wisconsin DMV Offers Car Buying Tips

With peak demand for vehicle sales occurring in spring and fall, dealers' advertising and enticing discounts may tempt buyers. Before customers sign on the dotted line, Wisconsin Department of Transportation's Division of Motor Vehicles (DMV) reminds customers to do their homework. DMV offers a number of brochures and online resources to buy wisely. The consumer guides include:

- [Odometer Tampering: Tips to spot fraud](#)
- [Sell It Right: Tips for selling your car](#)
- [Smart Buying: Tips for buying a car](#)

DMV's Dealer and Agent Section collaborates with federal, state and local enforcement agencies to deter criminal activity and protect consumers. Duties include regulating wholesale auto auctions and salvage yards, investigating unlicensed sales and salvage activity and investigating consumer complaints. DMV oversees over 3,000 licensed dealers and conducted 1,065 inspections last year.

PARTNER NEWS

AAA: Younger Millennials Top List of Worst Behaved Drivers

A new report from the AAA Foundation for Traffic Safety finds that while young millennials are the riskiest drivers – none of us are setting good examples. According to the study, almost 90 percent of young millennials – defined as those between the ages of 19-24 - engaged in at least one risky behavior behind the wheel in the past 30 days, earning the top spot of worst behaved drivers in the US. These dangerous behaviors ? known to increase crash risk ? included texting while driving, speeding and running red-lights. In fact, 50 percent of the young millennials said they'd driven through a red light in the past month. These findings come as U.S. traffic deaths rose to 35,092 in 2015, an increase of more than 7 percent, the largest single-year increase in five decades. [Read more here.](#)

AAMVA Meets with US DOT Secretary Elaine Chao

On Thursday, March 9, AAMVA Chair of the Board Jean Shiomoto led an AAMVA delegation to meet with U.S. Secretary of Transportation Elaine Chao. Joined by team members Anne Ferro, Ian Grossman, Philippe Guiot, and Cian Cashin, the group briefed Secretary Chao on the long standing partnership AAMVA has had with DOT. With special emphasis on our work with NHTSA and FMCSA, the discussion covered a wide range of transportation topics including driver safety, commercial driver licensing, AAMVA's IT infrastructure, and automated vehicles. The Secretary and her team expressed appreciation for AAMVA's work and committed to partner on shared topics of interest. AAMVA is fortunate to have been one of the earlier stakeholder groups to meet with the Secretary and share with her the important work being done by its members throughout North America.

Submissions Due Soon for Martha Irwin Award for Lifetime Achievement in Highway Safety

The Martha Irwin Award for Lifetime Achievement in Highway Safety is presented annually to an AAMVA member jurisdiction employee or other individual whose primary function is directly associated with highway and traffic safety efforts and who has had a distinguished career in this arena. The individual can be currently active or retired. One award is presented for [achievement in highway safety in Motor Vehicle Administration \(MVA\)](#) and one for [achievement in highway safety in Law Enforcement \(LE\)](#). Visit the *Safety Awards* category of the [AAMVA Awards Program](#) for complete details about the Martha Irwin Award for Lifetime Achievement in Highway Safety. **Award submissions and accompanying materials must be received by AAMVA by April 15, 2017.** All submissions should be sent to awards@aamva.org. [Download the 2017 Awards Submission Packet.](#)

eID Working Group Seeks Volunteers

The eID Working Group has been jointly working with the Card Design Standards Committee (CDS) on the topic of mobile driver licenses (mDL). The Joint WG has been charged with the review and potential leveraging of existing identity credential standards and recommend standards for the AAMVA membership relating to the emergence and rising popularity of electronic identity (mDL being a prominent use case). The joint working group typically meets in-person only once or twice annually, and members are funded for travel to this meeting. Additionally, members are expected to complete occasional assignments between meetings.

If you are interested in volunteering for this Working Group, please [complete the application](#) and submit to committees@aamva.org no later than **March 24, 2017**. If you have any questions regarding the Working Group, please contact [Geoff Slagle](#).

Final DIVS Newsletter Issue 13 - March 2017

The [2017 Spring DIVS Newsletter \(Issue 13\)](#) is now available, containing information on the State to State Verification service (S2S). The pilot states have provided their perspective on the benefits they are realizing from use of the service as well as the lessons they have learned up to this point in the program.

This is the final newsletter from the DIVS organization. The ownership and governance of the S2S service was recently transferred to AAMVA and the strong history of jurisdictional input into the service will continue through AAMVA's newly formed S2S Governance Committee. If you have questions regarding the State to State Verification Service, please contact Loffie Jordaan at LJordaan@aamva.org.

AAMVA is Now Accepting Applications for Regional Director of Member Support

Sheila Prior, Regional Director for Regions III and IV, has announced her plans to retire at the end of May. To that end, AAMVA has posted her vacancy announcement in the Career Center on AAMVA.org. Wisconsin DMV Offers Car Buying Tips

With peak demand for vehicle sales occurring in spring and fall, dealers' advertising and enticing discounts may tempt buyers. Before customers sign on the dotted line, Wisconsin Department of Transportation's Division of Motor Vehicles (DMV) reminds customers to do their homework. DMV offers a number of brochures and online resources to buy wisely. The consumer guides include:

- [Odometer Tampering: Tips to spot fraud](#)
- [Sell It Right: Tips for selling your car](#)
- [Smart Buying: Tips for buying a car](#)

DMV's Dealer and Agent Section collaborates with federal, state and local enforcement agencies to deter criminal activity and protect consumers. Duties include regulating wholesale auto auctions and salvage yards, investigating unlicensed sales and salvage activity and investigating consumer complaints. DMV oversees over 3,000 licensed dealers and conducted 1,065 inspections last year.

PARTNER NEWS

AAA: Younger Millennials Top List of Worst Behaved Drivers

A new report from the AAA Foundation for Traffic Safety finds that while young millennials are the riskiest drivers – none of us are setting good examples. According to the study, almost 90 percent of young millennials – defined as those between the ages of 19-24 - engaged in at least one risky behavior behind the wheel in the past 30 days, earning the top spot of worst behaved drivers in the US. These dangerous behaviors ? known to increase crash risk ? included texting while driving, speeding and running red-lights. In fact, 50 percent of the young millennials said they'd driven through a red light in the past month. These findings come as U.S. traffic deaths rose to 35,092 in 2015, an increase of more than 7 percent, the largest single-year increase in five decades. [Read more here.](#)

AAMVA Meets with US DOT Secretary Elaine Chao

On Thursday, March 9, AAMVA Chair of the Board Jean Shiomoto led an AAMVA delegation to meet with U.S. Secretary of Transportation Elaine Chao. Joined by team members Anne Ferro, Ian Grossman, Philippe Guiot, and Cian Cashin, the group briefed Secretary Chao on the long standing partnership AAMVA has had with DOT. With special emphasis on our work with NHTSA and FMCSA, the discussion covered a wide range of transportation topics including driver safety, commercial driver licensing, AAMVA's IT infrastructure, and automated vehicles. The Secretary and her team expressed appreciation for AAMVA's work and committed to partner on shared topics of interest. AAMVA is fortunate to have been one of the earlier stakeholder groups to meet with the Secretary and share with her the important work being done by its members throughout North America.

Submissions Due Soon for Martha Irwin Award for Lifetime Achievement in Highway Safety

The Martha Irwin Award for Lifetime Achievement in Highway Safety is presented annually to an AAMVA member jurisdiction employee or other individual whose primary function is directly associated with highway and traffic safety efforts and who has had a distinguished career in this arena. The individual can be currently active or retired. One award is presented for [achievement in highway safety in Motor Vehicle Administration \(MVA\)](#) and one for [achievement in highway safety in Law Enforcement \(LE\)](#). Visit the *Safety Awards* category of the [AAMVA Awards Program](#) for complete details about the Martha Irwin Award for Lifetime Achievement in Highway Safety. **Award submissions and accompanying materials must be received by AAMVA by April 15, 2017.** All submissions should be sent to awards@aamva.org. [Download the 2017 Awards Submission Packet.](#)

eID Working Group Seeks Volunteers

The eID Working Group has been jointly working with the Card Design Standards Committee (CDS) on the topic of mobile driver licenses (mDL). The Joint WG has been charged with the review and potential leveraging of existing identity credential standards and recommend standards for the AAMVA membership relating to the emergence and rising popularity of electronic identity (mDL being a prominent use case). The joint working group typically meets in-person only once or twice annually, and members are funded for travel to this meeting. Additionally, members are expected to complete occasional assignments between meetings.

If you are interested in volunteering for this Working Group, please [complete the application](#) and submit to committees@aamva.org no later than **March 24, 2017**. If you have any questions regarding the Working Group, please contact [Geoff Slagle](#).

Final DIVS Newsletter Issue 13 - March 2017

The [2017 Spring DIVS Newsletter \(Issue 13\)](#) is now available, containing information on the State to State Verification service (S2S). The pilot states have provided their perspective on the benefits they are realizing from use of the service as well as the lessons they have learned up to this point in the program.

This is the final newsletter from the DIVS organization. The ownership and governance of the S2S service was recently transferred to AAMVA and the strong history of jurisdictional input into the service will continue through AAMVA's newly formed S2S Governance Committee. If you have questions regarding the State to State Verification Service, please contact Loffie Jordaan at LJordaan@aamva.org.

AAMVA is Now Accepting Applications for Regional Director of Member Support

Sheila Prior, Regional Director for Regions III and IV, has announced her plans to retire at the end of May. To that end, AAMVA has posted her vacancy announcement in the Career Center on AAMVA.org. AAA: Younger Millennials Top List of Worst Behaved Drivers

A new report from the AAA Foundation for Traffic Safety finds that while young millennials are the riskiest drivers – none of us are setting good examples. According to the study, almost 90 percent of young millennials – defined as those between the ages of 19-24 - engaged in at least one risky behavior behind the wheel in the past 30 days, earning the top spot of worst behaved drivers in the US. These dangerous behaviors ? known to increase crash risk ? included texting while driving, speeding and running red-lights. In fact, 50 percent of the young millennials said they'd driven through a red light in the past month. These findings come as U.S. traffic deaths rose to 35,092 in 2015, an increase of more than 7 percent, the largest single-year increase in five decades. [Read more here.](#)

AAMVA Meets with US DOT Secretary Elaine Chao

On Thursday, March 9, AAMVA Chair of the Board Jean Shiomoto led an AAMVA delegation to meet with U.S. Secretary of Transportation Elaine Chao. Joined by team members Anne Ferro, Ian Grossman, Philippe Guiot, and Cian Cashin, the group briefed Secretary Chao on the long standing partnership AAMVA has had with DOT. With special emphasis on our work with NHTSA and FMCSA, the discussion covered a wide range of transportation topics including driver safety, commercial driver licensing, AAMVA's IT infrastructure, and automated vehicles. The Secretary and her team expressed appreciation for AAMVA's work and committed to partner on shared topics of interest. AAMVA is fortunate to have been one of the earlier stakeholder groups to meet with the Secretary and share with her the important work being done by its members throughout North America.

Submissions Due Soon for Martha Irwin Award for Lifetime Achievement in Highway Safety

The Martha Irwin Award for Lifetime Achievement in Highway Safety is presented annually to an AAMVA member jurisdiction employee or other individual whose primary function is directly associated with highway and traffic safety efforts and who has had a distinguished career in this arena. The individual can be currently active or retired. One award is presented for [achievement in highway safety in Motor Vehicle Administration \(MVA\)](#) and one for [achievement in highway safety in Law Enforcement \(LE\)](#). Visit the *Safety Awards* category of the [AAMVA Awards Program](#) for complete details about the Martha Irwin Award for Lifetime Achievement in Highway Safety. **Award submissions and accompanying materials must be received by AAMVA by April 15, 2017.** All submissions should be sent to awards@aamva.org. [Download the 2017 Awards Submission Packet.](#)

eID Working Group Seeks Volunteers

The eID Working Group has been jointly working with the Card Design Standards Committee (CDS) on the topic of mobile driver licenses (mDL). The Joint WG has been charged with the review and potential leveraging of existing identity credential standards and recommend standards for the AAMVA membership relating to the emergence and rising popularity of electronic identity (mDL being a prominent use case). The joint working group typically meets in-person only once or twice annually, and members are funded for travel to this meeting. Additionally, members are expected to complete occasional assignments between meetings.

If you are interested in volunteering for this Working Group, please [complete the application](#) and submit to committees@aamva.org no later than **March 24, 2017**. If you have any questions regarding the Working Group, please contact [Geoff Slagle](#).

Final DIVS Newsletter Issue 13 - March 2017

The [2017 Spring DIVS Newsletter \(Issue 13\)](#) is now available, containing information on the State to State Verification service (S2S). The pilot states have provided their perspective on the benefits they are realizing from use of the service as well as the lessons they have learned up to this point in the program.

This is the final newsletter from the DIVS organization. The ownership and governance of the S2S service was recently transferred to AAMVA and the strong history of jurisdictional input into the service will continue through AAMVA's newly formed S2S Governance Committee. If you have questions regarding the State to State Verification Service, please contact Loffie Jordaen at LJordaen@aamva.org.

Subject: RE: Structured testing for SSOLV using AI

Thank you, Sruti.

We still do wish to structure test early, even knowing that we will need to also do a smoke test closer to deployment.

Yes, we do plan to test using code AI for PDPS, so please advise NDR of this and let us know when we are ready. We can use the SPEXS regression test for now, but please let us know when we can have a real PDPS casual test plan for AI and conduct the testing.

Since we've not been told otherwise, we will assume the AI casual SPEXS plan sent out last year is the one we will be using. Siri, could you be available for SPEXS casual testing 2 weeks from today?

Subject: RE: Structured testing for SSOLV using AI

Mina,

For SSOLV, we typically have the states test with us AA (Pseudo Gap code acting as SSA) so we verify the Message formats and data on the messages before you test with SSA. It is the same set of test cases that we have for the execution with AA and with SSA. Since you will be testing with an alternate gap code, you will need to perform the end to end test with SSA after you have moved all your code to AK gap code.

For the testing timelines for SPEXS and PDPS –

SPEXS (6.0) – Typically, we have seen Jurisdictions take about 6 to 8 weeks. There is a SPEXS Baseline Structured test plan that Jurisdictions take if they are implementing the new system as a 6.0 State. The Test plan is different than the one you used for the 6.0 Structured test, the Baseline Structured test has more scenarios as we will not just be testing the delta between the last release and the new release but we will be testing the whole application. As we do for any

other Structured test too, we will execute two passes of the Structured test (First pass and End to End). You know exactly how the First pass and End to End work, the format is not any different than what you already know.

PDPS – The PDPS Baseline Structured test typically take about 4-6 weeks to complete. Similar to the SPEXS Baseline Structured test, PDPS also has 2 rounds of testing (First pass and End to End).

Due to the nature of the SPEXS And PDPS Applications, many Jurisdictions have common processes/code that is shared between the two applications. Hence, the PDPS application does include some SPEXS transactions as well. If you are taking the SPEXS Structured test first and the PDPS next, in case during the PDPS Structured test you make some code changes which would impact the SPEXS transactions, we would request that we go back and test a few test cases for the SPEXS application (kind of a Regression test) in order to ensure the changes have been subsumed gracefully.

The SPEXS and PDPS applications must be tested consecutively and cannot be tested concurrently. So the total testing timelines should SPEXS+PDPS testing timelines.

CD31 – The File formats for CD31 would be verified again as you are doing a System rewrite and would have a new extraction in place for the CD31 execution on the New system. The test would be similar to what we have done during the 6.0 Structured test. In case, there are changes to any IP addresses etc that you have used for sending the CD31 files on your legacy system, please let us know so we can send you the forms for connectivity.

Smoke Test – Since you are using an Alternate gap code for your Structured testing, we would need to perform a smoke test at the end once you have deployed all the code to the AK gap code. This would typically be about 8-10 business days.

I also wanted to make a note that Jurisdictions are required to implement the Structured tested changes to production with 6-8 weeks of completing the Structured test for all applications with AAMVA. In case your implementation will be longer than the recommended 6 to 8 weeks, in that case, we would require to reassess the timelines and conduct a Smoke test in order to ensure that there were no changes to the Structured tested code. This test would be a subset of the Structured test cases for the SPEXS and PDPS application and a couple of end to end tests for SSOLV.

Is there any other applications that I may have missed that you are implementing on the New System, please let me know.

The Casual test plan for SPEXS is very similar to the Casual test plan we had for 6.0, Siri will be able to send you the updated version. Also, for PDPS as well if you are using the AI gap code then we will need to put in a request with NDR to add the alternate gap code to their System before you begin any testing. For the PDPS Application, we do not have a Baseline Casual test plan but you can certainly use the PDPS Regression test plan we had while you tested the 6.0 Structured testing. We can alter the test plan to include AI instead of AK.

For now, please reach out to Siri with any questions for either of the applications, however, as you get closer, in case the POC changes I will surely let you know.

Please feel free to let me know in case there is anything else I can help with.

Thank you.

Cc: Holenarsipura, Subramanya <SHolenarsipura@aamva.org>
Subject: RE: Structured testing for SSOLV using AI

Hi Sruti,

Thank you for your reply. Can you please let us know what is involved for the first round of testing SSOLV using the AI gap code? Is that a casual test?

Our plan is to go live the first week of December, 2017. So we are coordinating testing for NMVTIS, SPEXS, PDPS, and SSOLV. We are in active discussions with the NMVTIS team already. Here is our current status for each application.

NMVTIS: Currently casual testing. Structured tests can begin as early as April 24, but only if we can return AAMVA's questionnaires this week. As far as we know, all messages, inbound, outbound, solicited, and unsolicited are functioning.

SPEXS: All messages are set up. Most are fully functional, although ROOSW and ROOSC are still having issues. We are awaiting sample Call list formatting from you on these. Casual test plan was sent last July, and we are waiting for you to either send an updated casual test plan or confirm we will be using the previous one. We would like to begin casual testing in 2 weeks, and hopefully begin structure testing in 4 weeks.

PDPS: All messages are functioning, though we are still performing internal tests. We are ready for a casual test plan if you have one. I was waiting on this so as not to overwhelm you. If we have the same tester for SPEXS and PDPS (Siri?) then we'd like to plan to start PDPS testing immediately following SPEXS testing. This should eliminate the need for an additional PDPS regression test.

SSOLV: All messages are functioning, and we are ready to begin testing as soon as you are. However, since we are not ready to change our test environment to AK, we can only go so far with this. We would like to know an approximate amount of time required for SSOLV structure testing, because since we will need to be on AK, it will probably have to come last – like in November, if possible.

We are aware there will need to be smoke tests for all these applications before we go live, so we hope that you can provide an approximate length of time for smoke testing for all these applications so we can plan for it.

I hope that answers your questions!

Subject: RE: Structured testing for SSOLV using AI

Sure Mina. I will send you an email later today with all the details.

For the SSOLV testing – You can do the first round of testing with AAMVA test tools using the AI alternate gap code. However, for the final or end to end test, you will need to test with SSA and they use only Standard Jurisdiction gap codes, you will need to use AK.

For other applications, I will send you highlevel details and would really appreciate if you can also send us your project and Implementation timelines so we are prepared with our resources.

Thank you.

Subject: RE: Structured testing for SSOLV using AI

Mina,

For SSOLV, we typically have the states test with us AA (Pseudo Gap code acting as SSA) so we verify the Message formats and data on the messages before you test with SSA. It is the same set of test cases that we have for the execution with AA and with SSA. Since you will be testing with an alternate gap code, you will need to perform the end to end test with SSA after you have moved all your code to AK gap code.

For the testing timelines for SPEXS and PDPS –

SPEXS (6.0) – Typically, we have seen Jurisdictions take about 6 to 8 weeks. There is a SPEXS Baseline Structured test plan that Jurisdictions take if they are implementing the new system as a 6.0 State. The Test plan is different than the one you used for the 6.0 Structured test, the Baseline Structured test has more scenarios as we will not just be testing the delta between the last release and the new release but we will be testing the whole application. As we do for any other Structured test too, we will execute two passes of the Structured test (First pass and End to End). You know exactly how the First pass and End to End work, the format is not any different than what you already know.

PDPS – The PDPS Baseline Structured test typically take about 4-6 weeks to complete. Similar to the SPEXS Baseline Structured test, PDPS also has 2 rounds of testing (First pass and End to End).

Due to the nature of the SPEXS And PDPS Applications, many Jurisdictions have common processes/code that is shared between the two applications. Hence, the PDPS application does include some SPEXS transactions as well. If you are taking the SPEXS Structured test first and the PDPS next, in case during the PDPS Structured test you make some code changes which would impact the SPEXS transactions, we would request that we go back and test a few test cases for the SPEXS application (kind of a Regression test) in order to ensure the changes have been subsumed gracefully.

The SPEXS and PDPS applications must be tested consecutively and cannot be tested concurrently. So the total testing timelines should SPEXS+PDPS testing timelines.

CD31 – The File formats for CD31 would be verified again as you are doing a System rewrite and would have a new extraction in place for the CD31 execution on the New system. The test would be similar to what we have done during the 6.0 Structured test. In case, there are changes to any IP addresses etc that you have used for sending the CD31 files on your legacy system, please let us know so we can send you the forms for connectivity.

Smoke Test – Since you are using an Alternate gap code for your Structured testing, we would need to perform a smoke test at the end once you have deployed all the code to the AK gap code. This would typically be about 8-10 business days.

I also wanted to make a note that Jurisdictions are required to implement the Structured tested changes to production with 6-8 weeks of completing the Structured test for all applications with AAMVA. In case your implementation will be longer than the recommended 6 to 8 weeks, in that case, we would require to reassess the timelines and conduct a Smoke test in order to ensure that there were no changes to the Structured tested code. This test would be a subset of the Structured test cases for the SPEXS and PDPS application and a couple of end to end tests for SSOLV.

Is there any other applications that I may have missed that you are implementing on the New System, please let me know.

The Casual test plan for SPEXS is very similar to the Casual test plan we had for 6.0, Siri will be able to send you the updated version. Also, for PDPS as well if you are using the AI gap code then we will need to put in a request with NDR to add the alternate gap code to their System before you begin any testing. For the PDPS Application, we do not have a

Baseline Casual test plan but you can certainly use the PDPS Regression test plan we had while you tested the 6.0 Structured testing. We can alter the test plan to include AI instead of AK.

For now, please reach out to Siri with any questions for either of the applications, however, as you get closer, in case the POC changes I will surely let you know.

Please feel free to let me know in case there is anything else I can help with.

Thank you.

Subject: RE: Structured testing for SSOLV using AI

Hi Sruti,

Thank you for your reply. Can you please let us know what is involved for the first round of testing SSOLV using the AI gap code? Is that a casual test?

Our plan is to go live the first week of December, 2017. So we are coordinating testing for NMVTIS, SPEXS, PDPS, and SSOLV. We are in active discussions with the NMVTIS team already. Here is our current status for each application.

NMVTIS: Currently casual testing. Structured tests can begin as early as April 24, but only if we can return AAMVA's questionnaires this week. As far as we know, all messages, inbound, outbound, solicited, and unsolicited are functioning.

SPEXS: All messages are set up. Most are fully functional, although ROOSW and ROOSC are still having issues. We are awaiting sample Call list formatting from you on these. Casual test plan was sent last July, and we are waiting for you to either send an updated casual test plan or confirm we will be using the previous one. We would like to begin casual testing in 2 weeks, and hopefully begin structure testing in 4 weeks.

PDPS: All messages are functioning, though we are still performing internal tests. We are ready for a casual test plan if you have one. I was waiting on this so as not to overwhelm you. If we have the same tester for SPEXS and PDPS (Siri?) then we'd like to plan to start PDPS testing immediately following SPEXS testing. This should eliminate the need for an additional PDPS regression test.

SSOLV: All messages are functioning, and we are ready to begin testing as soon as you are. However, since we are not ready to change our test environment to AK, we can only go so far with this. We would like to know an approximate amount of time required for SSOLV structure testing, because since we will need to be on AK, it will probably have to come last – like in November, if possible.

We are aware there will need to be smoke tests for all these applications before we go live, so we hope that you can provide an approximate length of time for smoke testing for all these applications so we can plan for it.

I hope that answers your questions!

Subject: RE: Structured testing for SSOLV using AI

Sure Mina. I will send you an email later today with all the details.

For the SSOLV testing – You can do the first round of testing with AAMVA test tools using the AI alternate gap code. However, for the final or end to end test, you will need to test with SSA and they use only Standard Jurisdiction gap codes, you will need to use AK.

For other applications, I will send you highlevel details and would really appreciate if you can also send us your project and Implementation timelines so we are prepared with our resources.

Thank you.

Hi Sruti,

I'd much rather have it in writing, if at all possible. I've got so many meetings I don't have time to actually get anything done (much less remember what is said). Can you please just send me the information to review, and if we need to meet, we can set that up?

Hi Mina,

Good afternoon! Is it possible to set up a conference call in order for us to discuss the timelines and the testing that needs to be done?

Please let me know.

Thank you

Dear S2S Committee members,

Please find attached the minutes of the S2S Governance Committee meeting held on 2/28/17.

You should also have received an updated meeting invitation to the meeting scheduled for 3/23/17. The meeting invitation includes the draft agenda for this meeting. Please let us know if you did not receive it. Suggestions for additional discussion topics are also welcome.

If you have not already done so, please let me, Philippe and/or Chrissy know if you would like to volunteer for the Nominating committee, or if you would be willing to serve in one of the officer positions of the S2S Governance Committee.

As a reminder, copies of all S2S Governance Committee documents can be found on the S2S Governance Committee SharePoint site at the following links:

Tom Osterbind	Clerus	<input checked="" type="checkbox"/>

Meeting Minutes:

1. Opening remarks

Opening remarks were provided by Jean Shiimoto (AAMVA Board chair) and Chrissy Nizer (DIVS Chair, and AAMVA Board representative to the S2S Governance Committee). The Governance Committee members were thanked for their willingness to participate, and the importance of the work and of the program were noted.

2. Introductions

The meeting attendees introduced themselves.

3. S2S Governance Committee Charter

Anne Ferro (AAMVA CEO) walked the meeting through the salient points of the S2S Governance Committee Charter. The primary purpose and S2S Governance Committee duties were highlighted, and the officer positions were reviewed.

Chrissy Nizer requested anyone that was interested in serving either on the Nominating Committee or as an officer of the S2S Governance Committee to let her know.

4. Financial Report

Lynn Wasylina (AAMVA Finance staff liaison) provided a financial report of the S2S program. It was pointed out that the original financial model expected a deficit in FY17 and in FY18, to be covered by funding via Mississippi over 2 years. Changes since the original financial model was compiled include all the funding from Mississippi being provided in FY17, lower revenue due to fewer states participating, and lower expenses. Instead of a loss of \$977,968, a surplus of \$2,173,522 is now being estimated for FY17.

The next step is to share the financial report with the AAMVA Board at the April Board meeting, and subsequently to relay any resulting guidance to the S2S Governance Committee.

5. State outreach / Communication plan

Loffie Jordaan (AAMVA IT staff liaison) reviewed the state outreach and communication plan with the meeting attendees. The location of documents to help track and support outreach actions were pointed out. From the Governance Committee membership, Lead states were identified to reach out to CDLIS-only states. The goal of the outreach is to market S2S to the CDLIS-only states, and to obtain information from these states on their vision and timelines for S2S. The Governance Committee was requested to provide an update of outreach actions at the next Governance Committee meeting.

6. Next meeting agenda and meeting schedule

Philippe Guiot (AAMVA staff) reviewed a proposed agenda for the next meeting. Future topics for consideration by the S2S Governance Committee were also suggested, with a request for additional input.

A future meeting schedule was submitted, with a request to members to comment if the meeting dates would work or not work. It was noted that the location of the face-to-face meeting (suggested date June 1, 2017) will be a choice between the AAMVA offices (in Arlington, VA) and a yet to be identified central location, and that an email in this respect will be sent out to the Governance Committee soon.

7. New business

Chrissy Nizer opened the floor for new business. There being none, the meeting was closed.

Notes, Decisions, Issues:

Action Items:

<i>Action Item</i>	<i>Assigned To</i>	<i>Due Date</i>
Notify Chrissy Nizer if you are interested in serving on the Nominating Committee or as an officer of the S2S Governance Committee	All S2S Governance Committee members	Before the next S2S Governance Committee meeting
Reach out to CDLIS-only states as agreed in the meeting	Lead volunteer states	Feedback at the next S2S Governance meeting
Let Philippe Guiot know about any concerns with the proposed future meeting schedule	All S2S Governance Committee members	As soon as possible

Next Meeting: March 23, 2017 (3pm – 4pm EDT)

Subject: RE: AK - NMVTIS Re-write AMIE Online Updates/Inquiries Meeting Minutes

Hi AK,

Could you please provide me a VIN you would like to use for the response to inquiry. It would be best if you can use a VIN that has all the data elements and occurrences that you plan to respond with filled and that you respond with both the HC and H1 if you provide lien holder overflow.

Also, please provide a VIN that I can perform a change state of title on so you can respond with the HD (please check that all fields you plan to return are filled).

Once I have these I will update the test data spreadsheet with the VINs we used and perform the inquiry and CSOT on those VINs. You will be responsible for checking your responses for this testing.

Below are some times we are available to meet weekly. Please let me know if either of these work for you:

Starting Tuesday, 3/14 from 2:00 – 3:00 pm ET (10:00 – 11:00 am AKT)
Starting Tuesday, 3/14 from 4:30 – 5:30 pm ET (12:30 – 1:30 pm AKT)

Thanks,
Susan Creighton / 703.908.5893 office

Hi Susan,

I understand, but unfortunately my hands are tied until the documents are returned to me. My manager has the most recent data and was working on it, but is currently out of the office until the end of the week. It will likely be Monday at the earliest before we can get the questionnaires to you.

I have confirmed per David Nolen, our vehicles programmer, that the mapping has not changed. If that helps you begin to move it along until I get the questionnaire back, please use that bit of information.

Do we still need to meet tomorrow, or do we need to wait until you have received the questionnaires?

Hi Mina,

Understood. Whether we meet is really up to AK. At this point I am waiting on the questionnaires and also for AK to let me know they have sent the VIN add transactions for the 2 VINs that will be used for casual testing the unsolicited messages. Once I know that AK has set those records up on your DB as well as NMVTIS I will run the transactions to request the state detail data from you. Please let me know if you want me to cancel tomorrow's meeting.

Thanks,
Susan Creighton / 703.908.5893 office

Hi Susan,

I understand, but unfortunately my hands are tied until the documents are returned to me. My manager has the most recent data and was working on it, but is currently out of the office until the end of the week. It will likely be Monday at the earliest before we can get the questionnaires to you.

I have confirmed per David Nolen, our vehicles programmer, that the mapping has not changed. If that helps you begin to move it along until I get the questionnaire back, please use that bit of information.

Do we still need to meet tomorrow, or do we need to wait until you have received the questionnaires?

Subject: RE: AK - NMVTIS Re-write AMIE Online Updates/Inquiries Meeting Minutes

Hi AK,

Could you please provide me a VIN you would like to use for the response to inquiry. It would be best if you can use a VIN that has all the data elements and occurrences that you plan to respond with filled and that you respond with both the HC and H1 if you provide lien holder overflow.

Also, please provide a VIN that I can perform a change state of title on so you can respond with the HD (please check that all fields you plan to return are filled).

Once I have these I will update the test data spreadsheet with the VINs we used and perform the inquiry and CSOT on those VINs. You will be responsible for checking your responses for this testing.

Below are some times we are available to meet weekly. Please let me know if either of these work for you:

Starting Tuesday, 3/14 from 2:00 – 3:00 pm ET (10:00 – 11:00 am AKT)

Starting Tuesday, 3/14 from 4:30 – 5:30 pm ET (12:30 – 1:30 pm AKT)

Thanks,
Susan Creighton / 703.908.5893 office

Hi AK,

It was nice meeting with you. Attached are the minutes for today's meeting. Please let me know if I missed or misstated anything.

I am also attaching sample initial load files as well as a sample initial load test case plan and the data sync specs as promised. I will be sending some dates/times we are available for weekly meetings and data we can use for AK to test their response to unsolicited messages soon.

Please don't hesitate to let me know if you have questions.

Thanks,

Subject: Casual testing AI SPEXS

Good morning, Siri,

Now that we have the casual test plan, we can begin creating these drivers. Casual testing is confirmed to begin on 3/27.

You will be SPEXS testing with Gary Tancik (cc'd). I'm requesting to be cc'd on all testing correspondence, please, for casual and structured. Gary is in Alaska, and his normal hours are 8-5 with a lunch break 1-2pm Alaska time. This translates to 12pm-8pm Eastern. Can you both work out between you what, if any, scheduling changes are needed during testing? I remember you usually left at 3:30pm Eastern, which would only give you a common window of 3 ½ hours.

If you haven't already done so, please turn off the automatic pointer delete in test for AI.

Thank you both, and I look forward to a successful testing experience!

To: NMVTIS Working Group,

Our next NMVTIS Working Group meeting is scheduled for Wednesday, March 15th at 3:00pm EDT. To join the call, dial **1-888-404-8993** and then enter the pass code **4188829**.

Our agenda for the call is:

NMVTIS Update:

- NMVTIS_ALL Contact List clean-up – Wrap up
- New Change Data Request Form roll out
- The NMVTIS Webinars
- Individuals reporting of Junk and Salvage data
- Discuss modifications to the Suspense Report to support State Web Services (see attached mock-up)

Open discussion

- Follow-up on Illinois issuing titles without receipt of a title when a lien is involved as per Ardis.Wells@dot.wi.gov

Next Meeting:

April 19, 2017 at 3:00pm EDT

From: Neil Pitt <NPitt@aamva.org>

To: NMVTIS Working Group,

Our next NMVTIS Working Group meeting is scheduled for Wednesday, March 15th at 3:00pm EDT. To join the call, dial **1-888-404-8993** and then enter the pass code **4188829**.

Our agenda for the call is:

NMVTIS Update:

- NMVTIS_ALL Contact List clean-up – Wrap up
- New Change Data Request Form roll out
- The NMVTIS Webinars
- Individuals reporting of Junk and Salvage data
- Discuss modifications to the Suspense Report to support State Web Services (see attached mock-up)

Open discussion

- Follow-up on Illinois issuing titles without receipt of a title when a lien is involved as per Ardis.Wells@dot.wi.gov

Next Meeting:

April 19, 2017 at 3:00pm EDT

From: Olzenak, Brianna M (DOA)
Sent: Tuesday, March 14, 2017 9:14 AM
To: helpdesk@aamva.org
Subject: RE: (10118722)No Match - [REDACTED] ISSUE=156629 PROJ=11

Oscar,
I show that her SOR is listed as AK with a CDL pointer. Please let me know if you have any other questions.

Thanks,
Bri Olzenak

Notification of Ticket Change

Ticket: (10118722)No Match - AK CDL [REDACTED] AWP
Ticket Number:156629

Status: Pending **Date:** 03/02/2017
Time: 09:47:22 **Creation Date:**03/01/2017
Creation Time:18:10:35 **Created By:** diqcustomerservice@carcogroup.com

Comment:

Good morning AK,

Could you please look into the AK driver with the [REDACTED]

According to CARCO (CDLIS 3rd Party Provider) copied in this ticket, the driver has a valid AK CDL, however the CDLIS pointer is missing. AK might need to add the missing pointer. Please let us know what you find out.

Regards,
Oscar A. Castillo | System Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va.

Subject: AAMVA Workshop 2017 - Daily Drive - Wednesday

Welcome to the 2017 Workshop & Law Institute

Wednesday, March 15

AAMVA's Chair of the Board Jean Shiomoto welcomes you to the Workshop & Law Institute in Minneapolis.

Download the App

Visit the Apple or Google Play store and download the AAMVA Conferencing app. After opening, click the + button and choose the Workshop app.

Don't Forget to Stop by Registration

Before heading to the opening session or the Yeah We Do That session, make sure to stop by the registration desk to pick up your name badge and conference bag.

7:15 am - 3:30 pm

Nicollet Promenade

The 2017 Workshop & Law Institute app is courtesy of NIC Inc.

Opening Session at 9:00 am

After grabbing your name badge and a light breakfast, meet us in Nicollet AB for the Opening Session. You'll hear from AAMVA's Chair of the Board Jean Shiomoto and our President & CEO Anne Ferro, among others. Stick around for a short report to learn what AAMVA's three standing committees and working groups have been focusing on.

9:00 am - 10:30 am

Exhibit Hall

Opening today at 8:00 am, continental breakfast will be served in the exhibit hall until 8:45 am.

Great Expectations

We want to know what you're expecting from this year's Workshop. Send us a note at info@aamva.org to let us know your goals for your time at the Workshop & Law Institute.

- What do you expect to get out of your time in Minneapolis?
- Anything specific you're hoping to learn more about?
- What are the key take aways that will make your Workshop experience worth the time and effort?

In the opening session, President & CEO Anne Ferro will be sharing a summary of attendee expectations and we will work together to track our progress and discuss how well we did by the end of the conference on Thursday afternoon.

General Session This Afternoon

[Automated and Connected Vehicles](#)

Stop by after lunch for this exciting session where we will provide an overview of the Federal Automated Vehicles Policy, in particular the Model State Policy. You'll also hear about California's regulations, a new Transportation Research Board project, and research being done at the Toyota Research Institute.

1:00 pm - 2:15 pm

Nicollet AB

Yeah! We Do That

Come down early and take advantage of this session where you'll learn about the many ways your association can help solve your latest business challenges. This is also a perfect session for those new to AAMVA to get an overview of our wide range of products, services, and best practices created specifically for you, our member. Breakfast will be served for session attendees.

7:30 am - 8:45 am

Nicollet C

Workshop Daily Drive Sponsored by

Don't forget to stop by during session breaks to network with fellow attendees and exhibitors.

Hours:

8:00 am - 3:00 pm

5:30 pm - 6:30 pm

Lunch:

Lunch will be available in the Exhibit Hall from **12:00 pm - 1:00 pm**.

Free WiFi Available

Network: Hyatt Meeting Space
Password: AAMVA2017!

Reception Tonight in Exhibit Hall

Unwind and network with fellow attendees while visiting with industry members in the Hyatt Exhibit Hall. Enjoy passed hors d'oeuvres along with complimentary drinks.

5:30 pm - 6:30 pm

Thank You to Wednesday's Sponsors

Subject: Registration for 2017 CDL Coordinator Meeting

All,

You are receiving this email because you submitted an attendee form to attend the 2017 CDL Coordinator/IT Meeting in St. Louis. As of today you have not completed the online registration and you are not yet on the rooming list.

You should have received an email from AAMVA with a link for you to use to complete your meeting registration. You need to click on the link and enter in your name, arrival and departure dates. If you fail to do so you will not be on the rooming list and will not have a room when you arrive in St. Louis next month.

Please complete the registration process as soon as you can so we can make sure you are on the rooming list.

Thanks!

Kevin

Subject: AAMVA Event - 2017 April CDL Coordinators & IT Meeting Registration Invitation

**2017 CDL Coordinators /IT Meeting
April 11 - 13, 2017
St. Louis, Missouri**

Dear Barbara:

Thank you for letting us know that you plan on attending the CDL Coordinators /IT Meeting at the Hyatt Regency St. Louis at The Arch located at 315 Chestnut St., St. Louis, MO 63102; phone: 314-655-1234.

The following information is provided in order to assist you in registering and making hotel reservations.

Hotel Accommodations: AAMVA will make hotel reservations for all attendees at the Hyatt Regency St. Louis at The Arch located. Please do NOT contact the hotel directly. You will be asked to provide your check in and check out dates during the online registration process.

Airport: St. Louis Lambert International Airport

Arrival & Registration: Monday, April 10

Meeting Dates: Tuesday, April 11 - Thursday, April 13

Departure: After 7:00 pm on April 13 or anytime April 14

Meals: No meals will be provided during the meeting. Attendees will be responsible for all meals each day and will be reimbursed for meals on a per diem basis. Please see the January 31, 2017 meeting announcement email for the per diem amounts.

Attire: Casual

Meeting Registration: Please register online now using the link: [Register Now](#) and complete your registration no later than Monday, March 13, 2017. AAMVA will forward all the names and arrival / departure dates to the hotel. Confirmation numbers will be emailed to all attendees closer to the meeting date. If you are having problems with logging into "My AAMVA" to register, please follow instructions in this link for assistance:

<http://www.aamva.org/workarea/DownloadAsset.aspx?id=4023>

FMCSA Attendees Only - Once you get to the Hotel Reservation portion of the registration, please change the Payment Method to "All Charges to be Paid by Individual." The field has been defaulted otherwise to accommodate the large number of jurisdictional participants.

Airline Reservations for Jurisdictional Attendees Only - You will be receiving an email from AAMVA (Member & Conference Services) asking you to make your airline reservation using our online reservation tool called Concur. Please follow the steps carefully to complete your reservation.

Please note that your flight reservation will not be complete until you are at the end of the booking steps and click on the "purchase ticket" button. This will be mentioned in the instructions as well.

Transportation to Hotel: Reservations are strongly suggested but not required for the St. Louis, Missouri airport shuttle. Please call 24 hours a day to (877) STLGOVAN (785-4682). The cost is \$25 for one person one way or \$45 roundtrip for the St. Louis airport shuttle

Meeting & Program Questions: Kevin Lewis, [klewis@aamva.org](mailto:kewis@aamva.org), 703.908.2823

Travel Questions: Damian Bass, dbass@aamva.org, 703.908.5773

If you are a member of a hotel loyalty program please note that some hotels require that you self-pay your hotel room. Loyalty programs often entitle you to hotel points or other amenities. If you prefer to ensure point accumulation by paying for your lodging directly and then getting reimbursed by AAMVA (as opposed to having AAMVA pay the hotel directly), please change the Payment Method to "All Charges To Be Paid By Individual" as you register online for the meeting.
